INTERNAL MEMO

13 June 2025

FROM
Musa Makhunga
Acting: Chief Executive
officer

TO
All Vehicle Users

This memo is confidential and NOT for publication

REFERENCE: Fleet Vehicle Usage After Business Hours and on Weekends.

Fleet management is currently monitoring all vehicle usage for after-hours and weekend use. We have noticed that some vehicles are being used for personal use after-hours and over the weekends without any authorization from the fleet officials or permission from their immediate supervisors. This is becoming a serious challenge as vehicles are being damaged and a high fuel consumption is being used for personal use.

Fleet Management is in line with the City's Fleet Policy and will be made available to all employees upon request. The fleet policy also allows fleet officials to ground vehicles after-hours and over the weekends if they are not authorized for any official duty.

Policy:

Fleet vehicles are to be parked at designated locations and are not to be used after designated business hours or on weekends with prior written authorization from the fleet office.

Usage Restrictions: Council vehicles should only be used for official, work-related purposes.

Unauthorized use: Drivers should not deviate from official routes or conduct personal affairs while on duty.

Roadworthiness: Vehicle must be in a clean, safe, and roadworthy state at all times.

Passenger Restrictions: Only authorized personnel (council employees and work-related passengers) should be carried in the vehicles.

Alcohol Consumption: No alcohol consumption is allowed while driving or in charge of council vehicle.

INTERNAL MEMO

Vehicle Tracking system: Council vehicle tracker policies generally require vehicles to be equipped with a tracking system and specify its usage and responsibilities for drivers. These policies aim to safeguard council assets, track vehicle usage, and assist in locating stolen or hijacked vehicles.

Prohibited Times:

- After-hour times are 6PM to 6AM Monday to Friday
- Weekends (Saturday and Sunday)

Grounding Vehicles:

vehicles will be grounded from 6PM to 6AM (Monday to Friday) and during weekends, unless if an employee is authorized to work overtime or work on a special project. A memo must be sent to the Fleet office in time requesting for vehicles to be ungrounded for after-hours/ weekend use.

Exceptions:

On-call / Standby Duty: Authorized for employees on standby duty.

Special Circumstances: Requests for after-hours or weekend use must be submitted through the designated form / process to the fleet office for approval by the Fleet Manager.

Safeguards: for approved after-hours/weekend use, drivers must guarantee safe parking area or other secure locations approved by the Fleet Office.

Consequences of Unauthorized Use:

Unauthorized use of a fleet vehicle after hours or on weekends will result in (disciplinary action, e.g, a formal warning, suspension of vehicle usage privileges, or other specified actions).

Fleet Handbook:

A fleet handbook can provide drivers with a clear understanding of safety rules and procedures,

The relevant standards may be as prescribed by the Standards South Africa, International Standards Organisation or any authority accredited or recognized by the South African National Accreditation System, with which the equipment or material or workmanship should comply.

8.2.2 Use of Vehicles

Vehicles must be operated in a manner that optimizes fleet productivity and the efficient and effective use of resources.

- a. Fleet Users must implement mechanisms and assign resources to monitor the use of each Vehicle using the VMT and other systems available to them;
- b. Persons responsible for or in control of a Vehicle must comply with all legislative and regulatory requirements and/or by-laws;
- c. Drivers must conduct basic safety and mechanical inspections on their vehicles prior to use on a daily basis, and should report any defects to their line managers without delay;
- d. Vehicles assigned to employees for purposes of commuting between their place of residence and workplace/office must be declared and reported in terms of section 66 of the MFMA (Expenditure on Staff Benefits);
- e. Employees in receipt of a Travel Or Loco Allowance are not permitted to use Vehicles for purposes of commuting between their place of residence and workplace/office; and
- f. Vehicles that are utilized for less than 85% of their available time may be withdrawn from the defaulting Fleet User and reassigned elsewhere in the City.

8.2.3 Maintenance and Upkeep

Vehicles must be repaired or maintained in accordance with the Manufacturer's Standards/Guidelines and must be kept clean, operational and ready to use condition.

- a. Fleet Users must establish systems to ensure the upkeep and proper maintenance of all Vehicles acquired by or assigned to them; and
- b. Vehicle Audits & Inspections must be conducted regularly, however at intervals of not less than every six (6) months.

8.2.4 Termination, Replacement & Renewal

Vehicles (leased or owned) must be terminated, replaced or renewed when they have reached their term.

- a. An aged Vehicle may only be replaced where the associated costs of the Vehicle are higher than those of a new equivalent vehicle in terms of the economic life-cycle costing method, taking into account the following commercial factors, i.e. depreciation of the vehicle, cost of operation, maintenance costs, downtime and obsolescence;

- b. The following criteria will apply where it is determined that a specialized vehicle owned by the City is due for replacement in terms of the economic life-cycle costing method:
 - i. The total cost of operating the unit must be projected for the subsequent 24-months and compared with projected replacement cost of a new equivalent over the same period;
 - ii. The Unit with a projected annual cost that is less than the cost of an equivalent replacement by 30% or more, will be refurbished; and
 - iii. The Unit with a projected annual cost that is more than the cost of its replacement will be replaced with a new Unit. In this regard the Unit with the largest annual cost variance will be replaced first.

8.2.5 Traffic Offences

All Traffic Fines must be redirected to the responsible driver or operator and may not be paid from the fleet budget.

- a. Drivers or operators must be held personally responsible for the payment and/or resolution of Traffic Fines incurred while a vehicle was assigned to them;
- b. Drivers that accumulate maximum demerit points in terms of the AARTO such that their licences are revoked or suspended may not be allowed to operate any Vehicle until their licence has been restored; and
- c. Line Management must take steps to determine the capacity of an employee whose licence is revoked or suspended and make appropriate recommendations to Group Human Capital Management (GHCM) in this regard.

8.2.6 Toll Fees

The costs of road tolls for official travel, including Open Road Tolling shall be paid from the fleet budget of relevant fleet users.

8.2.7 Termination, Scrapping & Disposal of Vehicles

Decommissioning, termination & disposal/transfer of Vehicles must be facilitated by Fleet Users in conjunction with GCSS.

- a. The Fleet Manager of a user Entity must compile an official report regarding the decommissioning, termination & disposal/transfer of Vehicles for approval by the Executive Head and Finance Head of the affected fleet user Entity;
- b. Fleet Users must plan and arrange alternatives in instances where vehicles are removed from their operations (contingency planning); and
- c. GCSS will procure transversal contracts for the sale & disposal of Vehicles according to the needs of Fleet Users City-wide.

8.2.8 Vehicle Management Technology (VMT)

All Vehicles must be fitted with Vehicle Management Technology (VMT) or Systems.
