

Law Firm module User Guide

This law firm module has three types of users.

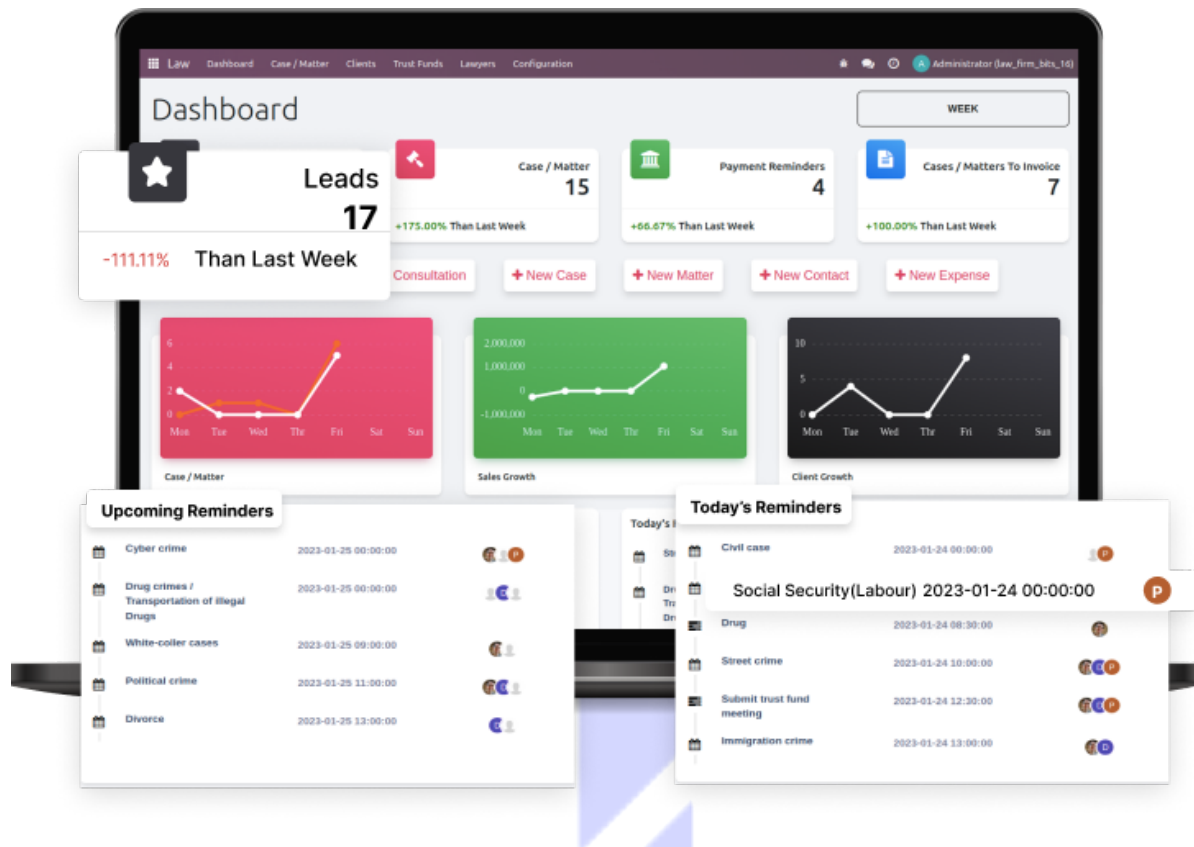

- Administrator
- Lawyer
- Assistant lawyer

// Dashboard //

A law firm dashboard is a graphical interface that displays vital metrics, data, and information about a legal firm's activities.

A law firm dashboard's purpose is to provide quick and easy access to critical information that can assist the firm in making informed decisions and improving operations.

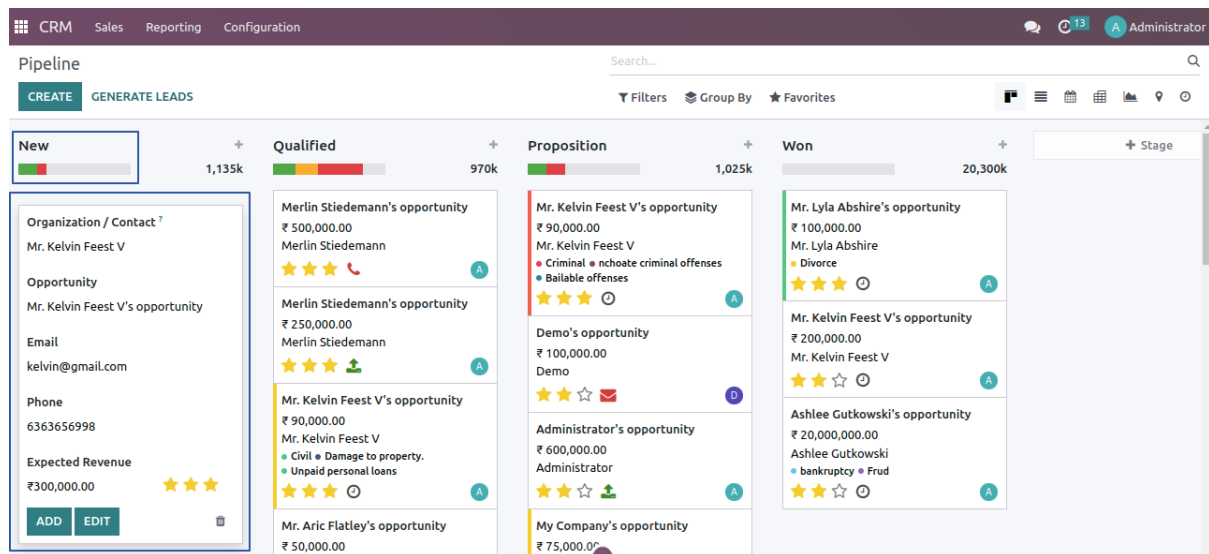

The Dashboard provides access to all relevant information and functions that are necessary for daily operations. Vital graphs are displayed to assist in informed decision making. By clicking on the "Leads" card, the user will be redirected to the Lead Management page. The same applies to all other cards.

The Dashboard is designed to offer an organized and comprehensive view of the following key features: Lead Management, Case and Matter Management, Default Task Management, Client Management, Financial Performance (including Trust Account and Payment Reminders), Consultation (displaying today's and upcoming meeting reminders), Data Workflow, and Performance Analytics.

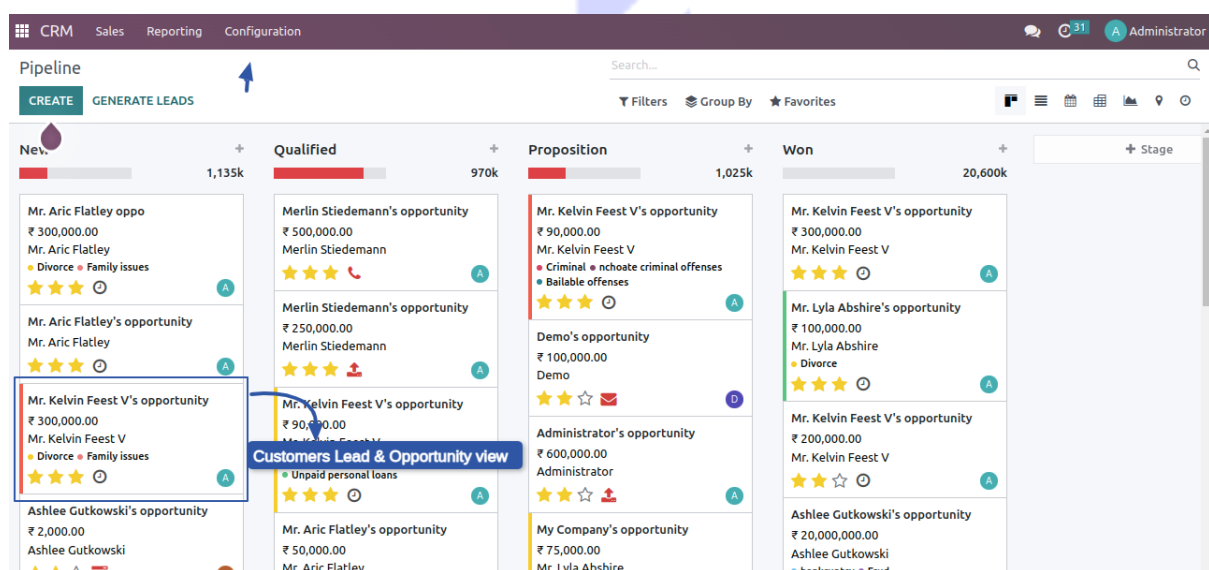

// CRM //

Lets start with very essential module “CRM”. In this module, we have two ways to generate leads.

- 1) You can see on the dashboard that there is a "new lead" button; click on it to create a new lead.
- 2) From visitors, if you have website & contact us form in odoo or integrated with this database.

As you can see, the lead has now been converted into an opportunity in below image.

Internal Notes | Extra Information

A summary trial is a sort of trial in which issues are settled swiftly, the procedure is reduced, and the events are promptly documented. Legal provisions for summary trials are found in Sections 260-265 of the Code of Criminal Procedure.

Following the opportunity, the case and matter will be converted with assistance. Here, you can see opportunities converted into legal matters.

Internal Notes | Extra Information

After click on the matter you can create a new Matter.
 Then you can add all detailes which is useful your matter.

A summary trial is a sort of trial in which issues are settled swiftly, the procedure is reduced, and the events are promptly documented. Legal provisions for summary trials are found in Sections 260-265 of the Code of Criminal Procedure.

You can click on the matter or cash button, and you can create both of them. In the below screenshot, you can see "I create matter."

 Crime Type:

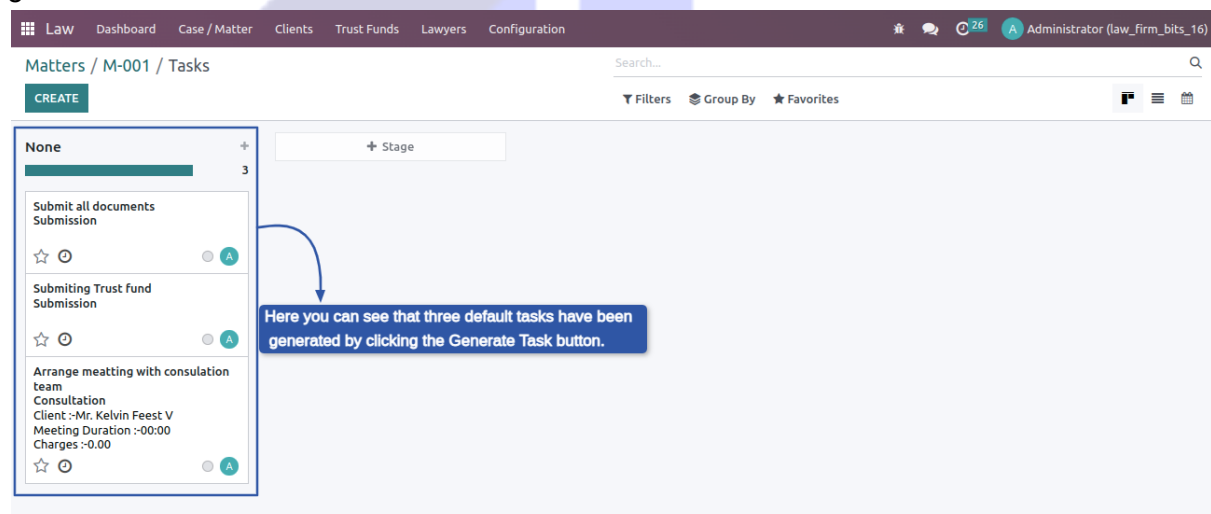

Description | Settings

The Matter Direct has been created in the Law Firm module, as shown in the screenshot below.

You can provide all relevant details in the matter, such as the matter number, court, judge, criminal kind, and so on.

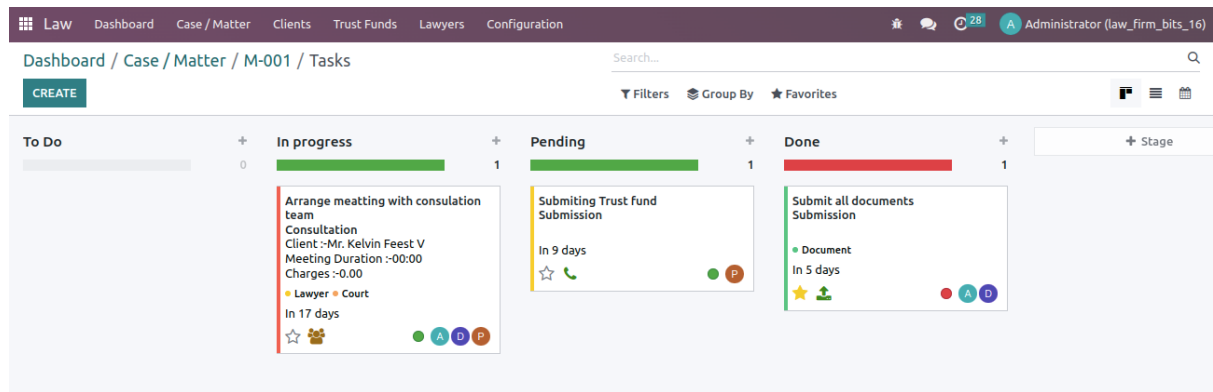

In the above screenshot, you can see that clicking on "Generate Tasks" automatically generates the task.

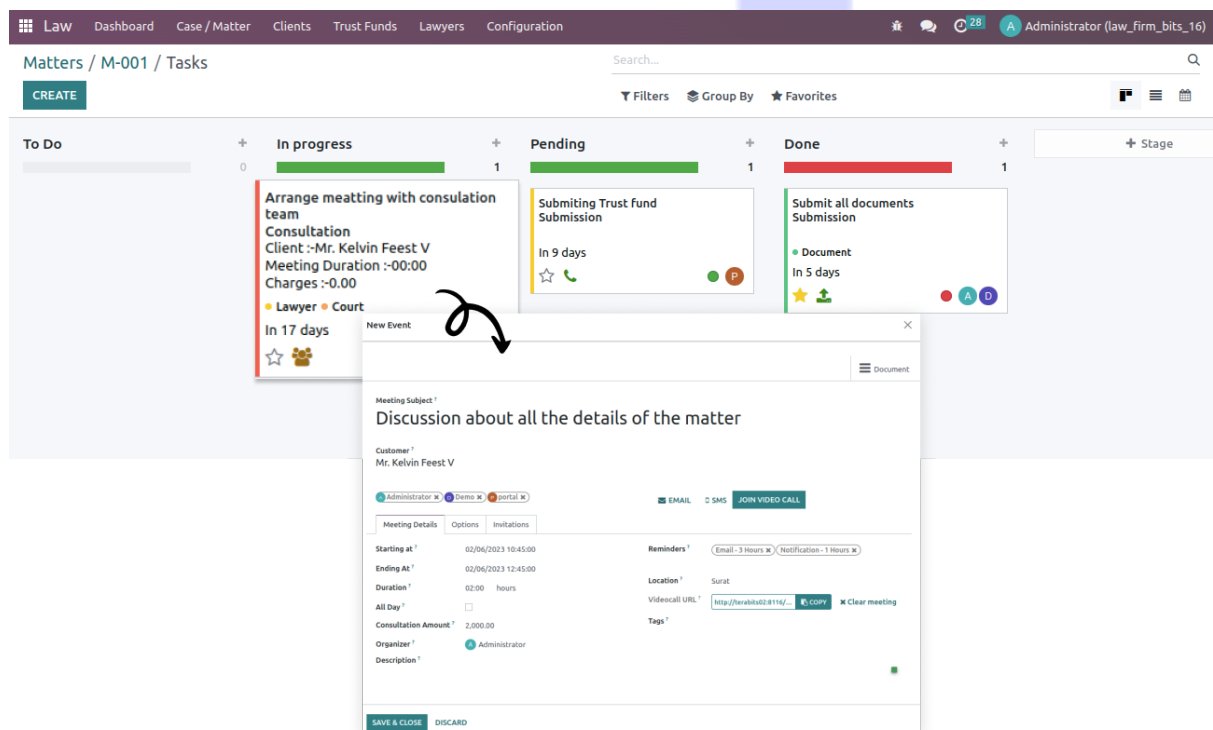

You can create a stage by clicking on "+ Stage" button.

After generating the task, you can set the stage and in the task itself set the time and other activities such as mail, call, email, and upload documents.

Furthermore, you can set assignees, tags, and deadlines.

In the screenshot below, you can see a meeting scheduled in the Direct Consultation module.

All of the details that have been added, such as the starting time, ending time, amount, reminder, and many more, can be found here.

Description Settings

Divorce under Hindu law is classified into two types: **Mutual divorce:** Under the Hindu Marriage Act, mutual divorce is governed by Section 13-B. As the name suggests, in mutual divorce, both parties, i.e., the husband and wife, agree and express their consent for a peaceful separation.

In the below screenshot, you can see that the trust fund has been created as a separate account. By clicking on the trust account given above, the smart button will automatically select "Customer, Cash, Matter." You have to upload the amount and any attachments related to the trust fund.

// Timesheet & Invoice //

In Odoo, the timesheet can be used to manage the time activities of a law firm. The timesheet module allows employees to track their time spent on various tasks and "Case" and "Matter" lifecycles, including law firm planning, task assignment, progress tracking, and invoice management.

You can see that I created a matter here. I had created a task in it. An example of one of the tasks is given here to help understand the invoice.

The screenshot shows the Odoo Timesheet interface for a task named "Arrange meeting with consultation team". The interface includes a navigation bar at the top with tabs for "UPDATE TASK LIST", "CREATE INVOICE", and "START". The task details section shows the project "M-001", customer "Mr. Kelvin Feest V", deadline "02/20/2023", and tags "Lawyer" and "Court". The timesheet table lists the following entries:

Date	Employee	Description	Hours Spent
02/06/2023	Demo	Discussion about the next trial	01:30
02/06/2023	Administrator	Discussion with customer	01:00
02/08/2023	portal	All documents and trust fund submit	02:30

The total hours spent is 05:00. The interface also includes a "Print" button in the top right corner.

In the screenshot, you can see that all employees fill up their own timesheets, and enter all the details that are needed for the timesheet.

If you want to print the timesheet, there is a print option in the left corner. By clicking on it, the timesheet will be printed, as you can see in the below screenshot.

The screenshot shows the Odoo Timesheet interface with the "Print" button highlighted. A modal window titled "Timesheets for the Arrange meeting with consultation team Task" is displayed, showing the following data:

Date	Employee	Description	Hours Spent
02/08/2023	portal	All documents and trust fund submit	02:30
02/06/2023	Demo	Discussion about the next trial	01:30
02/06/2023	Administrator	Discussion with customer	01:00

The total hours spent is 05:00. The modal window also includes a "Print" button in the top right corner.

When you click the "Create an Invoice" button, a popup box appears, as shown in the screenshot below.

In the Law firm Module, there are two ways to make an invoice.

1] Fixed cash

The screenshot shows a 'Create Invoice' popup box. The 'Invoice Type' is set to 'Fixed Cash' (selected with a radio button). The 'Amount' is entered as '5,000.00'. The 'Invoice Line Description' field is empty. At the bottom, there are 'CREATE INVOICE' and 'CANCEL' buttons.

2] Based on the timesheet

The screenshot shows a 'Create Invoice' popup box. The 'Invoice Type' is set to 'Based On Timesheet' (selected with a radio button). The 'Amount' is entered as '1,000.00'. The 'Invoice Line Description' field is empty. Below this, there is a table titled 'Timesheet Lines' with the following data:

Date	Employee	Description	Quantity
02/08/2023	portal	All documents and trust fund submit	2.50
02/06/2023	Demo	Discussion about the next trial	1.50
02/06/2023	Administrator	Discussion with customer	1.00

At the bottom, there are 'CREATE INVOICE' and 'CANCEL' buttons.

In this situation, I prepared an invoice based on the timesheet.

Fill in whatever fields you need in the invoice and click on the invoice to create the invoice. And you must fill out the timesheet details for whatever task you have so that when you do "Based on Timesheet", it will appear automatically.

The invoice will be generated by clicking the "Create Invoice" button, as shown in the screenshot below.

// Expense //

It is important for clients and lawyers to understand the expenses associated with their legal matter in order to make informed decisions about the cost and potential outcome of their case.

In the law firm module on the dashboard, you will find a "New Expense" button.

The screenshot shows the 'Law' dashboard with various metrics and a 'New Expense' button highlighted. The dashboard includes sections for Leads, Case / Matter, Payment Reminders, and Cases / Matters To Invoice. Below these are buttons for '+ New Lead', '+ New Consultation', '+ New Case', '+ New Matter', '+ New Contact', and '+ New Expense'. A blue box highlights the '+ New Expense' button, with a blue arrow pointing to it. Below the dashboard, there is a section for 'Upcoming Reminders' and a 'Case / Matter' section.

This is where you can create an expense and fill in whatever details are required.

The screenshot shows the 'Miscellaneous expense' form. The form has a header with 'Law', 'Dashboard', 'Case / Matter', 'Clients', 'Trust Funds', 'Lawyers', and 'Configuration'. Below the header is a 'Miscellaneous expense' section with a 'Create' button. The form includes fields for 'Description' (Miscellaneous expense), 'Partner' (Mr. Kelvin Feest V), 'Category' ([FOOD] Meals, Restaurants, business lunches, etc.), 'Total' (₹5,000.00), 'Employee' (Administrator), 'Paid By' (Employee (to reimburse)), 'Bill Reference' (Expense Date: 02/07/2023, Account: 210700 Purchase Expense), and 'Id of the request to IAP-OCR' (-1). There are also buttons for 'ATTACH RECEIPT', 'CREATE REPORT', 'SPLIT EXPENSE', 'TO SUBMIT', 'SUBMITTED', 'APPROVED', 'PAID', and 'REFUSED'.

After adding the details to the expense, you can click the "Create Report" button to open a new window with the "Submit to Manager" option, where you can submit your expense.

You need to submit the expense to the manager for approval.

After giving the manager's approval, you can click on "post journal entries" to enter it in direct accounting, and you can print a report by clicking on the print action.

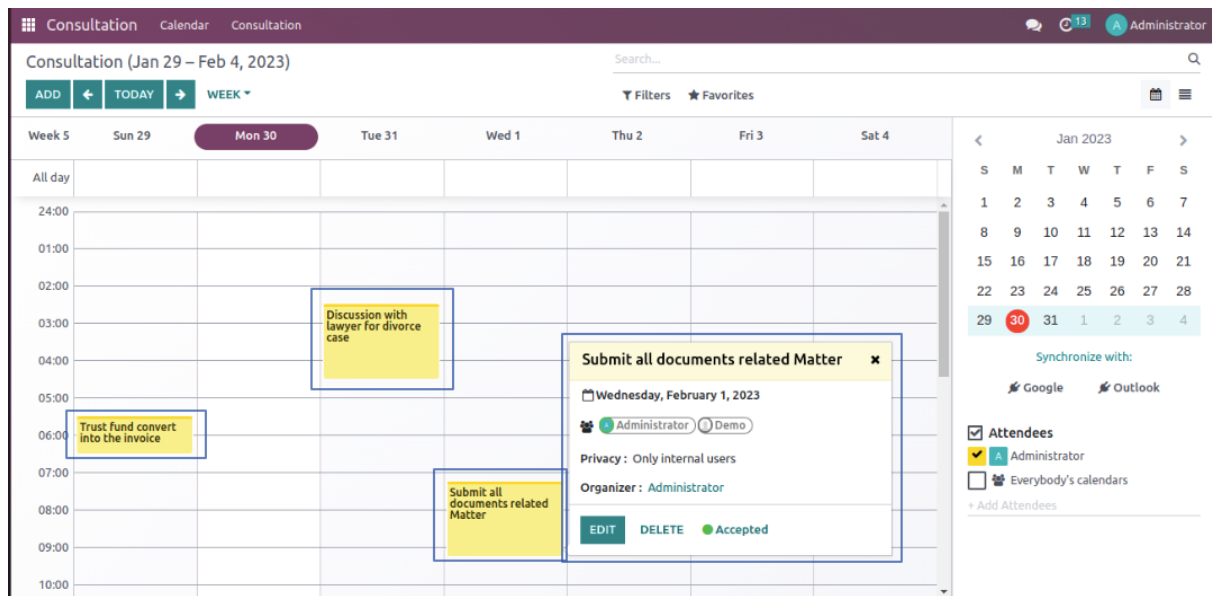

Journal Post Entry is a position in Direct Accounting which you can see in the screenshot below.

Note: ahiya thi invoice ma change krvno che atle bki che

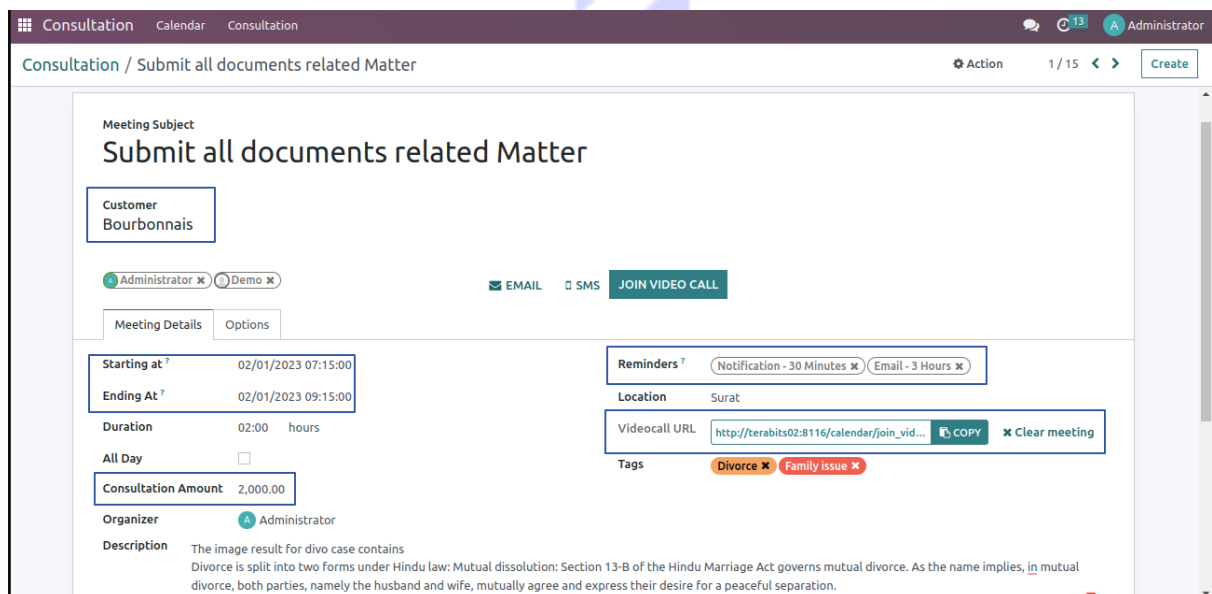

// Consultation Module //

A consultation module for a law firm is a tool that allows clients to schedule appointments or consultations with lawyers or legal experts.

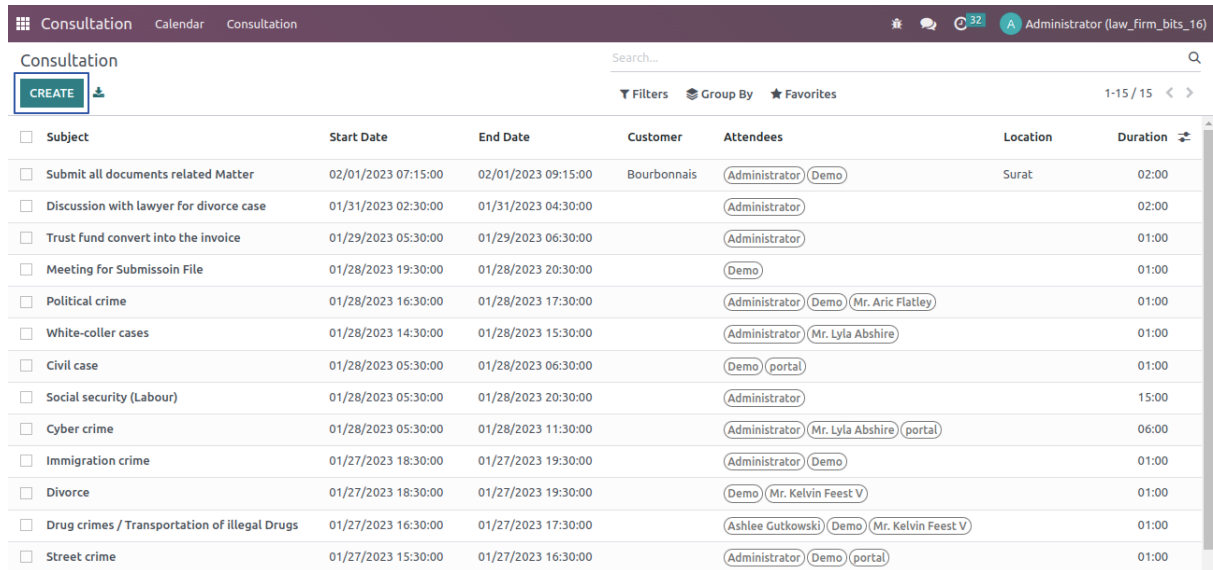

In the below screenshot, when you click on any scheduled meeting, you can see all the details of the meeting.

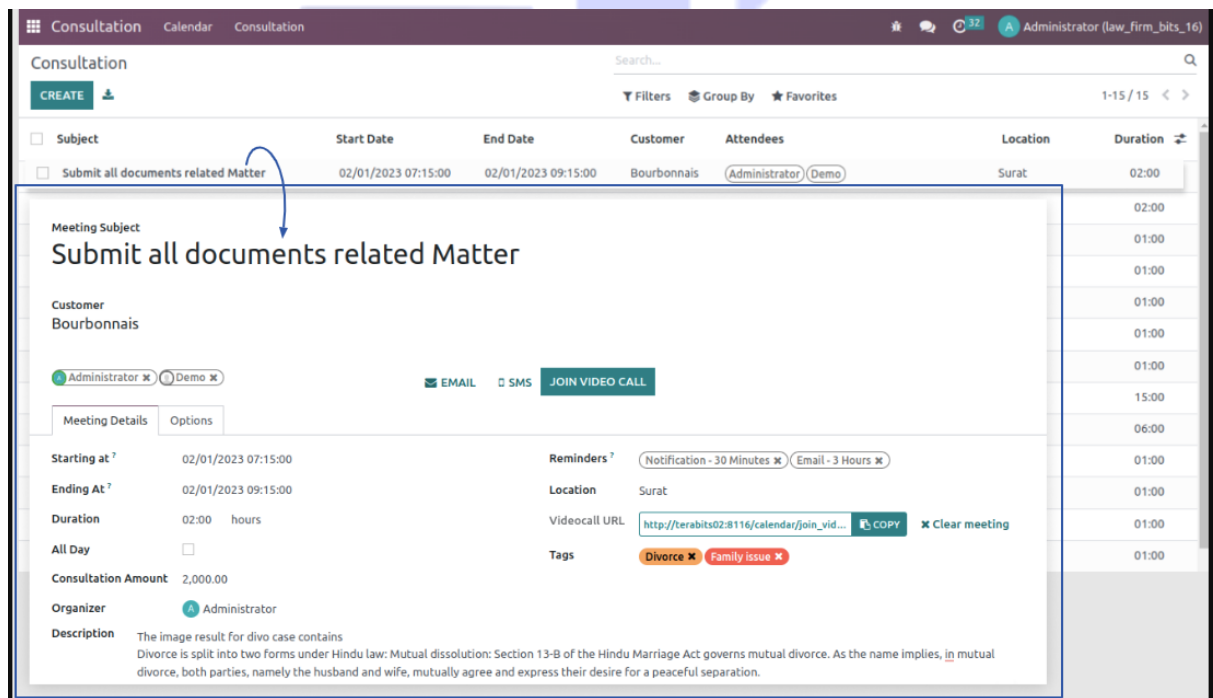

It typically includes a scheduling calendar, video call URL, consultation amount, payment processing, privacy, an organizer, and automated email or text reminders for clients, among many other things.

In the below screenshot, you can see all the consultation meeting data, and if you want to create a new one, click on the "CREATE" button.
