Annual PERFORMANCE PLAN 2025/26

RE-TABLING DATE
10 JUNE 2025

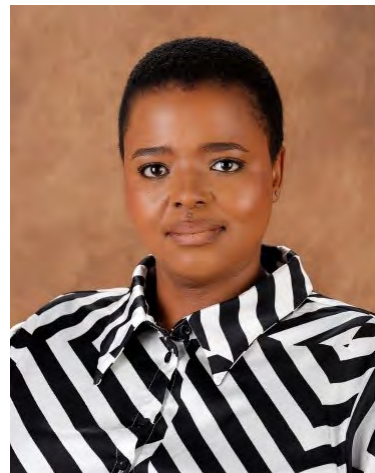

Transforming communities together

EXECUTIVE AUTHORITY STATEMENT

Our efforts are firmly aligned with the vision outlined in the National Development Plan, which aims to address the triple challenges of unemployment, poverty, and inequality. Following the general elections on May 29, 2024, the Government of National Unity for the 7th Administration was formed and announced on June 30, 2024. On July 18, 2024, during the joint sitting of the Houses of Parliament, the President delivered the Opening of Parliament Address (OPA), presenting the strategic priorities for the 7th Administration.

These priorities are:

- Driving inclusive growth and job creation.
- Reducing poverty and addressing the high cost of living.
- Building a capable, ethical, and developmental state.

The President emphasized that these priorities would be implemented within the 2024-2029 Medium Term Development Plan framework, which will outline the specific goals, interventions, and targets in support of these strategic priorities. The department's long-term strategy remains rooted in the national outputs reflected in Outcome 8, as well as the Provincial Medium-Term Development Plan, all aligned with the National Development Plan.

Key considerations include:

- Provision of housing opportunities and assistance, prioritizing the Destitute, Vulnerable Groups, Military Veterans and GBVF victims
- Empowerment Opportunities, Skills Development and Job Creation for Micro Small and Medium Enterprise (MSME) including designated groups
- Enhance partnerships and collaborations with Strategic partners in Mobilising Human Settlements Investments
- Unlocking of local Buildings Material Manufactures and Suppliers.
- Identify, acquire, hold, develop and release residential state land for sustainable human settlements development
- Upgrading of Informal Settlements
- Municipal Support and Accreditation Programme
- Accelerated Registration and Issuance of Title Deeds to Homeowners
- Adoption of Innovative and Sustainable Building Technologies (ISBT)
- Strengthening Consumer Education and Community Interventions

The improvement of the functionality of the department for improved delivery service outcomes. The demand for human settlements has never been more urgent as we work to transform the spatial landscape of both the province and South Africa as a whole. Achieving this transformation requires us to look beyond the traditional Breaking New Ground housing approach and consider broader interventions that address all sectors within human settlements. The planning tradition calls for us to envision and prepare for the future, recognizing that people, place, environment, and economy are all interconnected. We must proactively shape our space to achieve spatial justice, which, in our case, means dismantling the legacy of apartheid-era spatial development.

To this end, the Department is prioritizing human settlements development in key areas, including the Public Works Office Precincts and the Small-Town Revitalisation Programme. Notable projects include the EMaxesibeni Office Precinct, Bhisho Precinct, Mqanduli Precinct, Ntabankulu Social Housing Project, and the Eastern Seaboard Development. These initiatives are being advanced in close collaboration with municipalities. Additionally, we are elevating Social and Rental housing interventions, along with the First Home Finance (FHF) instrument, to play a central role in fostering spatial, social, and economic integration, working alongside other sector departments.

The alignment of the Department of Human Settlements and the Department of Public Works and Infrastructure under a single Executive Authority offers a unique and rare opportunity. By uniting our strengths, we can pool our resources and deliver on the needs and aspirations of the people of our province more efficiently and effectively. This integrated approach will guide the provision of housing within sustainable, integrated human settlements, the development of social infrastructure, and the promotion of sustainable urban environments. This collaboration will allow us to maximize efficiencies, eliminate duplication, and ensure a more coordinated approach to service delivery.

The future benefits of these projects will help transform apartheid-era spatial planning into integrated living spaces that provide communities with all necessary social amenities. If successfully implemented in partnership with districts, municipalities, and the private sector, these projects promise a better future for the people of the Eastern Cape. We remain committed to lifting the poor from seemingly insurmountable challenges, offering them peace of mind in knowing they belong to a caring government inspired by the dreams and struggles of our nation's heroes.

MS. SIPHOKAZI LUSITHI
MEMBER OF THE EXECUTIVE COUNCIL FOR
HUMAN SETTLEMENTS

ACCOUNTING OFFICER STATEMENT

The Eastern Cape Department of Human Settlements' Annual Performance Plan for the 2025/26 financial year outlines the department's institutional programmes, projects, and activities that contribute to the broader priorities, mandate, and objectives for the year ahead.

The Department operates within the framework of the National Development Plan (2030) and the Provincial Development Plan (2030), which call for service delivery programmes that address deeply entrenched spatial patterns across all geographic levels, patterns that contribute to social inequality and economic inefficiency. In line with this, the Department is committed to the vision of creating "integrated sustainable human settlements with improved quality of life for households by 2030" for the residents of the Eastern Cape.

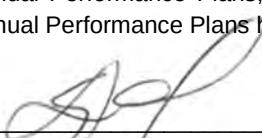

For the 2025/26 financial year, the Eastern Cape Department of Human Settlements aims to achieve the following outputs:

- Complete **4 970** housing units
- Complete **4 345** serviced sites
- Rectify **1 158** pre and post defective houses
- Implement **3** projects with **ISBT** elements
- Provide **143** housing units for military veterans
- Complete phase 1 of **30** informal settlements
- Complete phase 2 of **47** informal settlements
- Upgrade **83** informal settlements to phase 3
- Approve **260** First home finance subsidies
- Provide **77** Individual Subsidy Units
- Finalize **2** social and economic amenities
- Handover **4 827** destitute houses
- Register **1 666** title deeds
- Create **5 834** work opportunities
- Allocate **40%** of Human Settlements Conditional Grants allocated to MSME Contractors
- Support **142** Youths in experiential learning and artisan development programme (apprenticeship and learnership)
- Capacitate **39** municipalities to perform Human Settlements functions as per the Housing Code
- Procure **10%** of black industrialists' building materials procured by contractors contracted
- Devolve **5** land parcels to municipalities

For the upcoming Medium-Term Development Plan (MTDP) 2024 - 2029, the Department's programmes will contribute to the realization of the National Development Plan through the implementation of the Provincial Development Plan, with a focus on developing sustainable human settlements.

In preparing the Annual Performance Plan for the 2025/26 financial year, careful attention has been given to the MEC's policy pronouncements, as well as national and provincial planning frameworks and guidelines relevant to the human settlements sector. Internal and external factors affecting the Department have also been taken into account.

Finally, the legislative provisions outlined in the Public Finance Management Act (No. 1 of 1999), Treasury Regulations (2005), the Department of Planning, Monitoring and Evaluation's (DPME) Revised Framework for Strategic Plans and Annual Performance Plans, and the DPME Guidelines for the Implementation of the Framework for Strategic and Annual Performance Plans have been thoroughly referenced and considered in the planning process

MR. EDQ VENN
ACCOUNTING OFFICER: EASTERN CAPE
DEPARTMENT OF HUMAN SETTLEMENTS

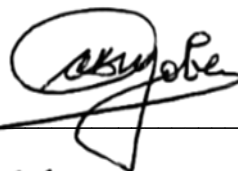

OFFICIAL SIGN-OFF

It is hereby certified that this Annual Performance Plan:

- Was developed by the management of the Department of Human Settlements, Eastern Cape under the guidance of MEC,
- Takes into account all relevant policies, legislation and other mandates for which the Department of Human Settlements is responsible,
- Accurately reflects the outcomes and outputs which the Department of Human Settlements will endeavour to achieve over the period 2025/26.

Province of the
EASTERN CAPE
HUMAN SETTLEMENTS

Part A

OUR MANDATE

Transforming communities together

PART A: OUR MANDATE

1. CONSTITUTIONAL MANDATE

The mandate of the Department emanates from Section 26 of the RSA Constitution which provides that everyone has the right to have access to adequate housing. The state must take reasonable legislative and other measures, within its available resources, to achieve the progressive realisation of this right and no one may be evicted from their home, or have their home demolished, without an order of court.

The Mandate of the National Department is also embedded in Section 3 of the Housing Act of 1997 as amended which provides that the National government acting through Minister should determine national Policy. Such policy should, include norms and standards in respect of housing Development. The National government should amongst other functions set broad national housing delivery goals and facilitate the setting of provincial and where appropriate, local government housing delivery goals.

General Proclamation Notice No. 1570 of 2009 as signed off by the President of the Republic of South Africa then created the Department of Human Settlements as a successor to Department of Housing. This notice together with the Comprehensive Plan for the Creation of sustainable Human Settlements adopted by Cabinet in 2004 presents a shift in mandate from providing housing to providing sustainable and integrated human settlements. Chapter eight of the National Development Plan, 2011 further controlled housing to work towards transforming Human Settlements to eliminate the apartheid spatial geography to create settlements where people can work, pray, play and have access to social and economic amenities.

The Department's mandate is derived from Chapter 2, the Bill of Rights, Chapters 3 and 6 of the Constitution of the Republic of South Africa, 1996 (Act No. 108 of 1996). In terms of Section 26 of the Bill of Rights:

- Everyone has the right to have access to adequate housing.
- The state must take reasonable legislative and other measures, within its available resources, to achieve the progressive realization of this right.
- No one may be evicted from their home, or have their home demolished, without an order of court being made after consideration of all the relevant circumstances. No legislation may permit arbitrary eviction.

The following sections of the Constitution provide the legislative framework for the institutional arrangements used in the development of sustainable human settlements:

- Part A of Schedule 4, Chapter 14 lists housing, urban and rural development and regional planning and development as functional areas of concurrent national and provincial legislative competence.
- Section 154(4) further provides for the delegation of powers and functions to local government, agreement, if municipalities have the necessary capacity and are regarded as the most effective site from which these powers can be exercised.
- Section 125(3) provides that, by legislative and other measures, national government must assist provinces to develop their administrative capacity, which is required for the effective exercise of their powers and the performance of their Human Settlements functions.

2. LEGISLATIVE AND POLICY MANDATES

The table below provides a list of key policies and legislation that supports the implementation of the Mandate of the Department of Human Settlements:

List of Legislations	Brief Description
The Housing Act, 1997 (Act No. 107 of 1997)	This act creates the provision for the granting of housing subsidies for low-income earners
Prevention of Illegal Eviction from Unlawful Occupation of Land Act, 1998	This act repeals the Prevention of illegal squatting act (Act 52 of 1951) and makes provision for a fair and equitable process to be followed when evicting people who have unlawfully invaded land, from their homes. The Act makes it an offence to evict without following the due process of law.
The Housing Consumer Protection Measures Act, 1998	Provides for the establishment of a statutory regulating body for homebuilders. The National Home Builders Registration Council registers builders engaged in certain categories of housing construction, and regulates the home building industry by formulating and enforcing a code of conduct
The Rental Housing Act, 1999 as Amended	The Rental Housing Act repeals the Rent Control Act (1976) and defines government responsibilities in respect of rental housing property. It creates mechanisms to promote relations between landlords and tenants.
Social Housing Act, No.16 of (2008)	The Act provides for the establishment of affordable rental accommodation for low to medium income households in designated Restructuring Zones i.e. places of economic opportunities, enabling spatial and social integration.
Home Loan and Mortgage Disclosure Act, 2000	This Act provides for the establishment of the Office of Disclosure and the monitoring of financial institutions serving the housing credit needs of communities
Promotion of Access to Information Act 2 of 2000 (as amended)	The Act underlines the importance of access to information for an open, democratic, transparent society. The Act gives legislative form to Section 32 of the Bill of Rights of the Constitution and should be interpreted as legislation giving effect to a constitutional right.
Housing Development Agency Act [Act No. 23 of 2008]	The Act serves to establish the Housing Development Agency and to provide for its functions and powers. It also outlines the roles of the Agency which is to facilitate the acquisition of land and landed property, in a way that complements the capacities of Government across all spheres, and to fast-track land acquisition and housing development services for the purpose of creating sustainable human settlements
Community Scheme Ombud Service Act [Act No. 9 of 2011]	The Act serves to provide for the establishment of the Community Schemes Ombud Service and to provide for its mandate and functions. The Act also provides for a dispute resolution mechanism in community schemes.
Sectional Titles Management Act [Act No. 8 of 2011]	The Act provides for the establishment of bodies corporate to manage and regulate sections and common property in sectional titles schemes and for that purpose to apply rules applicable to such schemes. It further requires the bodies corporate to establish a sectional titles schemes management advisory council.
Preferential Procurement Policy Framework Act, No 5 of 2000	This Act gives effect to Section 217, Chapter 3 of the Constitution by providing a framework for the implementation of the Procurement Policy contemplated in Section 217, Chapter 2, of the Constitution and to provide for matters connected therewith
Broad Based Black Economic Empowerment Act, No 53 of 2003	The Act aims at promoting the achievement of the constitutional right to equality by increasing broad-based and effective participation of Black people in the economy. It also sets parameters for the development of the Property Charter and the Construction Charter as mechanisms to secure commitment from stakeholders in the construction and property industries
Public Finance Management Act 105,1999	This Act regulates financial management in National Government and Provincial Government
Spatial Planning and Land Use Management Act (SPLUMA) [Act No. 16 of 2013]	The Spatial Planning and Land Use Management Act (2013) was adopted shortly after the introduction of the NDP. SPLUMA is an important component of the drive to set the broad spatial agenda of the country, promoting the development principles of spatial justice, spatial sustainability, efficiency, spatial resilience and good administration. The statute establishes mechanisms for the negotiation of spatial conflicts, issuance of guidelines and monitoring compliance. Although SPLUMA does not deal with fragmentation of the spatial planning function directly, it introduces a new approach to spatial planning that can be refined and linked with overall long-term planning. Embedding spatial planning within the overall system of planning is critical.

3. INSTITUTIONAL POLICIES AND STRATEGIES OVER THE FIVE-YEAR PLANNING PERIOD

The following institutional policies and strategies set a tone for the 7th Tern of Administration and provides a path way to incorporate National and provincial priorities steering the work of Eastern Cape Department of Human Settlements:

The National Department of Human Settlements is embarking in a process of refining the Draft White Paper on Human Settlements. The White Paper will carve a development path and assist in the amendment of the Housing Act of 1997, as amended. This process will result in a review of the 2009 National Housing Code. The MEC has prioritised Military Veterans, Destitute and Vulnerable group in the 6th Administration therefore the policy serves as a yard stick to ensure proper implementation of the policy.

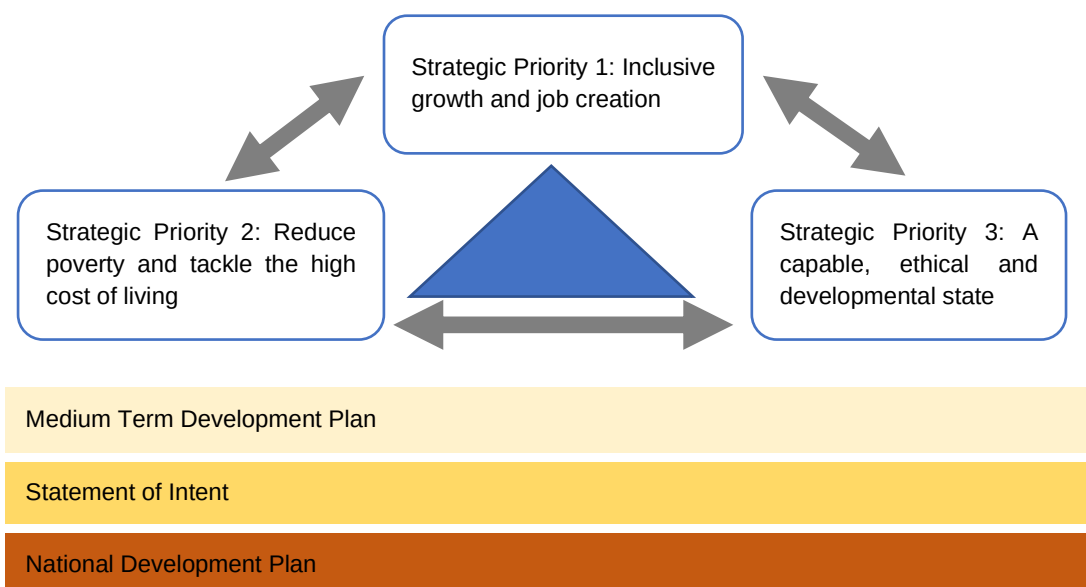

3.1 National Development Plan 2030

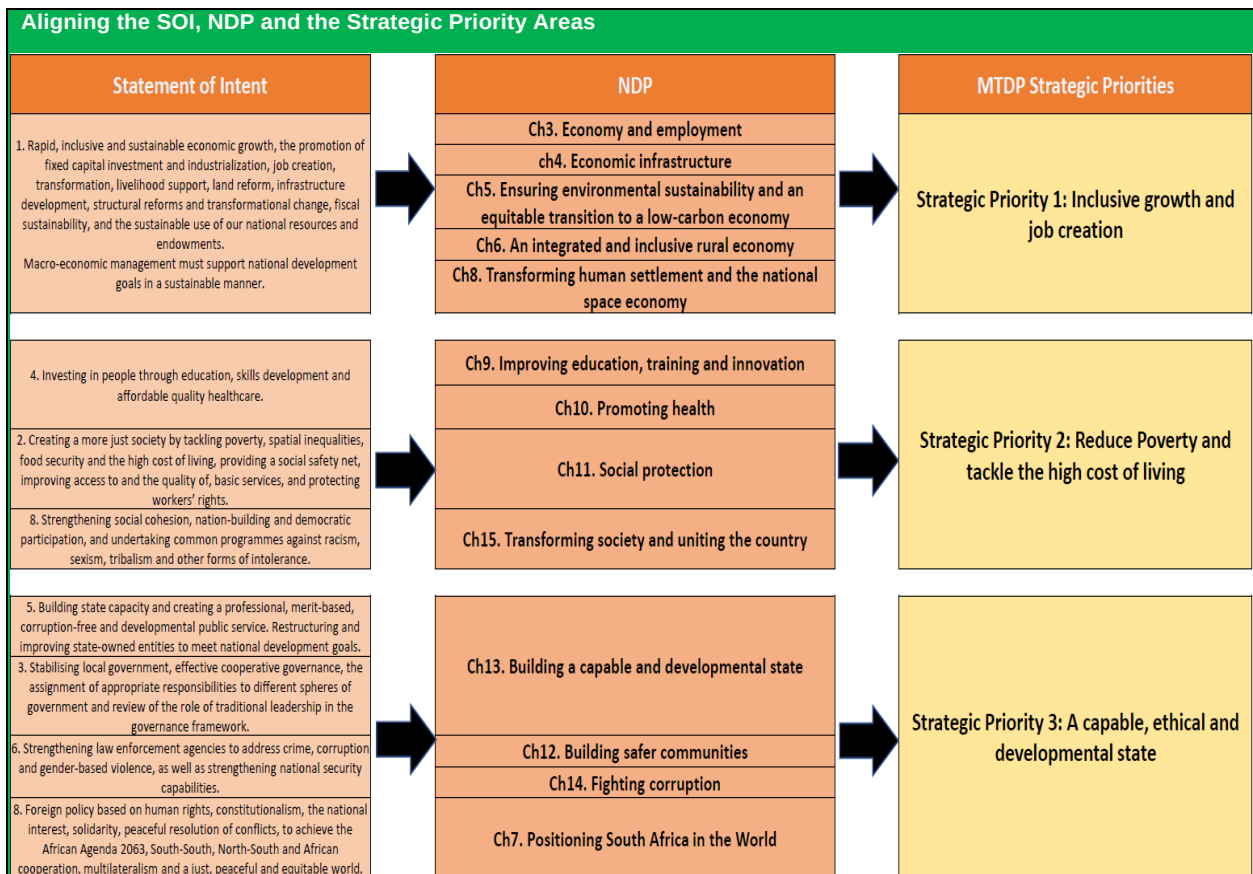

The National Development Plan 2030 (NDP) recognises that apart from the right of access to adequate housing being entrenched in the Constitution, it forms a key component to the country's economic development. The NDP, recognises that due to the apartheid spatial planning, the majority of poor South Africans are residing in far-flung areas away from work, with little access to basic services and efficient transport, thus limiting their ability to adequately access the economy. As such, many people in the Eastern Cape Province find themselves in "poverty traps" with high unemployment which is entrenching people in abject poverty. In terms of the NDP, therefore, housing planning should be guided by a set of normative principles to create spaces that are liveable, equitable, sustainable, resilient and efficient, and support economic opportunities and social cohesion.

3.2 Approach to the development of the Medium-Term Development Plan (MTDP): Three Strategic Priority Areas

The 2024-29 proposes three strategic priorities which are:

- i) Inclusive growth & job creation
 - ii) Reduce poverty and tackle the high cost of living
 - iii) Build a capable, ethical & developmental state
- Inclusive growth and job creation will be viewed as an Apex priority. All spheres of government, clusters and sectors will priorities relevant economic interventions
 - The three strategic priorities are interrelated and interlinked
 - A capable state plays a key role (direct and indirect) within the economy through regulation, network industries and by creating an enabling environment, and that law and order are maintained
 - The social wage is a key instrument for poverty reduction and is a safety net for the vulnerable. It also ensures that we have a skilled and healthy workforce, enabling infrastructure and basic services

3.3 Eastern Cape Provincial Policy Priorities 2024-2029

The below table provides a linkage between the strategic priority areas, P- strategic priority areas, priority focus and how it is aligned to cluster.

STRATEGIC PRIORITY AREAS	STRATEGIC PRIORITY AREAS	PRIORITY FOCUS	CLUSTER
Driving Inclusive growth and job creation	Inclusive growth and job creation	Job Creation	Economic Sectors, Investment, Employment and Infrastructure Development (ESIED)
		Inclusive Economy (includes Ocean Economy, Climate Change, Environmental Sustainability)	
		Service Delivery (Social and Economic Infrastructure Development)	
		Food Security, Land Reform & Agriculture Commercialisation	
		Build a Better Africa & World	
Reducing poverty and tackle the high cost of living	Reduce poverty and tackle the high cost of living	Social Security	Social Protection, Community and Human Development (SPCHD)
		Education & Health	
Building a capable, ethical and developmental state (cross cutting function)	A capable, ethical and developmental state (cross cutting function)	Capable and Developmental State	Governance, State Capacity and Institutional Development (GSCID)
		Social Cohesion	Justice, Crime Prevention and Security Cluster (JCPS)

3.4 Department of Human Settlements priorities for the 7th term of administration

1. Provision of housing opportunities and assistance, prioritizing the Destitute, Vulnerable Groups, Military Veterans and GBVF victims
2. Empowerment Opportunities, Skills Development and Job Creation for Micro Small and Medium Enterprise (MSME) including designated groups
3. Enhance partnerships and collaborations with Strategic partners in Mobilising Human Settlements Investments
4. Unlocking of local Buildings Material Manufactures and Suppliers
5. Identify, acquire, hold, develop and release residential state land for sustainable human settlements development
6. Upgrading of Informal Settlements
7. Municipal Support and Accreditation Programme
8. Accelerated Registration and Issuance of Title Deeds to Homeowners
9. Adoption of Innovative and Sustainable Building Technologies (ISBT)
10. Strengthening Consumer Education and Community Interventions
11. The improvement of the functionality of the department for improved delivery service outcomes

3.5 Areas of collaboration and interventions between the Eastern Cape Department of Public works and Infrastructure and Eastern Cape Department of Human Settlements.

The configuration of the Department of Human Settlements and the Department of Public Works and Infrastructure under one ministry provides a unique opportunity to fundamentally improve the socio-economic conditions of the Eastern Cape. This integration allows us to leverage our combined strengths to drive significant progress in combating challenges such as unemployment, poverty, and inequality.

The decision aims to prioritize infrastructure delivery and coordination as a key driver for socio-economic growth within the province. By adopting integrated planning and collaboration, the two departments will ensure seamless alignment of approaches, strategies, and execution to achieve common objectives. As an initial step, the departments have identified 10 tangible areas of collaboration designed to maximize synergies and enhance the impact of infrastructure development. These areas of collaboration are a minimum programme intended to demonstrate effective partnership and will evolve and improve through implementation over the term.

DPWI – DHS AREAS OF COLLABORATION	DPWI INTERVENTIONS	DHS INTERVENTIONS
1. Devolution of State-owned properties to ensure rightful custodianship	Continuous data cleansing of the immovable asset registers by transferring properties between DPWI, Other Custodians and Municipalities to process for rightful custodianship to ensure proper ownership and efficient utilisation Verify 5 796 properties from the Immoveable Asset Register to confirm their state	Initiate devolution processes to relevant Municipalities, DPWI and Sector Departments to ensure proper ownership and efficient utilisation Verify 5 500 properties from the Immoveable Asset Register to confirm their state
2. Identify state-owned residential properties that can be availed at affordable rentals to accommodate the citizens	Identify land for development from the Immoveable Asset Register to contribute towards the portfolio of affordable rentals, through the DHS Housing Programmes, such as FLISP, GAP Housing, Rental stock	Identify and categorise state-owned properties to be transferred to Municipalities for conversion to affordable rental
3. Avail and repurpose state-owned properties for use as Safe Houses to accommodate survivors and victims of Gender Based Violence Femicide (GBVF) and other community development programmes	Avail redundant, under-utilised and non-strategic residential properties as required by Client Departments Facilitate signing of MOA with Department of Social Development that will outline strategic focus areas and define roles and responsibilities in the allocation and management of Safe Houses for survivors of Gender Based Violence & Femicide	Identify and categorise state-owned properties to the Department of Social Development to accommodate survivors of Gender Based Violence & Femicide
4. Contribute to Ocean's Economy and Eastern Seaboard Projects	Identify and release coastal land and properties to the market to contribute towards Ocean's Economy and Eastern Seaboard initiatives (such as Aquaculture, Ecotourism)	Provide affordable housing options to reduce inequality and economic difficulties through venturing on the Ocean's Economy and Eastern Seaboard initiatives.

DPWI – DHS AREAS OF COLLABORATION	DPWI INTERVENTIONS	DHS INTERVENTIONS
	Initiatives for implementing Ocean Economy includes building of Small Harbours and coastal commercial and residential property development, that will unlock coastal economies in the Province. Currently the Spatial Economic Development Frameworks (SEDFs) for the Small Harbour Development Programme is still under compilation. Among the 22 sites identified nationwide, the Eastern Cape stands to benefit under the Tier 1 Harbour category, with Port St Johns earmarked for development.	Initiatives for implementing Ocean Economy includes building of Small Harbours and coastal commercial and residential property development, that will unlock coastal economies in the Province.
5. Implement a Mixed-Mode Development Model as part of building sustainable Human Settlements, focusing on Secondary Cities and Small Towns	Implement Mixed - Mode Development Masterplans for Bhisho Office Precinct, Emaxesibeni Cluster Offices and Mqanduli Cluster Offices in consultation with Stakeholders and affected Parties Furthermore, the implementation of the Mixed - Mode Development Model will include Ntabankulu TVET Land Profiling to facilitate attraction of Investors Provide cluster office accommodation that enables a centralized delivery of Government services Provide Professional services to DHS for designing Residential Housing to decrease costs associated with Outsourced-Professional Services	Provide technical support to conduct a Demand/ Feasibility study within Restructuring Zones for Bhisho Office Precinct, Emaxesibeni Cluster Offices, Mqanduli Cluster Offices and Ntabankulu TVET Enhance the Gap Market portfolio, which falls within R3501 - R22 000 income bracket.
6. Unlock local material supply and project packaging	Develop a Policy to support Black owned building materials Manufactures and Suppliers Conduct Research on building material products that can be sourced from Black-owned Manufacturers and Suppliers Support 15 building materials Manufactures and Suppliers over the Term	Conduct 1 Research and 1 Policy on Local Material supply Measure percentage of building material supplies procured by Contractors contracted with the Department over a period of 5 years
7. Collaboration through Expanded Public Works Programme (EPWP)	Collaborate to enhance reporting in the creation of 25 800 work opportunities through EPWP Collaborate to support Training and Development of trainee 1060 Artisans and 400 NYS learners on infrastructure projects Collaborate in placing qualified Artisans on infrastructure projects DPWI will provide Technical support on the design of DHS projects to expand job creation initiatives	Collaborate to enhance the reporting in the creation of 29 000 work opportunities through EPWP Collaborate with respect to exit strategy relative to the 904 youths who participated in the Youth Brigade Programme. Placement of 310 youths on site for experiential learning and Artisan Development Programme (learnership and apprenticeship)
8. Micro, Small and Medium Enterprise (MSME) support and development	Collaborate to support development of MSMEs, specifically the Integrated Contractor Development Programme (ICDP) by forging strategic Partnership with Financiers and Material Suppliers	Ringfence 40% of conditional grants to be allocated to MSMEs over a period of 5 years
9. The 2 Departments will synchronize the planning and delivery of the following functions: - Community Outreach Programmes - Special Programmes - Communications Services	5 Joint Annual Strategic conversation with DHS Produce Monitoring tools for tracking Departmental Areas of Collaborations Implement jointly Communication initiatives	5 Joint Annual Strategic conversation with DPWI Produce Monitoring tools for tracking Departmental Areas of Collaborations Implement jointly Communication initiatives

DPWI – DHS AREAS OF COLLABORATION	DPWI INTERVENTIONS	DHS INTERVENTIONS
	Implement jointly Outreach Programmes and Stakeholder Engagement Sessions	Implement jointly Outreach Programmes and Stakeholder Engagement Sessions
10. Collaboration on Social Facilitation Services	Align to the rollout Social Facilitation Strategy Exchange of best practices from each other to enhance social facilitation interventions	Roll out of Social Facilitation Strategy Exchange of best practices from each other to enhance social facilitation interventions

3.6 Provincial Nine Key Integration Programme

In determining emerging priorities for the 7th Administration for the Eastern Cape province, Provincial Management with the support of provincial clusters embarked on a process of determining the provincial priorities and the institutional arrangements to drive such priorities. The emerging priorities are anchored on the Provincial Development Plan goals and the nine-integration programmes and consolidated into a Provincial Integration Programme Blueprint with the support of provincial clusters.

The below table depicts the key interventions that are aligned to the nine Integration programmes. The outputs indicators and targets for these interventions has been developed, set and included in the Annual Performance Plan to ensure monitoring and implementation.

9 KEY INTEGRATION AREAS	ECDHS INTERVENTIONS
1. INCLUSIVE EARLY CHILDHOOD DEVELOPMENT AND LEARNER ATTAINMENT	Provision of socio-economic facilities to the Eastern Cape communities. These facilities include the construction of early childhood developments among other facilities
2. MUNICIPAL SUPPORT	- Accreditation of municipalities to perform human settlements programmes - Short learning programmes - Accreditation of municipalities to implement Human Settlements projects - Provision with technical support to produce development plans for human settlements projects

9 KEY INTEGRATION AREAS	ECDHS INTERVENTIONS
3. SOCIAL COHESION, MORAL REGENERATION, COMMUNITY SAFETY & GBVF	Provisioning of houses to the destitute, vulnerable groups and military veterans
4. ANTI-POVERTY & SUSTAINABLE LIVELIHOODS	Verification and provision of housing with special focus to the destitute and vulnerable groups
5. INFRASTRUCTURE, HUMAN SETTLEMENTS & BROADBAND	- Provision of housing units completed - Provision of serviced sites completed
6. FOOD SECURITY PROGRAMS, LAND REFORM & AGRICULTURE COMMERCIALIZATION	- Provisioning of houses to the destitute, vulnerable groups and military veterans - Devolution of land parcels across municipalities for Human Settlements Development Purposes
7. INCLUSIVE ECONOMIC GROWTH	Promote empowerment opportunities for Small and Medium Enterprise inclusive of youth, women and other designated groups in partnership with strategic partners.
8. NON-COMMUNICABLE DISEASES, MENTAL HEALTH & SOCIAL DETERMINANTS OF HEALTH	- Educate and empower prospective housing consumers on Human Settlements programmes - Educate housing consumers on project implementation processes and their roles in the projects
9. TRANSFORMATION PROGRAMME FOR YOUTH DEVELOPMENT, SKILLS DEVELOPMENT & TRAINING	- Promote skills development and entrepreneurship for youth through the artisan and business management development programmes - Jobs opportunities created. - Empower youth through learnership, apprenticeship programme, youth brigade programme - Facilitation of the learnership and apprenticeship programme in the partnership with Construction Education Training Authority (CETA) - Compile compliance report on number of Empowerment opportunities created for designated groups

3.7 Prioritisation Framework and Mandate paper 2025/26

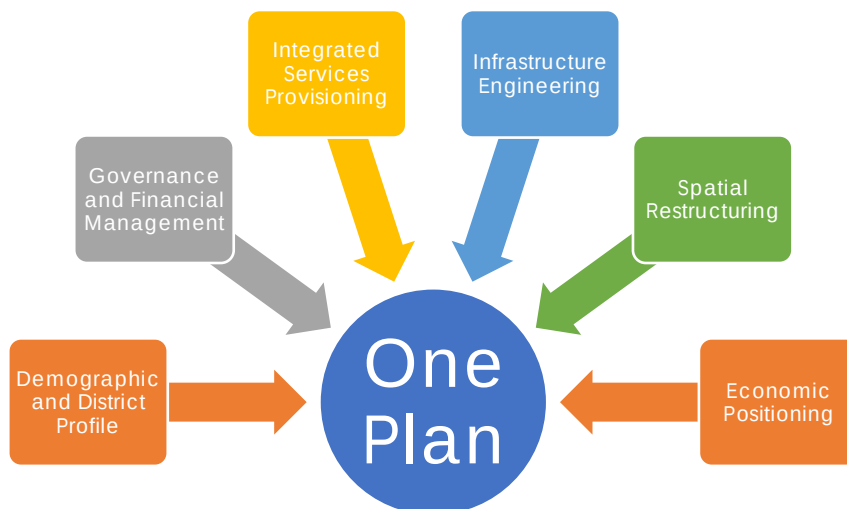

The Prioritisation Framework and Mandate paper's objective is to outline the strategic framework for decision-making on budget priorities that are required to advance the priorities of the Provincial Medium-Term Development Plan (P-MTDP). The mandate paper is intended to also establish a systematic basis for making strategic choices among competing priorities and limited resources in order to better optimise the budget as a key lever for driving the P-MTDP. Moreover, it is aimed at encouraging initiatives that have the greatest growth and transformative impact in terms of the PDP, outcomes and targets in the P-MTDP that must be prioritised in the budget.

3.8 District Development Model (DDM)

The department continues to strengthen intergovernmental relations as a tool for integration and improved service delivery. The MEC-MMC Implementation Forum has been established as a platform for a coordinated political-administrative interface, between the two spheres (Provincial and Local Government), to inform and enable a shared understanding on critical matters pertaining to the transformation of the sector and the delivery of integrated Human Settlements in the Eastern Cape.

The Department is working closely with the Department of Fisheries, Forestry and Environment (DFFE), Department of Correctional Services (DCS) and Department of Social Development (DSD) in ensuring that we hand over homes and human settlements, not just houses. As a department, we appreciate the support we continue to get from the private sector and non-governmental sector. We know that, together we can transform our communities.

Components of DDM's One Plan

3.9 Other Policy Mandate

- ANC January 8th Statement, 8 January 2025
- Eastern Cape Opening of the Legislature, August 2024
- Eastern Cape Budget Speech 2024, August 2024
- Mandate Paper and Planning Guidelines for 2025/2026
- Cabinet Lekgotla resolutions
- SCOPA recommendations
- SONA 2025
- SOPA 2025

3.10 Institutional Strategies for the 7th Term of administration

The Department has identified the below key strategic priorities for implementation in the seventh term of administration. These strategies were derived from the outcomes identified during the Joint Departmental strategic planning session with DPWI to align the P-MDTP 2024 – 2029. These strategies were reviewed during the joint Annual Departmental Strategic Planning Session held on the 07 - 11 October 2024. The objective of the joint strategic planning session was to achieve the following:

- To stimulate strategic conversations and create a clear roadmap towards the realisation of the Government of National Unity (GNU) and the Provincial Priorities of the 7th Administration (towards aligned and credible SPs and APPs).
- To enhance interdepartmental collaboration and coordination by establishing effective mechanisms for horizontal and vertical integration in planning, budgeting, and implementation processes to optimise resource allocation and improved service delivery.
- To strengthen the impact of the 9 Integration Programmes by fostering and improving cooperation and collaboration among departments and entities within the cluster and across to achieve shared objectives and deliver measurable results for the people of the province

Below is the process undertaken toward the development of the Annual Performance Plan 2025/26:

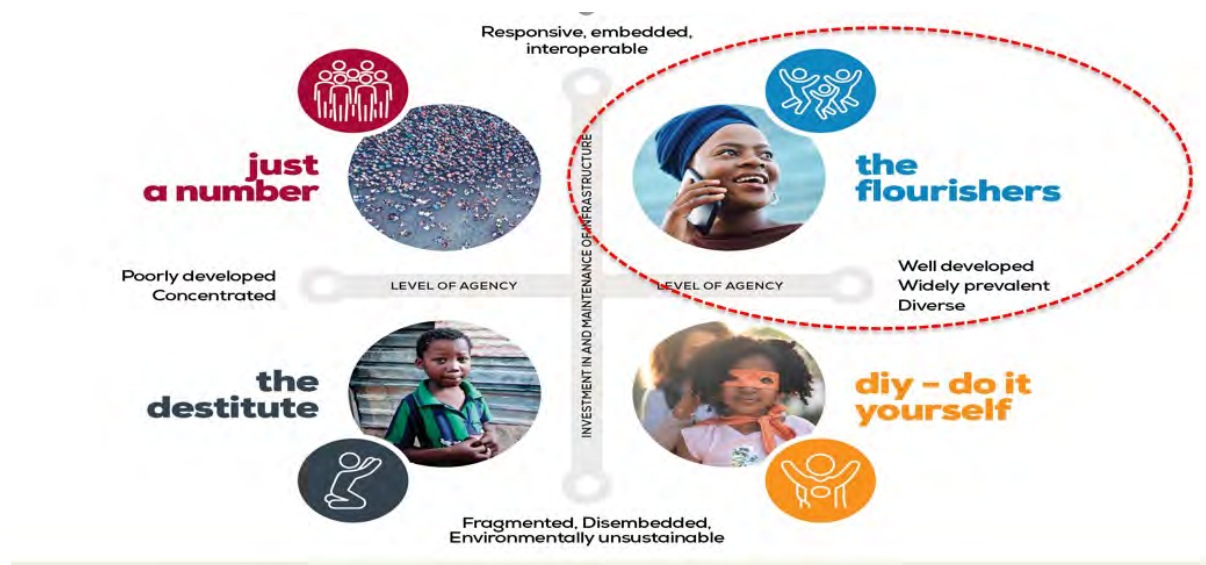

- Reviewal of the situational analysis to reflect internal and external environment scanning on issues that are likely to impact the delivery of set targets.
- Integrated Strategic planning one-on-one sessions with programmes to review current performance, performance indicators, TIDs, and targets in preparation for the Strategic Plan with key role players.
- Joint Departmental Preliminary Strategic Planning Session inclusive of the external stakeholders to develop strategies for building the Strategic Plan.
- Consolidation of inputs and development Strategic Plan

- Continuous engagements with programmes to align the Strategic Plan with APP and AOP with changes in the Business Plan, EPRE, emerging priorities and assessments from DPME, OTP, and National Human Settlements
- Confirmation of outcome performance indicators, targets, TIDs, Budget, and signing off by respective programme heads, HoD, and MEC.
- Tabling of Strategic Plan, APP and AOP

3.11 Eastern Cape Scenarios (possibilities for 2040)

The department has taken note of the scenarios identified for the Eastern Cape provincial government. The department has since reviewed its theory of change and has identified key interventions which will ultimately result in achieving the integrated human settlements.

The below table depict the possible key scenarios for key consideration (possibilities for 2040).

4. RELEVANT COURT RULINGS

Court Cases and Implication

The are no Court Cases identified that could affect the operations of human settlements development

Province of the
EASTERN CAPE
HUMAN SETTLEMENTS

Part B

OUR STRATEGIC FOCUS

Transforming communities together

PART B: OUR STRATEGIC FOCUS

5. VISION

Integrated sustainable Human Settlements with improved quality of household lives by 2030, for residents of Eastern Cape

6. MISSION

Provision of quality integrated and sustainable Human Settlements that offer our communities a better living environment.

7. VALUES

Our Values	Description
Transparency and accountability	Good governance and clear communication
Respect and courtesy	Acknowledge the centrality of human dignity in all that we do
Professionalism and integrity	Ethical conduct that upholds a client oriented public service ethos
Commitment and Teamwork	Achieving more and better together
Service Standards	High quality service delivery through client-oriented approaches

8. SITUATIONAL ANALYSIS

8.1. EXTERNAL ENVIRONMENT ANALYSIS

8.1.1 Eastern Cape Population Dynamics

The Eastern Cape Province is in the Eastern part of South Africa. The province borders three South African provinces KwaZulu-Natal, Free State and Western Cape. The Eastern Cape province is predominately populated by black Africans, with the most widely spoken language being isiXhosa. It is mostly rural and is among the country's poorest provinces. Furthermore, it has two metropolitan municipalities i.e., Buffalo City and Nelson Mandela Bay which are regarded as major economic hubs of the province. According to the Census of 2022 by Statistics South Africa, the national population of the country is 62 027 503 of which 7 230 204 is for the Eastern Cape Province (Stats SA, 2022). It is worth noting that, before the Covid-19 pandemic the population of the Eastern Cape was estimated to be 6.67 million. However, the population decline in the province could be attributed to several factors including the high death toll related to the Covid-19 pandemic. Whilst population change is typically driven by fertility, mortality, and migration, in Eastern Cape Province, migration remains the dominant driver of population changes over time.

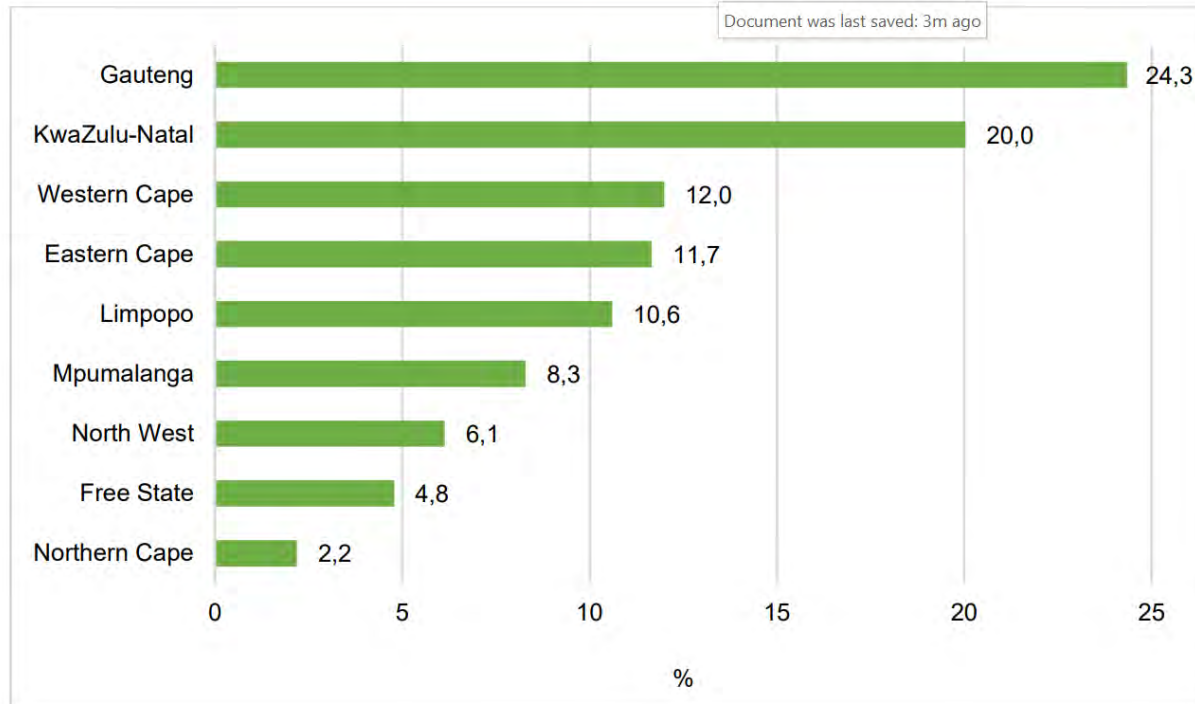

Table 1: Distribution of population by province, Census 1996–2022

Province	Population			
	Census 1996	Census 2001	Census 2011	Census 2022
Western Cape	3 956 875	4 524 335	5 822 734	7 433 020
Eastern Cape	6 147 244	6 278 651	6 562 053	7 230 204
Northern Cape	1 011 864	991 876	1 145 861	1 355 945
Free State	2 633 504	2 706 775	2 745 590	2 964 412
KwaZulu-Natal	8 572 302	9 584 129	10 267 300	12 423 907
North West	2 726 828	2 982 064	3 509 953	3 804 547
Gauteng	7 834 620	9 390 528	12 272 263	15 099 423
Mpumalanga	3 124 203	3 365 957	4 039 939	5 143 324
Limpopo	4 576 133	4 995 462	5 404 868	6 572 721
South Africa	40 583 573	44 819 778	51 770 560	62 027 503

(Stats SA, 2022).

In terms of the overall drivers of population changes, there are only three driving processes, namely: Fertility rates (new births), Mortality (deaths), and migration patterns (inward or outward migration). The drivers for population growth are total fertility rates, deaths, and migration. Moreover, the housing demand in the Eastern Cape is likely to increase drastically because of the increase in fertility

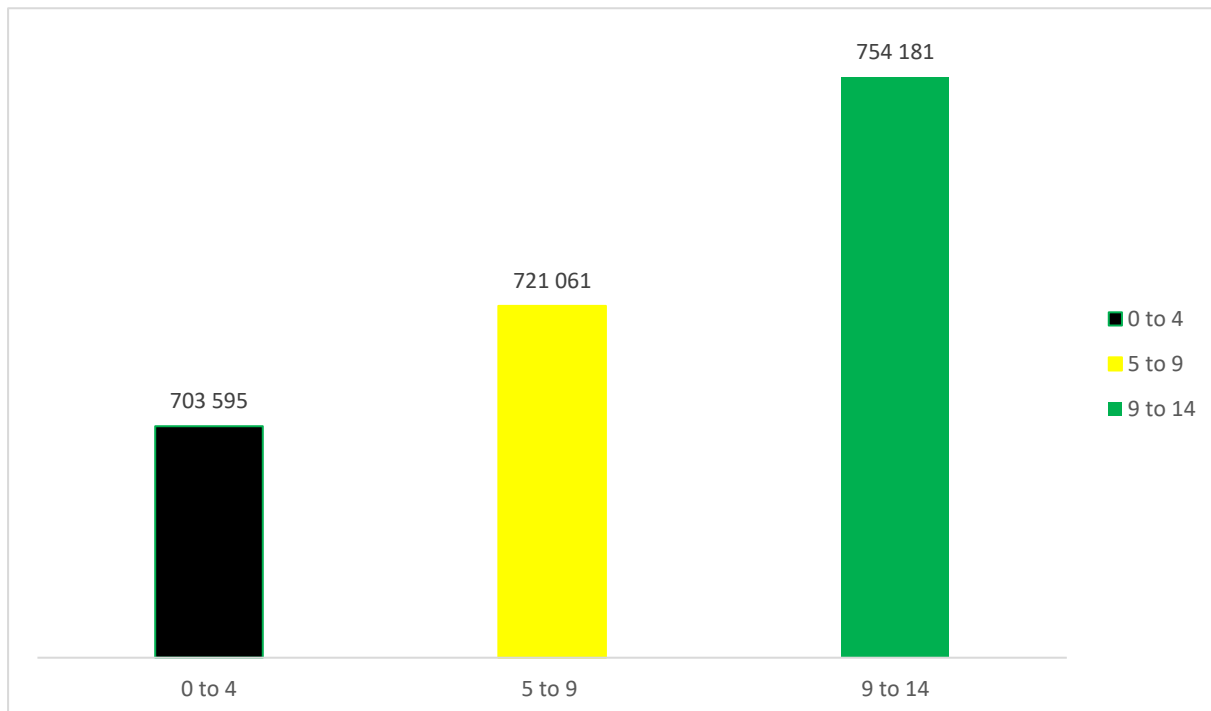

Table 2: Distribution of population by province, Census 2022

8.1.2 Youth population in the Province

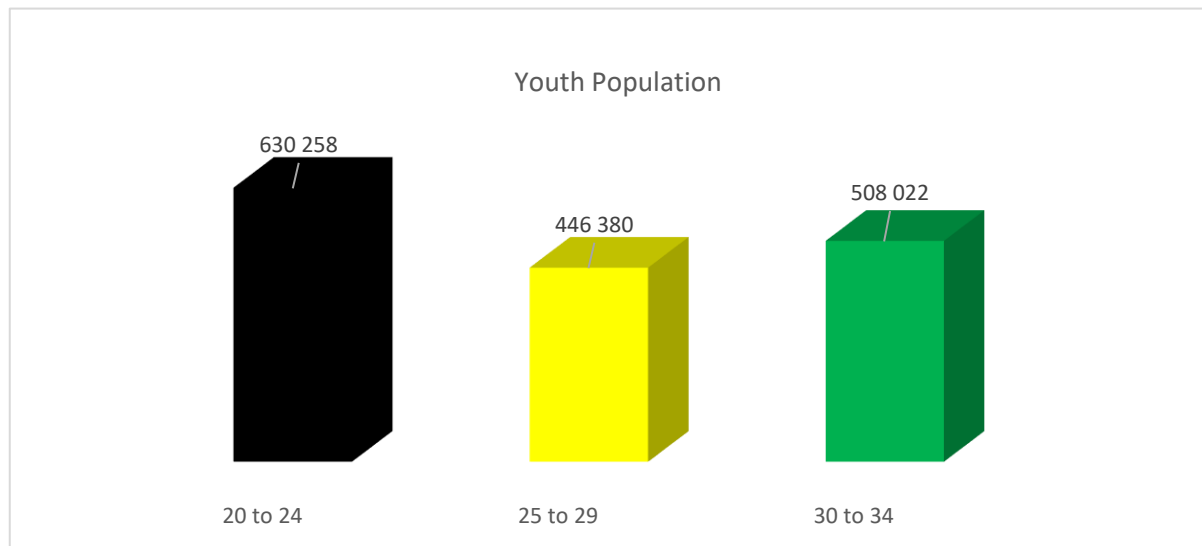

STATS SA categorizes the youth population into four subcategories namely: 15–19, 20–24, 25–29 and 30–34 years of

Table 3: Youth Population in the Eastern Cape

The aforementioned subcategories are depicted in the graph below:

Table 4: Youth Population in the Eastern Cape

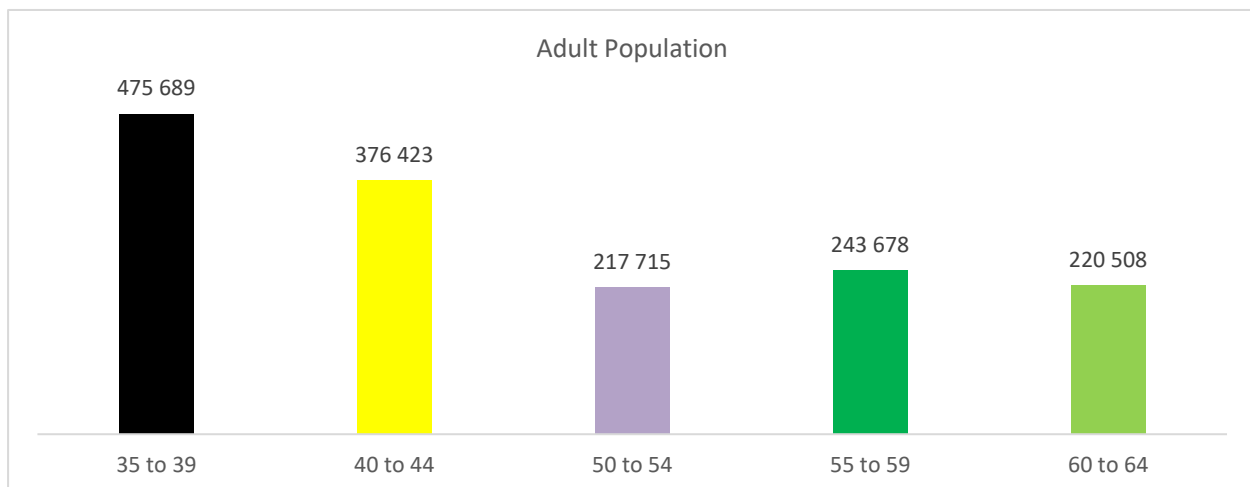

STATS SA, 2022

The total number of youth in the Province is 2,0 million which accounts for 30% of the total population in the Province.

8.1.3 Adult population in the Province

Five adult subcategories as outlined by STATS SA are as follows: 35-39, 40-44, 45-49, 50-54, 55-59 and 60-64. Table 5 below depicts the above-mentioned subcategories of the adult population in the Province.

Table 5: Adult population in the Province

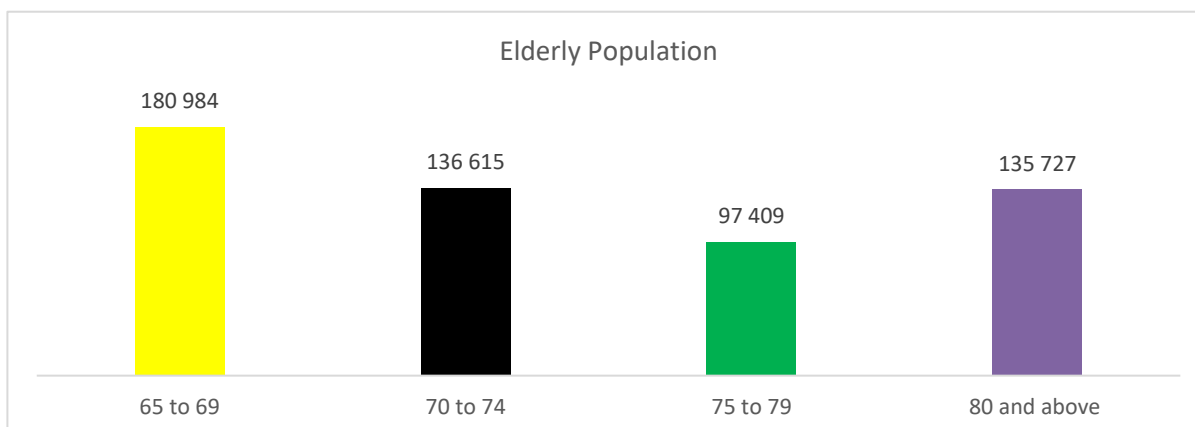

Stats SA, 2022

Based on the graph above, the total number of adults is 1,9 million which contributes 29% of the total population in the Province.

8.1.4 Elderly population in the Province

STATS SA clusters elderly people into four namely, 65-69, 70-74, 75-79 and 80 and above. These subcategories are presented in a graph below:

Table 6: The elderly population in the Province (Stats SA, 2022)

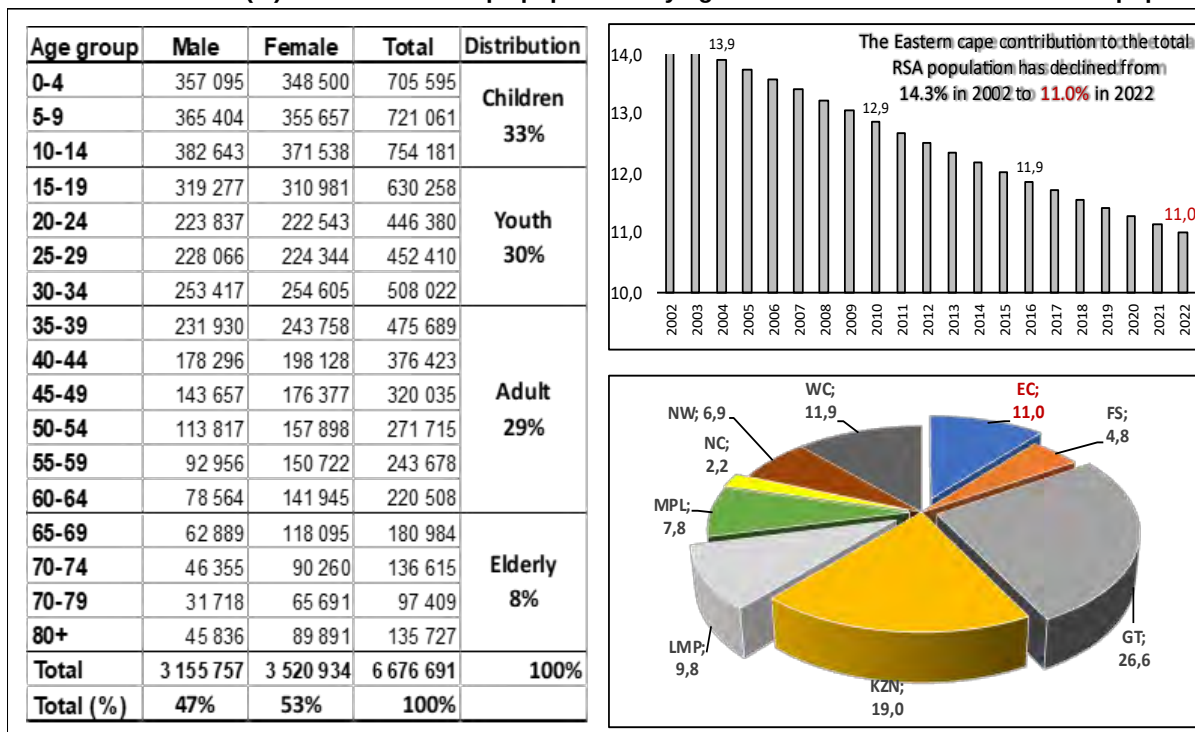

Based on the graph above, the total number of adults is 550 thousand which contributes 8% of the total population in the Province.

8.1.5 Disability Prevalence in the Province

The South African National Development Plan suggests a roadmap toward the development of strategies and measures aimed at improving the lives of individuals living with disabilities in South Africa. To respond to the NDP, the Provincial Government put some programs toward addressing the plight of the people who are destitute and living with disabilities. According to Statistic South Africa's 2011 Census survey, there were approximately 478,000 persons with disabilities living in Eastern Cape. This number has greatly escalated. Using the most recent 2020 General Household Survey, statistics show that in 2020, there were 699,452 disabled people in the Eastern Cape Province (Stats SA, 2021).

Table 1: Distribution (%) of the Eastern Cape population by age and contribution to the total RSA population

Source: Statistics South Africa mid-year population estimates (2022)

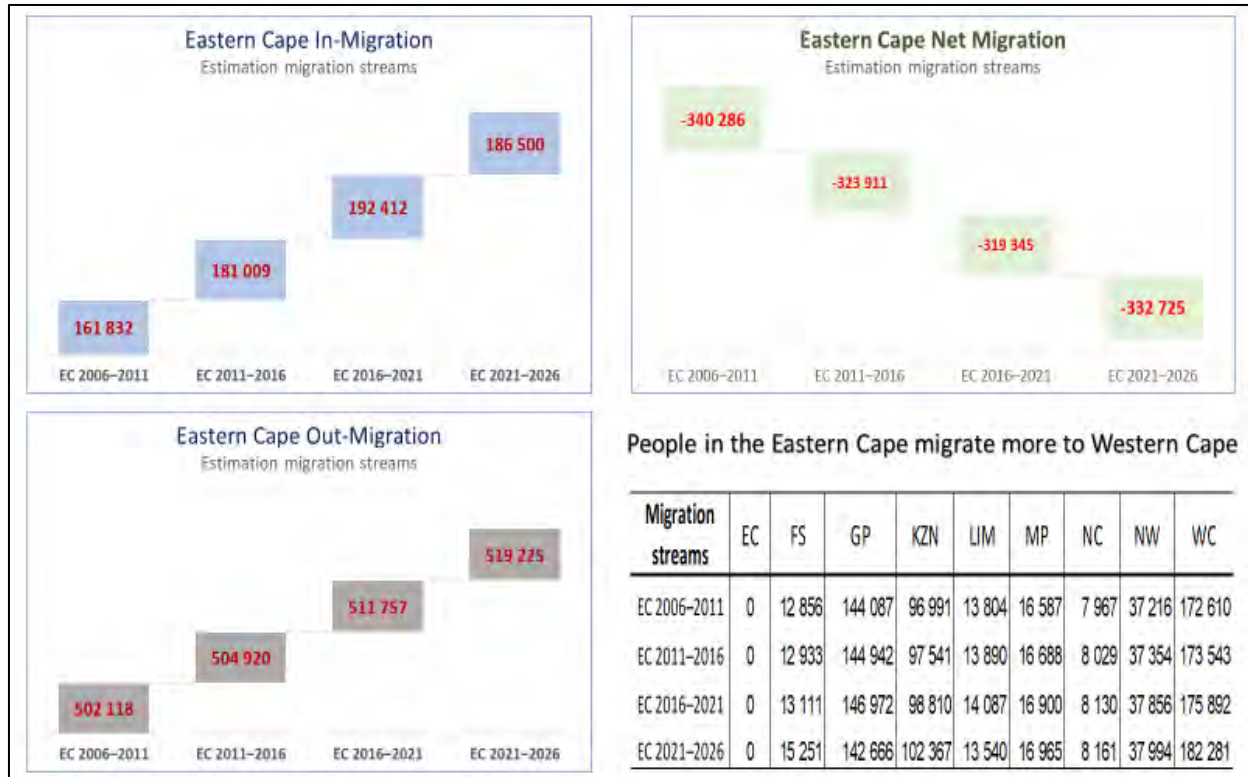

Table 1 above depicts the summary of population age distribution in percentage of the Eastern Cape population. The diagram within the table reflects the population of the Province as of 2022 with the Eastern Cape Province standing at 11%.

8.1.6 Migration trends

According to Statistics South Africa's mid-year population estimates for 2022, Eastern Cape Province migration remains a significant factor influencing population dynamics. Whilst the migration figures reported for 2021 show a slight reduction in outward migration compared to 2021, the 2022 estimates for the Eastern Cape showed a net migration of

-340 286, which consisted of outward migration of 502 118 people out of the province, whilst there was an inward migration of 161 832 individuals during this same period. This is an indication that there is a dominant movement into three other provinces in the country, namely, Gauteng Province (GP), Western Cape (WC), and Kwa-Zulu Natal (KZN) with, 1 443 978, 460 489, and 282 916.

Table 2: Estimated migration streams in the District Municipality

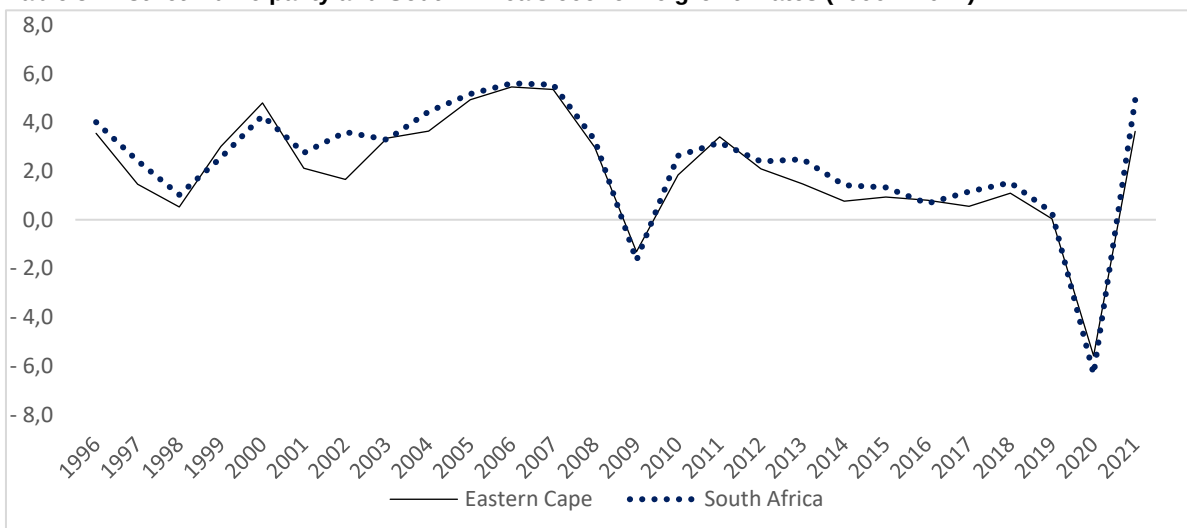

Source: Statistics South Africa mid-year population estimates (2022)

8.1.7 Economic Growth and GDP

According to the Quantec data of 2022, the Eastern Cape has set a target of increasing the GDP growth rate from 0.8% in 2018 to 2.8% in 2024/25 and 5.0% by 2030. Currently, provincial GDP is at 2% for Q1 2022, up from the 0,1% recorded for the same period last year. In addition, GDP in the Eastern Cape during this period returned to levels recorded before the pandemic.

Table 3: District Municipality and South Africa's economic growth rates (1996 – 2021)

Source: Quantec data (2022)

8.1.8 Types of settlement dwellings in the District Municipalities

In the Eastern Cape, the dwelling types vary significantly across the various districts and continue to express the extent of the rurality and dominance of rural existence in the province. Whilst the urban centers of the two metro regions of the Eastern Cape, Nelson Mandela Bay and Buffalo City Municipality, are dominated by brick structures as the typical style of urban dwelling or home, most District Municipalities outside these urban centers show an alternative picture. In all District Municipalities outside the metros, the dwelling style dominating the Eastern Cape, particularly the rural area of the province, remains the traditional dwelling made with traditional materials. An additional challenge for the current term has been the implementation of expanded social housing stock in the province, especially in areas with limited middle or missing middle-income groups.

The influence of geography, both its cultural-historic and socio-economic context, imposes firmly upon the physical infrastructure and landscape of the Eastern Cape. The data presented for 2020 in Table 4 shows that two District Municipalities in the province have more than 50% of all dwellings recorded as traditional-type dwellings constructed from traditional materials. In Alfred Nzo, O.R. Tambo, and Amathole District Municipality, traditional dwellings constitute 55%, 54% and 41%, respectively, of all dwellings (Stats SA, 2016).

Equally, in Metropolitan municipalities, the dominant pattern of settlement dwellings remains brick structures. Here we see the Nelson Mandela Bay Municipality and Buffalo City Municipality having 71% and 62% brick structures, while Cacadu has the most brick structures, at 79%. Importantly, both these metros and the Sarah Baartman DM did not form part of the former homeland territories, representing a clear distinction from the traditional style dwellings so characteristic of the rural DMs of the former homelands.

However, recently released data from the 2021 General House Survey published by Statistics South Africa, shows that this pattern of dwelling settlement in the province continues, with the Eastern Cape having the largest proportion of traditional dwellings. Equally, the province had the highest proportion of Households residing in traditional dwellings, which in 2020 was identified as forming 28% of all dwellings in the Eastern Cape, with many of these traditional dwellings not forming part of government-subsidized housing.

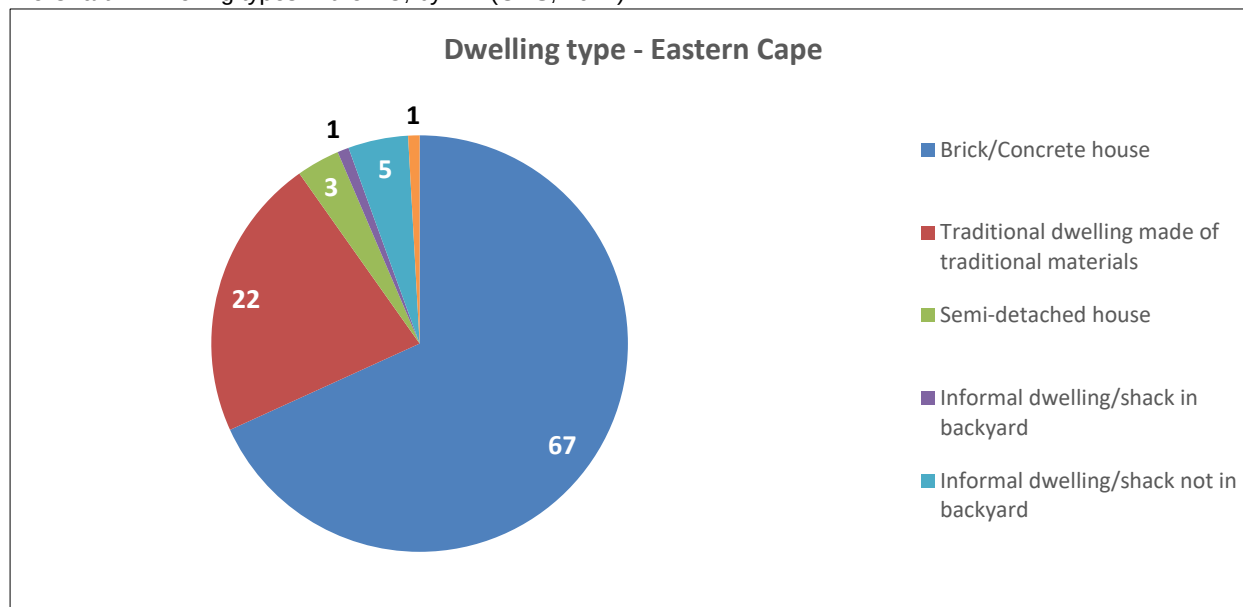

Table 4: HH by dwelling type, All provinces and SA

Type of dwelling	Thousands

Source: Stats SA, GHS 2021

However, while the data shows significant progress in improving access to sanitation, especially in rural provinces of the country, it also confirms that those most disadvantaged continued to be the poor, black African households in rural areas. The terminology and reference to rurality and rural areas, or a rural municipality in the South African context, do not always assist in describing the context. In this regard, both spatially and socio-historically, most spaces confronted with the severest deprivation and under development across the country continue to be those demarcated upon the territories formerly constituted as homelands.

Pie Chart 1: Dwelling types in the EC, by HH (GHS, 2021)

Source: Stats SA, GHS 2021

In terms of government-subsidized housing in the province, the province retains a lower proportion of households residing in government-subsidized houses (Stats SA, 2016). In the year 2016, 22% of all households in the province resided in government-subsidised housing. Sarah Baartman District Municipality was identified as 46.646,6%, and Nelson Mandela Bay Municipality, 40.2%, was recorded as having the highest proportion of households residing in government subsidy housing. On the other hand, O.R. Tambo had 6.3% of households, and Alfred Nzo district had 6.6% of households residing in government-subsidized housing. In assessing tenure status in the province, compared to the rest of the country, the Eastern Cape Province had a relatively large proportion of dwellings owned and paid off. Table 8 also shows that 412,000 households were residing in rented properties.

8.1.9 Provincial Economic Outlook and Gross Domestic Products

The Eastern Cape Provincial Development Plan (PDP) targets Increasing investment from 16.5% of Gross Domestic Product (GDP) in 2018 to 21.6% in 2024/25 and 27.1% of GDP by 2030. There is an apparent decline in Investment in the province, as measured by Gross Fixed Capital Formation (GFCF) for the Eastern Cape as a percentage of GDP rate (at market prices), which is currently at 15.1%. Gross Fixed Capital Formation (GFCF) for the Eastern Cape as a percentage of GDP rate (at market prices) illustrates the cumulative impact of the broader economic climate and the effect of the pandemic on investment and the generally weaker levels of GFCF in the country.

In exploring some of the root causes for the recorded regression in capital investment, an analysis by Quantec, published in their '*Fixed capital formation and stock*' report, observed that Real GFCF by the government decreased for two consecutive quarters during 2021. The report further noted that this was because of the slowing down of capital outlay by the provincial and local governments around the country whilst noting a recorded increase of 1.9% in national GFCF in Q2 2021 (CSIR, 2019).

8.1.10 Provincial Labor Force Participation and Unemployment

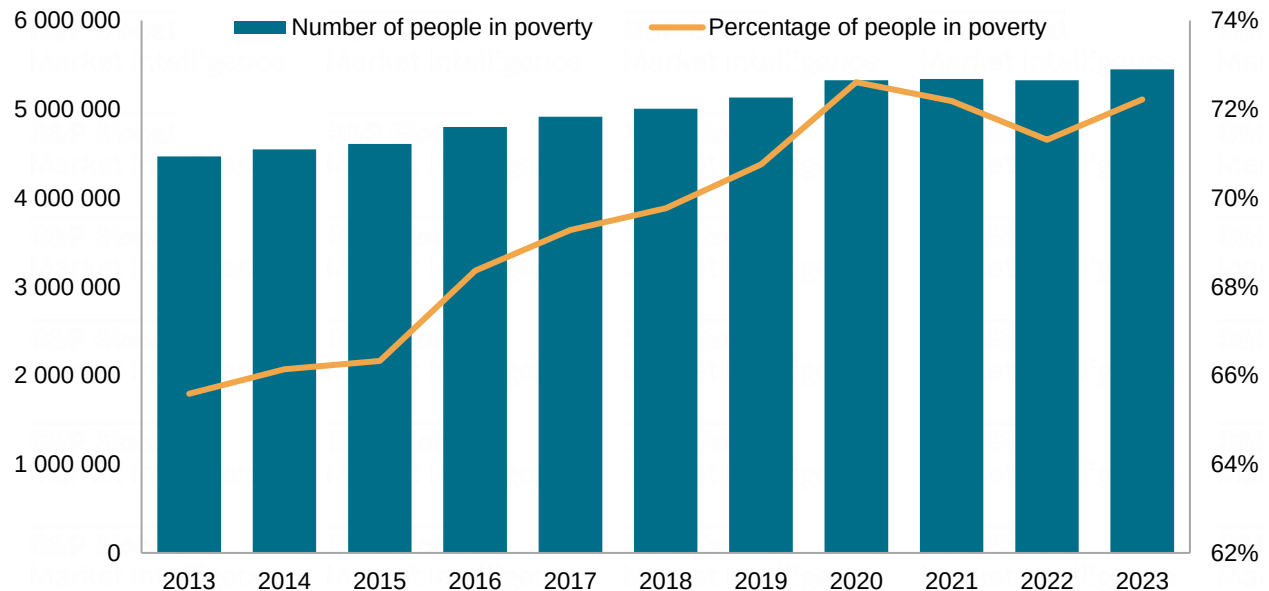

The efforts to reduce unemployment from 35.4% in 2018 to 25% in 2024/25 and 10.0% by 2030 received a significant setback. In this period under review, employment data by industry for the 1st quarter of 2023 shows that the Eastern Cape had a total of 1 421 000 employed persons recorded during this period, with unemployment at 40%. The statistical information shows that the unemployment rate has slightly declined by 2.1% in the first quarter of 2023.

The data further confirms the dominance of the Community services sector (i.e., government) as the largest employer in the province, followed by other sectors of the economy.

8.1.11 Poverty

The upper poverty line is defined by StatsSA as the level of consumption at which individuals are able to purchase both sufficient food and non-food items without sacrificing one for the other. This variable measures the number of individuals living below that particular level of consumption for the given area and is balanced directly to the official upper poverty rate as measured by StatsSA.

Figure 24: Number and percentage of people living in poverty - Eastern Cape Province, 2013-2023 [Number percentage]

Source: South Africa Regional eXplorer v2473.

Data compiled on 22 Apr 2024.

© 2024 S&P Global.

In 2023, there were 5.45 million people living in poverty, using the upper poverty line definition, across Eastern Cape Province - this is 22.04% higher than the 4.47 million in 2013. The percentage of people living in poverty has increased from 65.59% in 2013 to 72.22% in 2023, which indicates an increase of -6.63 percentage points.

Table 34: Percentage of people living in poverty by population group - Eastern Cape, 2013-2023 [Percentage]

Year	African	White	Coloured	Asian
2013	71.4%	0.8%	45.8%	7.7%

In 2023, there were 5.45 million people living in poverty, using the upper poverty line definition, across Eastern Cape Province - this is 22.04% higher than the 4.47 million in 2013. The percentage of people living in poverty has increased from 65.59% in 2013 to 72.22% in 2023, which indicates an increase of -6.63 percentage points.

8.1.12 Access to Basic Services

The provision of basic services is one of the main contributors toward the creation of sustainable communities in the province, thus the hereunder section presents the access to basic services within the province such as water, electricity, refuse removal and ablution facilities.

8.1.13 Water and Sanitation

In the Eastern Cape, it was estimated that about 80,5% of households have access to safe drinking water while 19,5 % of dwellings have no access to safe drinking water. It was also reported that piped water inside the house and in the yard are the main sources of safe drinking water. Nelson Mandela Bay Metropolitan Municipality was standing at 82,3%, followed by Buffalo City Metropolitan Municipality which was standing at 65,7% and Sarah Baartman with 64,4% of access to piped water.

On the other hand, households without access to safe drinking water were mostly found in rural districts of Alfred Nzo District with 79.9%, followed by OR Tambo District with 69.7%. The lowest access to safe drinking water was reported in Winnie-Madikizela Mandela Local Municipality with 15.8% followed by Ntabankulu Local municipality with 18.2% under Alfred Nzo District, and Ngquza Hill Local Municipality with 17.6%, followed by Port St Johns Local municipality with 19,0% under OR Tambo District.

Table 6: See the table below that depicts the distribution of households by access to safe drinking water per district municipalities.

District /Metropolitan Municipalities	Access to safe drinking water		No access to safe drinking Water		Total
Sarah Baartman	341282	64,4	191971	35.6	533253
Amathole	661545	75,9	210056	24.1	871601
Chris Hani	38230	45,9	790157	54.1	828387

Sources: Statistics South Africa, Community Survey 2022

8.1.14 Toilet Facility

In 2022 statistical evidence shows that Nelson Mandela Bay Metropolitan Municipality had approximately 93.5% flush toilet connected to sewerage, followed by Sarah Baartman with 87.7%. The Districts with the lowest number of flush

toilets connected to sewerage were Alfred Nzo region with 22.7%, followed by OR Tambo district with 31.2%. additionally, it was indicated that in the Province 58.7% represent flush toilets, 3.9% for chemical toilets, 31.1% are pit toilets and 1.7% represent bucket system. Alfred Nzo district was recorded as district with highest number of pit toilets in the Province followed by OR Tambo and Amatole Districts.

Table 7: Distribution of households by location of toilet facility for Eastern Cape districts, Community Survey 2022

District/Metropolitan	Inside the dwelling/house		In the yard		Piped water on community stands		Total
Sarah Baartman	101 941	64.4	41 053	25.9	10 094	6.4	153 088

8.1.15 Access to Electricity

The report shows that 82.00% of the Province's households have access to electricity. Over 1, 3 million households in the province stated that they had access to in-house pre-paid electricity. There were also many households 2 691 without access to energy for lighting and cooking. With regards to the districts, over 297 082 households in Nelson Mandela Bay Metropolitan and 294 999 households in OR Tambo district reported that they had access to in-house prepaid electricity. Compared to other districts, the highest number of households without access to electricity was in Joe OR Tambo district followed by Nelson Mandela Bay Metropolitan.

Table 8: Access to Electricity

District	Access to Electricity		No access to electricity		Total
	Number	%	Number	%	Number
Sarah Baartman	150 798	95.2	346	0.2	151 144
Amathole	228 313	94.5	242	0.1	228 555
Chris Hani	217 524	96.1	426	0.2	217 950
Joe Gqabi	116 706	93.9	100	0.1	116 806
OR Tambo	294 999	94.1	521	0.2	295 520

EASTERN CAPE	1 738 448	99.8	2631	0.2	1 741 079

Source: Statistics South Africa, Community Survey 2022

8.1.16 Energy Sources

Provincially, 85.4% of households revealed that they used electricity as an energy source for lighting, cooking, and water heating. At the district level, the use of electricity was still prominent compared to other sources of energy in Nelson Mandela 95.7% followed by Sarah Baartman 91.4% and Chris Hani 90.1%. The usage of other sources of energy for lighting was higher among households in Alfred Nzo 36, 6% compared to other districts.

8.1.17 Refuse Removal

The statistical information indicated that in the Eastern Cape 53.3% of refuse is collected by local authority at least once a week, 0,9% is removed by local authority less often, while 1.1% contribute to communal refuse dump. Additionally, the statistics demonstrated that 2.1% is refuse found in communal container or central collection point which get collected by the local authority, 34.6% represent the population that use their own refuse dump, while 6.6% contribute to non-rubbish disposal.

8.1.18 Provincial Housing Demand

Even though the Eastern Cape Department of Human Settlements had delivered more than 456 000 low-cost houses to qualifying beneficiaries, the supply of housing opportunities does not meet the ever-increasing demand for housing. Stats SA 2022 reported that there are more than 300,000 households who need decent houses in the province. Census 2022 indicated that 70.7% of the Eastern Cape households are formal dwellings, 28% are traditional dwellings while 0.8% are informal dwellings.

Table 9: Proportion of housing demand according to eight regions of the province.

District/Metropolitan Municipality	Traditional structure made of traditional material	Dwelling/ made of	Informal dwellings	others	Total
Sara Baartman	1 523		12 426	394	14 343
Amathole	39 419		4 892	1 362	45 673
Chris Hani	29 190		2 589	522	32 301
Joe Gqabi	13 236		3 594	393	17 223
OR Tambo	67 434		2 676	1 466	71 576
Alfred Nzo	55 483		1 538	1 043	58 064
Buffalo City Metropolitan	7 942		30 160	627	38 729
Nelson Mandela Bay Metropolitan Municipality	1 202		22 793	538	24 533
Eastern Cape	133 584		80 668	4 983	302 442

Source: Statistic South Africa, Census and Community Survey 2022

Based on the above-mentioned table, OR Tambo and Alfred Nzo District Municipalities had the highest proportion of households that need decent housing. On the other hand, Sarah Baartman is standing at 14 343 households, which is the lowest number compared to other districts. Poverty and shortage of basic services are among the main contributing factors to the ever-increasing demand for decent shelter. OR Tambo and Alfred Nzo were regarded as one of the poorest regions in the province according to Stat SA Community Survey of 2021.

8.1.19 Climate Change Adaptation

Climate change is a serious threat to the sustainable development goals globally and in South Africa and it threatens to halt or even reverse the socio-economic gains being made. The Eastern Cape is a province of contrast and diversity. Proximity to the ocean, extensive mountain ranges and altitude variations make for diverse climatic conditions. Exposure is a further driver of vulnerability in the Province, with low-lying coastal areas exposed to sea-level rise and storm surge, and areas experiencing frequent fire and flooding and a potential increase in the prevalence of malaria. The climatic gradients are apparent across the province, from the east to the west and coastal to inland which has the potential to strip off the right of shelter for the vulnerable communities in the Province.

Concerning climate change adaptation, several national departments representing key sectors of South Africa's economy, including agriculture and forestry, water, human settlements, and health, have developed sectoral climate change adaptation strategies. The progress made on adaptation has been well supported by the LTAS (Long Term Adaptation Scenarios) programme conducted in 2014. Whereafter In 2016, South Africa began the process of developing the National Climate Change Adaptation Strategy (NCCAS) which was finalised in 2017 and should be used as the National Adaptation Plan (NAP) to the United Nations Framework Convention on Climate Change (UNFCCC).

At the same time, the provinces in South Africa are required to coordinate provincial adaptation and mitigation responses across their own line departments, as well as between municipalities within the Province. The Climate Change Adaptation Action Plan (CCAAP) for the Eastern Cape Province requires the human settlements sector to integrate climate change considerations into housing and land use planning (Disaster Risk Reduction and protection of agricultural conservation land) Inclusive of all land users, not just agriculture or housing which is regarded as Programme 1. The activities in this regard include Preparing and implementing the Provincial Spatial Development Plan, Municipal Spatial Development Plan Integrated Geographical Information System (GIS), Land use management schemes and systems Integrated Development Plans (IDPs). Programme 2 of the CCAAP for the Eastern Cape Province is coined as Design and develop climate-resilient low-cost urban or rural settlements, incorporating green infrastructure measures. The activities relative to the human settlements sector in this programme include incorporating green infrastructure measures which consider energy efficiency, water harvesting, rooftop gardening, natural light. It is also noted that there is a need for more details regarding the process of doing this activity. CCAAP further noted that each sector specifies that Climate Change considerations are included in each of its own strategic plans

8.2 INTERNAL ENVIRONMENT ANALYSIS

The advent of the 7th Term of Administration has provided an opportunity for introspection and revisiting existing strategies for optimal service delivery. It is significant that the vision and mission of the Department has remained consistent during the finalisation of this Strategic Plan and this provided for the continued seamless implementation of the previously adopted Departmental Turnaround Plan, which remains fully relevant. In addition, the new location of both the Departments of Human Settlements; and Public Works and Infrastructure under one Ministry has provided unique new opportunities for both Departments to strengthen implementation capacity.

The Department entered the 7th Term of Administration fully prepared with an approved MTEF Human Resources Plan which anticipated the required responses to the complex challenges which the Department is expected to face during the new term. The Department has not been exempted from the shrinking fiscus and accompanying shrinking resource base within the Public Service in general. The hard reality is that interventions which would have worked just a few years ago may not yield similar success under the current circumstances. The Department has therefore identified potential solutions for this scenario through the adoption of a revised service delivery model which will find further expression through the review of the organogramme early in the new term.

The objectives of the Human Resources Plan seek to achieve the following:

- To confirm that the Department accomplishes its strategic outcomes and the core mandate by concluding organisational development processes emanating from an earlier organisational functionality valuation to establish ability, followed by the approved Service Delivery Model. This will culminate in the approval and implementation of a revised organogramme which will clearly provide the ideal human capital demand to fulfil the mandate.
- Capacitation of present staff to deal with progressive methods of operational and professionalisation and include the district capacitation within the Department.
- Attraction and recruitment of skilled professionals and maintaining employment equity targets.
- To produce a healthy workforce through the facilitation of Employee Health and Wellness Programmes allowing staff to contribute to the purpose of the Department to the greatest of their capacity.
- Ensuring that the Department remains compliant with laws, policies, and prescripts.

The narrative below will briefly reflect on the current status of the implementation of these objectives as well as how these objectives will find expression as part of the overall execution of the Strategic Plan 2025-2030.

8.2.1 Departmental Outlook for Financial Year (2025/26)

In pursuit of the National Development Plan's vision 2030, the Department remains focused on delivering outputs and targets for 2025/26 in line with the National and Provincial priorities. The department has set aside the Human Settlements Development Grant (HSDG) budget and Informal Settlements Upgrading Programme Grant (ISUPG) to deliver the following key deliverables:

- Complete **4 970** housing units
- Complete **4 345** serviced sites
- Rectify **1 158** pre and post defective houses
- Implement **3** projects with **ISBT** elements
- Provide **143** housing units for military veterans
- Complete phase 1 of **30** informal settlements
- Complete phase 2 of **47** informal settlements
- Upgrade **83** informal settlements to phase 3
- Approve **260** First home finance subsidies
- Provide **77** Individual Subsidy Units
- Finalize **2** social and economic amenities
- Handover **4 827** destitute houses
- Register **1 666** title deeds
- Create **5 834** work opportunities
- Allocate **40%** of Human Settlements Conditional Grants allocated to MSME Contractors
- Support **142** Youths in experiential learning and artisan development programme (apprenticeship and learnership)
- Capacitate **39** municipalities to perform Human Settlements functions as per the Housing Code
- Procure **10%** of black industrialists' building materials procured by contractors contracted

- Devolve 5 land parcels to municipalities

8.2.2 Organisational Development Processes to optimise Departmental Performance

The Departmental organisational development processes seek to address the ongoing need for renewal in order to build a Human Settlements Department which is able to provide quality, integrated and sustainable human settlements to our communities. The Departmental leadership is fully committed to steer the course towards positive culture change whilst ensuring inclusivity and full ownership of the process across the Department.

In terms of organisational architecture, the Service Delivery Model (SDM) was approved at the beginning of the term. The SDM was confirmed as appropriate during the subsequent strategic planning processes and will improve the way the Department works through decentralization and automation of business processes. The Organogram will therefore be reviewed for the purpose of alignment with the SDM for improvement of service delivery. It is envisaged that the design and approval of the organogramme should be finalised together with the necessary implementation measures to ensure actual implementation thereof during the 2026/2027 financial year. The organogramme must provide for optimal resourcing as close as possible to the coalface of service delivery which is represented by the District Offices. Provision must be made for the evolution of the mandate of the Department to strengthen the sector by ensuring the appropriate accreditation of relevant functions at Municipal level. The Department will retain and enhance its relevance through providing the required leadership and monitoring during this process.

8.2.3 Human capacity of the Department to Deliver on its Mandate

The narrative on human capacity within the Public Service is incomplete without reflecting on the implementation of the National Framework on the Professionalisation of the Public Sector. The Framework espouses five pillars in the value chain for the professionalisation of the public sector, namely:

- i. Recruitment and Selection
- ii. Induction and Onboarding
- iii. Planning and Performance Management
- iv. Continuing Learning and Professional Development
- v. Career Progression, Succession Planning and Management of Career Incidence of Heads of Department

Although all the above are familiar elements, the Framework strengthens the foundation for building human capacity by refining and enhancing the elements. The Department has embraced the implementation of the Framework and will at all times ensure adherence to the Directives issued in relation to the Framework.

As part of facilitating improvement of human capacity, the Department will continue to utilise the Skills Levy budget to train the employees on short courses that are service delivery related and provide bursaries for the development of long term knowledge and competencies. In collaboration with the Construction Seta the Department is in the process of assisting technical employees to register with their professional Council.

Through the National School of Governance, the department provided training on Breaking Barriers to Entry into Public Service (BB2E). The programme equips young graduates with knowledge, skills, and values pertaining to the overall context of government, Batho Pele, readiness for employment and workplace etiquette. The young graduates were developed in:

- District Coordination & Project Management.
- Effective implementation of Human Settlements programmes.
- Legal Advisory Services.
- Contracts Management.
- Land Acquisition; Research and Policy Development.
- Government Information and Communication Technology Management.
- Beneficiary Management.
- Human Resource Management services.
- Organisational Human Resources Development Services.
- Financial Management.
- Strategy and Systems.
- Customer Care and Social Facilitation.
- Supply Chain Management and
- Internal Auditing.

Majority of these Interns are funded by the department through the Compensation of Employees budget for the 2023/24 financial year, while others are funded through partnerships and collaboration with Office of The Premier (OTP); Eastern Cape Provincial Treasury and Sector Education and Training Authorities (SETA's).

The Department also provided a platform for experiential learning for TVET College students in the fields of: Management Assistant, Public Administration, Human Resources Management, Information Technology and Financial Management. These Learners are in Learnership through partnerships with Public TVET Colleges and Sector Education and Training Authorities (SETA's). It is planned that these youth development initiatives will continue over the new term of government as part of the broader initiative of youth empowerment.

8.2.4 Staffing and Employment Equity

At the time of finalising the Strategic Plan the Department was faced with a vacancy rate of 12% against the current organogram which was approved during 2018. The Department will pursue reducing the vacancy rate over the term in order to enhance capacity.

There is a significant similarity between the core skills required in terms of the mandates of the Departments of Human Settlements, and Public Works and Infrastructure. The agreed-upon collaboration between the Departments creates opportunities for fast-tracking overall professional development and possible shared utilisation of technical staff. Due to the general funding constraints within the Public Service, the intention is to shift a degree of responsibility for employment of technical staff to the service providers of the Department through contractual commitments.

The Leadership of the Department sees the need to achieve employment equity targets as non-negotiable and will deploy targeted recruitments measures towards this goal. It is the expressed intention to set aside 20% of vacancies exclusively for the appointment of persons with disabilities to fast-track the achievement of the required target. A campaign on disability awareness has commenced and will be strengthened during the term to prepare the environment for future employees with disabilities but also provide opportunities for reasonable accommodation to current employees.

8.2.5 Employee Health and Wellness

The department is implementing the Employee Health and Wellness Strategic Framework for the Public Service where four (4) strategic interventions include Wellness management, HIV, STI and TB Management, Health and Productivity Management and Health and Safety Management. This programme is aimed at ensuring that the department has a healthy and productive workforce. This also assists in facilitating the retention of key competencies that are required for delivering on the department's mandate.

The Employee Health and Wellness programme caters for all employees including head office and all regional offices. To ensure the programme is implemented effectively at all office sites the department appointed Peer Educators across the province to assist with implementation and to serve on the Employee Wellness committee for a 3-year period. These appointments will lapse on 30 September 2025, and it is envisaged that new appointments will take place by the end of September 2025.

Wellness Management intervention amongst many elements includes counselling services to employees and their immediate family members. The department is making use of an out-house counselling service provided by a service provider providing a 24/7/365 professional counselling services as well as an in-house counselling service with internally appointed qualified counselling staff. These services are providing the employees with coping mechanisms and thereby assist in the enhancement of productivity. The current out-house counselling service provider, Life Health Solutions has been appointed for a three-year period from 1 May 2023 to 30 April 2026. It is envisaged that the department will ensure continuation of this service by procuring this service before it lapses in 2026. Annual staff health screenings that are performed in each work site will continue to be conducted to ensure staff awareness regarding their health status as this will improve employee health profiles and thereby enhance productivity. The department will continue partnerships with the Government Employees Pension Fund (GEPF), the Department of Health and Non-Government Organizations (NGO's) to ensure screenings happen on a quarterly basis. The department will also, as mandated by the OHS Act (85 of 1993) continue to provide and maintain as far as reasonably and practicable, a working environment that is safe and without risk to the health of employees. The department appointed health and safety functionaries for a 3- year period from 1 August 2024 to 31 July 2027. As legislated, these appointments will take place again once it lapses by the end of July 2027.

8.2.6 Compliant with laws, policies, and prescripts

The Department actively participates in Provincial governance structures to contribute to an overall environment of compliance whilst maintaining internal structures for the same purpose. Compliance is regarded as a non-negotiable prerequisite for continuous improvement and is therefore not regarded as a goal in itself. The respective structures play an important role in providing overall guidance and monitoring performance whilst also serving as valuable communities of practice. The Department will continue its contribution in this regard accordingly.

The Corporate Services function plays a critical role in the overall value chain of consequence management and has adopted a stance of holding all role players in the value chain accountable to ensure collective ownership thereof.

Although employment relations do not solely fall within the scope of compliance, it is important to reflect on it as part of assessing the stability and potential risks to business continuity. The Department, together with its social partners, has invested substantially in building a relationship of mutual trust and respect in engagements between each other. The result has been an extremely constructive relationship based on identifying common desired outcomes for the organisation and its employees. The intention over the term will be to build on this relationship to establish an environment which is able to withstand potential disruptions whilst allowing respective parties to fulfil their obligations to key stakeholders.

8.2.7 Ensuring that the Percentage of Human Settlements Conditional Grants is allocated to MSME Contractors

The Department considers the Micro Small and Medium Enterprises (MSMEs) as a key component in advancing inclusive growth and development in South Africa. In increasing the participation of MSMEs in human settlements development, the Department will facilitate the procurement of the MSMEs. The Department is developing a policy on Micro Small and Medium Enterprise Development which will provide guidelines for the implementation of MSME development thereby contribute to the socio-economic development in the province. The Department commits to ensure that 40% of Human Settlements Development Grant and Informal Settlements Upgrading Partnership Grant benefit MSMEs contractors sourced from the MSME Framework Agreement. This will contribute to inclusive economic growth and sustainability of MSME.

8.2.8 Unlocking the potential and promoting the participation of the Black industrialists in the Human Settlements value chain

Furthermore, the Department will unlock the potential within black industrialists that operate in the South African economy through deliberate, targeted, and well defined financial and non-financial support. The Department will ensure that contractors who are appointed by the Department procure at least 10% of the building materials from the black industrialists and suppliers. These black industrialists will be sourced from the panel of black industrialists created by the Department, database of the organs of state such as Small Enterprise Development and Finance Agency (SEDFA) and Eastern Cape Department of Public Works and Infrastructure.

8.2.9 Stakeholder Analysis

Stakeholders remain key drivers of human settlements development and thus it is critical that our situational analysis takes them into account. In the past three years, the department has brought partnerships and collaborations to the fore of departmental priorities. Among the key interventions in this regard are external stakeholder engagements, intergovernmental collaboration, and stakeholder consultations. This has shifted the interest and influence of some stakeholders with some stakeholders becoming more involved in our programmes. The priorities of the 7th Administration also highlight the importance of some stakeholders which may have been previously supplementary to the department but have now become support to our core programmes. Some of these priorities include: the empowerment of MSME's, local materials supply, interventions for vulnerable groups and integrated/mixed mode developments.

Our approach to stakeholder analysis entails identification of stakeholders, analysis of stakeholder influence and interest, categorisation of stakeholders and defining stakeholder engagement tools. The Department has three categories of stakeholders: Core, Core Support and Core Supplementary stakeholders. These are defined according to levels of primacy to the core business of the Department consecutively. Core stakeholders are the primary stakeholders, the main contributors to the business of the department and their role makes or breaks the Department. They have a high influence and high interest in this department. Core Support are stakeholders that support core business and add value to the mandate of the Department. They either have a high interest or high

influence on departmental programmes. They are important because they can affect the department's progress and value proposition. Core Supplementary stakeholders may not be supporting core business directly but may have a vested interest in the human settlements sector or have a potential to assist the department in some way. These stakeholders currently have low interest and influence in departmental programme. This can however be changed through collaboration.

The three tools of stakeholder engagement:

- To Inform (message, share, monitor): Media Platforms through the Communications Strategy elements; information sharing sessions, formal correspondence.
- To Consult (advocate, plan, give feedback): IGR Forums, MEC engagements, Business Forums, Programmatic engagements, NDHS engagements
- To Collaborate (empower, partner, engage): Lectures/Seminars, Programmatic consultation and collaboration, Memoranda of Agreement/Partnerships, Pledges

The primary responsibility for using the tools rests on all programmes based on their areas of responsibility.

The following table summarises the stakeholder analysis:

CATEGORY	CORE	CORE SUPPORT	CORE SUPPLEMENTARY
Definition	Primary	Secondary	Tertiary
Minimum tools of Engagement	Inform, Consult and Collaborate	Inform and Consult	Inform and Collaborate
STAKEHOLDERS	• Beneficiaries • Contractors • Municipalities • Legislature • NDHS • NHBRC • The HDA • Dept of Military Veterans • Office of the Premier • Community Resource Organisations • Internal stakeholders • Dept of Environmental Affairs • ESKOM • Dept of Water and Sanitation	• Banks and funding institutions • NHFC • SHRA • Social Housing Institutions • Higher Learning Institutions • Research Institutions • IBT Innovators • ECSECC • Dept of Health • Dept of Education • Auditor General • Public Protector • Human Rights Commission (SAHRC) • Media • SALGA • DRDAR • SASSA • Service Providers • Dept of Social Development • Dept of Correctional Services • Dept of Forestry	• Civil Society Organisations (incl. sector organisations and associations, Disability associations, Women associations, and Youth associations) • Development Agencies • International Institutions and Donors • Private Sector (Broader) • PRASA/Transnet • Dept of Public Works • Dept of Cooperative Governance and Traditional Affairs • Department of Trade Industry and Competition • Dept of Science Technology and Innovation • CSIR

8.2.10 SWOT Analysis

The review of the departmental performance and the Joint Strategic Planning review session has led to the development of the SWOT to identify Strengths, Weaknesses, Opportunities, and Threats. The department is still to engage with all stakeholders to develop theory of change to demonstrate how the mandate of human settlement will integrate with other government programmes

STRENGTHS	WEAKNESSES
➤ ECDHS has a clear and focused leadership in the form of its executive team. ➤ Existence of oversight bodies such as the Audit Committee, Risk and Ethics Management Committee, ICT Governance Committee, Portfolio Committee and SCOPA promoting good governance and accountability. ➤ The lean structure of the organization provides a robust approach in dealing with rapid changes and thus leadership is best positioned to drive strategic objectives. ➤ There is an implementation mechanism in place: Beneficiary approval system and enhanced project approval process. ➤ ECDHS has a strong Technology platform – HSS, ECMS that can be leveraged. ➤ The department has the relevant Act and policies to deliver to its mandate. ➤ The Department has Systems and processes to accelerate service delivery	➤ High vacancy rate ➤ Department is reliance on manual systems. ➤ Misalignment of between Service Delivery Model and Organogram (Budget not aligned to Human resources) ➤ ECDHS has taken over the role of a Developer and that requires adequate systems and manpower without which the organization is challenged to perform efficiently in a Construction industry. ➤ There is communication gap between the business units and ICT ➤ Operational staff are not adequately trained in the principles of Project Management.
OPPORTUNITIES	THREATS
➤ Accreditation of Municipality to support the development of Human Settlements' and accelerate service deliver. ➤ Provincial strategy on revitalization of Industries opening opportunities for integration and development. ➤ The implementation of District Development Mode to allow other role players to partake in creating of human settlements. ➤ Standing MOU's with institutions of higher learning to conduct Human Settlements related research ➤ Government's direction to consider alternative Energy making possible to fight climate change. ➤ Growing needs of the Innovative sustainable Building Technologies ➤ ECDHS has a strong base of performing Contractors that can help in effective Service delivery	➤ Inadequate bulk infrastructure in the province delaying housing delivery. ➤ Misallocation of approved beneficiaries at a local sphere leading to social unrest ➤ Shrinking fiscal ➤ Inadequate Integration between sector Departments and private sector ➤ Growing trend of beneficiaries selling subsidised houses ➤ The rapid change in the Construction industry and the lumpy infrastructure density in the Eastern Cape ➤ Telescopic budgets that are reducing in future whilst community expectations are rising leading to potential social unrest.

8.2.11 PESTEL Analysis

A PESTEL analysis (formerly known as PEST analysis) is an instrument used to analyse and monitor the macro-environmental factors that may have a profound impact on an organisation's performance. The Department has used PESTEL tool to gain insight into the external influences which may impact in the implementation of Human Settlements Strategies and decisions. This will assist in assessing any risks which may incur and identify possible strategies to be put in place to ensure that the operations or service delivery is not affected subsequently highlight the potential for additional costs, and prompt further research to be built into future.

P	Political Factors	➤ Change in political leadership. ➤ Political uncertainties in relation to implementation of policies impacting Investor confidence. ➤ Government Tax levies on goods
E	Economic Factors	➤ Covid 19 has shown that government fiscal and monetary policies do not adequately address the needs of the elderly, poor, youth, and persons with disabilities. ➤ Migration patterns affecting allocation of budget in the province. ➤ Impact of Rating Agency in the economy ➤ Rife levels of corruption
S	Social Factors	➤ High unemployment rate/Job losses ➤ High crime rate ➤ Growth of Social Pressure groups e.g., Social Unrest, Uncontrolled illegal immigrants ➤ High dependency of social Grants resulting in increase in subsidy beneficiary list ➤ Rife levels of corruption
T	Technological Factors	➤ Impact of fourth Industrial Revolution ➤ Inadequate systems (Not integrated) ➤ Cybercrime/ Hacking

		➤ Ageing ICT infrastructure
E	Environmental	➤ Climate change/Drought ➤ Change in environmental policies. ➤ Depleted natural resources (Water, land) ➤ Inadequate bulk infrastructure
L	Legal Factors	➤ Litigations ➤ Housing Act versus Human Settlements Acts ➤ Legislative framework (Amendment of the constitution section 25 and Communal Property Bill)

The department is taking strides to change the landscape of the Eastern Cape through creating integrated sustainable human settlements, serving the most vulnerable of our communities in 40 prioritization of the strategic priorities of the Provincial Development Plan and the National Development Plan. The Department will take strides to re look into how we are rendering the service to the communities to respond to some of the challenges or new trends emerging especially from social and legal environment in the space of human settlement.

The following are some of the strategies to put in place to address the identified weaknesses and emerging trends. However, these strategies will be assessed during our Departmental strategic session taking into consideration the analysis and results emanating from PESTEL analysis.

- Upgrading of Informal Settlements Strategy to assist in unblocking the bulk infrastructure challenges faced by the department in various regions where the informal settlements are located which will also assist other housing developments initiatives.
- Progressive adoption of Innovative and Sustainable Building Technologies (ISBT) in the delivery of houses.
- Forge partnerships and Collaborations with external Stakeholders.in the provision of integrated sustainable Human Settlements to the poor and destitute families of our province.
- Empower municipalities to execute Human Settlements programmes effectively through learning programmes in partnership with institution of higher Learning.
- Continuous reviewal of policies and procedures to accommodate new emerging trends that has direct or indirect impact on service delivery.
- To strengthen the existing empowerment opportunities (Youth build programme, Artisan development, EPWP) specifically for youth, women and people with disabilities
- Continuous reviewal of policies and procedures to accommodate new emerging trends that has direct or indirect impact on service delivery.
- To strengthen the existing empowerment opportunities (Youth build programme, Artisan development, EPWP) specifically for youth, women and people with disabilities

8.2.12 Departmental Evaluation Studies and research

The Policy Framework for the Government-Wide Monitoring and Evaluation System (GWMES) that was approved by Cabinet in 2005 describes three “data terrains” underpin the monitoring and evaluation system, namely, programme performance information; social, economic and demographic statistics; and evaluation. National Treasury developed a Framework for Programme Performance Information, and Statistics South Africa also developed the South African Statistics Quality Framework (SASQAF). In 2021, National Evaluation Policy Framework (NEPF) was developed by DPME as the last policy to respond to the three data terrain mentioned above with an intention to inculcate the culture of evaluations in Government widely and the framework was later revised in 2019 to include lessons learnt throughout the implementation of the framework.

The Department therefore started the process of implementing the National Evaluation Policy Framework and will continue to conduct evaluations that will assist the department to improve its performance, share findings and recommendations to promote transparency and accountability. During the Mid-Term Development Plan 2025-2030, the department will priorities evaluations that will align to the Provincial and Departmental priorities for the 7th Administration as well as areas of collaboration between the Department and Eastern Cape Department of Public Works and Infrastructure. These evaluations will be conducted in-house and will include implementation evaluation of the title deeds; design evaluation of the transformation of local Buildings Material Manufactures and Suppliers; implementation evaluation of the Finance Linked Individuals Subsidy Programme (First Home Finance); design evaluation of devolution of state-owned properties and implementation evaluation of the informal settlements upgrading programme. The department is currently finalising the research agenda to ensure that the set departmental priorities are evidence based and this will be included in the next Strategic Plan.

DEPARTMENTAL RESOURCES CONSIDERATIONS

EXPENDITURE ESTIMATES

Table 1: Summary of payments and estimates by programme

R thousand	Outcome		Main appropriation	Adjusted appropriation 2024/25	Revised estimate	Medium-term estimates			% change from 2024/25
	2021/22	2022/23	2023/24			2025/26	2026/27	2027/28	
Administration	151 712	184 441	171 547	212 271	218 796	189 561	181 453	189 615	(13,4)

Tables 1 and 2 above provide a summary of payments and estimates by programme and economic classification over the 2025 MTEF. Expenditure decreases from R2.545 billion in 2021/22 to a revised estimate of R2.398 billion in 2024/25. The bulk of the expenditure is allocated to the Human Settlements Development Grant (HSDG) and the Informal Settlements Upgrading Programme Grant (ISUPG), which together account for approximately 78.6 per cent of the department's budget. Overall, the budget is projected to decrease by 1.2 per cent, from a revised estimate of R2.398 billion in 2024/25 to R2.370 billion in 2025/26.

Compensation of Employees increases by 3.5 per cent from a revised estimate of R397.432 million in 2024/25 to R411.353 million 2025/26 due to additional funding allocated for the 2025 wage agreement. Goods and services expenditure is expected to decrease by 24.7 per cent, from a revised estimate of R85.003 million in 2024/25 to R63.981 million in 2025/26. This budget is primarily driven by contractual obligations, an EPWP grant aimed at strengthening existing empowerment initiatives for youth, women, and people with disabilities, as well as expenses related to monitoring ongoing departmental projects and funding provincial priorities.

The main cost driver in the department's budget is transfers and subsidies, which decreased by 0.2 per cent, from a revised estimate of R1.886 billion in 2024/25 to R1.882 billion in the 2025/26 financial year. The budget is largely driven by the department's core business, which includes:

- Provision of housing opportunities and assistance, prioritizing the Destitute, Vulnerable Groups, Military Veterans and GBVF victims
- Empowerment Opportunities, Skills Development and Job Creation for Micro Small and Medium Enterprise (MSME) including designated groups
- Progressive adoption of Innovative and Sustainable Building Technologies (ISBT)
- Enhance partnerships and collaborations with Strategic partners in Mobilising Human Settlements Investments in transformation of the sector
- Transformation of local Buildings Material Manufactures and Suppliers
- Unlocking of land assembly and bulk infrastructure in collaboration with relevant partners
- Upgrading of informal settlements and provision of social and economic amenities
- Municipal Support and Accreditation Programme
- Accelerated Registration and Issuance of Title Deeds to Homeowners
- Strengthening Consumer Education and Community Interventions
- Prioritise Human Settlements delivery to declared Priority Human Settlements Development Areas (PHSDA's)
- The improvement of the functionality of the department for improved service delivery outcomes

Payments for capital assets are expected to decrease by 56.4 per cent, from a revised estimate of R29.381 million in 2024/25 to R12.800 million in 2025/26. Capital expenditure (CAPEX) is mainly driven by contractual obligations, including fleet rentals, cell phone rentals, and the upgrading of ICT infrastructure

Explanation of planned performance over the medium-term period

The programme “Administration” supports the entire Department to implement the mandate of Human Settlements which will ultimately improve quality of household lives. The choice of identification of outputs indicators is derived from the mandate of the Department, MEC policy Speech, key outputs identified by the key nine integration programmes.

The advent of the 7th Term of Administration has provided an opportunity for introspection and revisiting existing strategies for optimal service delivery. It is significant that the vision and mission of the Department has remained consistent during the finalisation of this Strategic Plan and this provided for the continued seamless implementation of the previously adopted Departmental Turnaround Plan, which remains fully relevant. In addition, the new location of both the Departments of Human Settlements; and Public Works and Infrastructure under one Ministry has provided unique new opportunities for both Departments to strengthen implementation capacity.

The Department entered the 7th Term of Administration fully prepared with an approved MTEF Human Resources Plan which anticipated the required responses to the complex challenges which the Department is expected to face during the new term. The Department has not been exempted from the shrinking fiscus and accompanying shrinking resource base within the Public Service in general. The hard reality is that interventions which would have worked just a few years ago may not yield similar success under the current circumstances. The Department has therefore identified potential solutions for this scenario through the adoption of a revised service delivery model which will find further expression through the review of the organogramme early in the new term. The Departmental organisational development processes seek to address the ongoing need for renewal in order to build a Human Settlements Department which is able to provide quality, integrated and sustainable human settlements to our communities. The Departmental leadership is fully committed to steer the course towards positive culture change whilst ensuring inclusivity and full ownership of the process across the Department.

In terms of organisational architecture, the Service Delivery Model (SDM) was approved at the beginning of the term. The SDM was confirmed as appropriate during the subsequent strategic planning processes and will improve the way the Department works through decentralization and automation of business processes. The Organogram will therefore be reviewed for the purpose of alignment with the SDM for improvement of service delivery. It is envisaged that the design and approval of the organogramme should be finalised together with the necessary implementation measures to ensure actual implementation thereof during the 2026/2027 financial year. The organogramme must provide for optimal resourcing as close as possible to the coalface of service delivery which is represented by the District Offices. Provision must be made for the evolution of the mandate of the Department to strengthen the sector by ensuring the appropriate accreditation of relevant functions at Municipal level.

The Department will retain and enhance its relevance through providing the required leadership and monitoring during this process.

Good governance is the main outcome driver across all programmes although it cuts across all programmes in the department to strengthen the governance arrangements of the department to ensure provision of the strategic direction and leadership to support the core programmes to deliver the mandate of Human Settlements. Throughout the strategy cycle, the department has taken governance and systems of accountability very seriously, both as a means of strengthening its internal control mechanisms and ensuring accountability to citizens and oversight bodies. Engagement and reporting to oversight bodies such as the Audit Committee, Risk and Ethics Management Committee, ICT

Governance Committee, Portfolio Committee and SCOPA has improved tremendously and is yielding the desired result. The improvement in the management of the department is evidence of the scrutiny and support provided by these institutions. Strategies are based on the Eastern Cape Provincial Development Plan as well as directed by the leadership of the Ministry of the Public Service through legislations, regulations and directives. The strength of the chosen outcome “Enhanced governance for service delivery efficiency” is derived from identified priorities “Building a Capable, ethical and development state”

The narrative on human capacity within the Public Service is incomplete without reflecting on the implementation of the National Framework on the Professionalisation of the Public Sector. The Framework espouses five pillars in the value chain for the professionalisation of the public sector, namely:

- vi. Recruitment and Selection
- vii. Induction and Onboarding
- viii. Planning and Performance Management
- ix. Continuing Learning and Professional Development
- x. Career Progression, Succession Planning and Management of Career Incidence of Heads of Department

Although all the above are familiar elements, the Framework strengthens the foundation for building human capacity by refining and enhancing the elements. The Department has embraced the implementation of the Framework and will at all times ensure adherence to the Directives issued in relation to the Framework.

As part of facilitating improvement of human capacity, the Department will continue to utilise the Skills Levy budget to train the employees on short courses that are service delivery related and provide bursaries for the development of long term knowledge and competencies. In collaboration with the Construction Seta the Department is in the process of assisting technical employees to register with their professional Council.

Through the National School of Governance, the department provided training on Breaking Barriers to Entry into Public Service (BB2E). The programme equips young graduates with knowledge, skills, and values pertaining to the overall context of government, Batho Pele, readiness for employment and workplace etiquette.

The Department's ultimate impact is to create sustainable human settlements and improved quality living environment through spatial integration. The Eastern Cape provincial government is responding to the following MTDP strategic priority areas:

- Driving inclusive growth and job creation
- Reducing poverty and tackle the high cost of living
- Building a capable, ethical and development state

These priorities anchor the Medium-Term Development Plan (2024-2029), guiding our effort over the next five years. The programme is mainly guided by the legislative Frameworks. Below are some of the frameworks among others,

- Monitoring and Evaluation Frameworks, Framework
- Revised framework for Strategic Plans and Annual Performance Plan, 2019
- Human Resource Planning guidelines and toolkit
- Public Service Commission Toolkit on Recruitment and Selection
- Management Performance Assessment Tool
- Public Service regulations 2016 and
- Public service Act 1994
- Employee health and wellness strategic framework of 2019
- HIV and AIDS/STID and TB Management policy
- Health and productivity management policy for Public Service
- Wellness Management policy
- Labour Relations Act
- Human Resource Development Strategy

The programme will continue to support the core programmes and ensure that they have the capable human and financial resource to deliver services to the people of the Eastern Cape.

The programme will continue to support the core programmes and ensure that they have the capable human and financial resource to deliver services to the people of the Eastern Cape.

Tables 3 and 4 above show the departmental payments and expenditure estimates by sub-programme and economic classification. Total expenditure increased from R151.712 million in 2021/22 to a revised estimate of R218.796 million in 2024/25. However, the budget is projected to decrease by 13.4 per cent, from the revised estimate of R218.796 million in 2024/25 to R189.561 million in 2025/26. Compensation of Employees is the primary cost driver of the programme's budget, with a projected increase of 1.7 per cent from a revised estimate of R130.116 million in 2024/25 to R132.375 million in 2025/26 due to additional funding allocated for the wage agreement. Expenditure on Goods and Services increased from R27.910 million in 2021/22 to a revised estimate of R58.989 million in 2024/25. However, the estimated budget is expected to decrease by 25.3 per cent between 2024/25 and 2025/26. Goods and services expenditure is primarily driven by contractual obligations and the administrative support required for core programmes that implement the department's mandate. The decrease is due to the implementation of the broadband cuts. Payments for Capital Assets are expected to decrease by 56.4 per cent, from a revised estimate of R29.381 million to R12.800 million. Capital expenditure (CAPEX) is primarily driven by contractual obligations, including fleet rentals, departmental cell phone rentals, and the upgrading of ICT infrastructure.

ANNUAL PERFORMANCE PLAN 2025/26

HUMAN SETTLEMENTS DELIVERY PLANNING AND PERFORMANCE

Province of the
EASTERN CAPE
HUMAN SETTLEMENTS

PROGRAMME 2: HUMAN SETTLEMENTS DELIVERY PLANNING AND PERFORMANCE

Purpose: To manage Human Settlements Planning and Performance Management

The programme consists of three (3) sub-programmes, namely:

Human Settlements Research and Policy Development: To manage Human Settlements Research and the Development of policies.
Human Settlements Delivery Planning: To manage, Review and Develop Integrated Human Settlements Plans
Capacity Building and Municipal Support: To Capacitate and Support Municipalities with regard to Human Settlements Development

2.1 HUMAN SETTLEMENTS RESEARCH AND POLICY DEVELOPMENT

Explanation of planned performance over the medium-term period

It is evident that the main contributor to the NDP Plan in the context of the Department is the MYHSDP which presents a Provincial basket of Human Settlements projects that prioritizes a 5 Year horizon which in essence comprises the MTEF period plus two outer years. These projects are equitably distributed through various Districts and Metros that constitute the province, the main emphasis being integration of infrastructure and provision of social amenities to ensure viability of beneficiary communities. The MYHSDP reflects show much funding that is required per each District and Metro for infrastructure provision thus ideally assist the Department to ascertain how much funding would be required for the desired Human Settlements projects.

The main reasons choosing a Plethora of Integrated Human Settlements Plans (ie. 20 Year Human Settlements Master Plan, MYHSDP, HSPs and Cond Grant Business Plan) were that it is fundamental that the Department should have a long-term futuristic plan (20 Year Plan) that would deal with the imperatives of the NDP extensively relating the sustainable creation of integrated human settlements, thus the long-term plan would be augmented by the MYHSDP that would put quantities on the 20-year narrative on a 5-year interval. The Municipal Housing Sector Plans have to dovetail to the MYHSDP therefore giving a 5-year horizon picture of each municipality on a district basis. Another critical Plan that responds to the MTEF period which is the Cond Grant Business Plan allocates financial resources amongst the various Districts and Metros for the implementation of those prioritized Human Settlements projects that have been planned based on a determined state-of-readiness on a 3-year basis to guarantee the implementability of desired Human Settlements projects. As the Department plays a center role in the development of sustainable Human Settlements the Directorate of Human Settlements Planning has a responsibility of setting the tone for developing a plethora of multi-year Human Settlements that give direction for the next 3years to 5years for the desired delivery based on ascertained state of readiness to avoid the latter being blocked and/or stalled. Secondly, Human Settlements Planning plays a pivotal role in determining targets for the MTDP period for the Department that would to a large extent enable the reconfiguration of spatial space thus advance the creation of sustainable Human Settlements that are augmented required social and economic facilities to steer the required viability of beneficiary communities.

The recent introduction of the 20-year Human Settlements Master Plan by Human Settlements Planning is an attempt by the Department to accommodate the national and provincial paradigm shifts and futuristic imperatives. The Department is not immune from advancing the emancipation of specific vulnerable groups namely women, youth, disabled, destitute and military veterans in its delivery chain thus Human Settlements Planning has to influence the Department's Programmes as they develop their various Human Settlements delivery plans to set targets for the achievement of advancement of these vulnerable groups. Several prioritized Development Areas for mixed development have been identified in the province thus the Human Settlements Planning has to augment the technical capacity of beneficiary Municipalities to develop the required Development Plans that advanced mixed and integrated development of a given area compassed around economic growth. Secondly, the five-year Human Settlements multi-year plan is still to be finalised to enable the department conglomerate and mobilize Human Settlements projects that will transform the spatial space and ultimately create stability and security for the poor and destitute masses over a determined 5-year interval. A total of 5 423 housing opportunities are created and 5 593 serviced sites are provided by the Department to advance security of tenure and mitigate poverty in the province through homeownership.

In terms of municipal support, the Department will continue to capacitate municipalities with technical support, which will assist municipalities to produce credible integrated development plans (IDP's), of which the priority housing development areas are included. An appropriate portion of the National Fiscus, Accreditation Grant will be utilized to capacitate the two Metros, the six District Municipality as well as all the Local Municipalities on Human Settlements Programs. The target audience will be Councillors, Traditional Leaders and Municipal officials. The rational for capacity building is to expose them to Human Settlements Programs so that they can play their oversight role. Linked to this program, will be the deployment of Hands-on Support Team to Municipalities so that they can play support role between the Department, the Municipalities and Communities. The Department will continue supporting the Municipalities on the establishment of National Housing Needs Register. It is critical that the Provincial Housing Demand should be known so that the Department can plan accordingly. Over and above, the Department will be training Beneficiary Allocations Committees in order to ensure that we allocate housing opportunities utilizing the Housing Needs Register. This will buy and large eliminate corruption at Municipal level where most Municipalities are still using Waiting Lists. We will continue with the Accreditation Program. Over the MTDP, we will be accrediting Municipalities to level 1 or 2 and most Municipalities where capacity assessments have been done will be given Developer status.

The programme has also identified outputs for Human Settlements Research Projects and Human Settlements Policies to cover the MTEF period to ensure the delivery of evidence-based policy, planning and delivery outcomes. The outputs are aligned to the departmental priorities MTDP that are aligned to the Departmental Vision to ultimately contribute to the department realizing its impact. The Planned Research Projects are informed by the Provincial Multi-Year Strategic Human Settlements Research Agenda and aligned to the Strategic priorities of the Department. For the effective achievement and the implementation of Human Settlements Research Agenda, the Department has entered into a formal agreement in a form of Memoranda of Understanding with Institutions of Higher Learning to assist in rolling out of the Research Agenda. The programme will strive to ensure that the findings and recommendations of research studies are used to support the development of evidence-based Human Settlements policies, plans, and enhance decision-making on service delivery options.

Tables 5 and 6 above show the departmental payments and expenditure estimates by sub-programme and economic classification. Total expenditure increased from R19.808 million in 2021/22 to a revised estimate of R19.854 million in 2024/25. However, the budget is projected to decrease by 5.1 per cent, from the revised estimate of R19.854 million in 2024/25 to R18.849 million in 2025/26.

Compensation of Employees is the primary cost driver of the programme's budget, with a projected decrease of 2.1 per cent from a revised estimate of R18.339 million in 2024/25 to R17.949 million in 2025/26.

Expenditure on Goods and Services is projected to decrease from a revised estimate of R1.498 million in 2024/25 to R900 thousand in 2025/26, reflecting a 39.9 per cent reduction. This expenditure is primarily driven by activities related to planning and performance management.

HUMAN SETTLEMENTS

PROGRAMME 3: HOUSING DEVELOPMENT

The programme consists of three (3) Programmes namely:

- 3.1 HUMAN SETTLEMENTS FACILITATION PROGRAMME
- 3.2 HUMAN SETTLEMENTS INCREMENTAL PROGRAMME
- 3.3 DISTRICTS COORDINATION AND PROJECT MANAGEMENT

3.1 HUMAN SETTLEMENTS FACILITATION PROGRAMME

Purpose: To manage effective and efficient Human Settlements facilitation programme

The programme consists of three (3) Sub-programmes namely:

Beneficiary Management: To administer Beneficiary Management and Corporate Secretariat Services
Social Facilitation and Customer Care: To provide social facilitation and customer care to Human Settlements beneficiaries.
Emerging Contractor Development: To provide support services to emerging contractor's development.

3.1.1. BENEFICIARY MANAGEMENT

Outcomes, Outputs, Performance Indicators and Targets

Outcome	Outputs	Output Indicators	Annual Targets Audited/Actual performance				Estimated performance	MTDP Period			
			2020-21	2021-22	2022-23	2023-24		2025-26	2026-27	2027-28

3.2 HUMAN SETTLEMENTS INCREMENTAL PROGRAMME

Purposes: To manage effective and efficient Human Settlements programmes

The programme consists of three (3) Sub-programme namely:

Emergency Housing and EPHP: To facilitate emergency housing and EPHP.

Informal Settlements Upgrading: To provide informal settlements and upgrading services.

Destitute & Vulnerable groups and SPU: To facilitate housing opportunities for the destitute and vulnerable groups.

3.2.1 EMERGENCY HOUSING AND EPHP

Outcomes, Outputs, Performance Indicators and Targets

3.3 DISTRICT COORDINATION AND PROJECT MANAGEMENT (BUDGET FOR SOCIAL AND RENTAL HOUSING IS INCLUDED)

Purpose: To manage and oversee an effective and efficient district coordination and project management

The programme consists of two (2) Sub-programmes namely.

District Support: Rendering of strategic coordination and facilitation on the functioning districts offices.

Project Management Unit: To provide project management technical support services.

3.3.1 DISTRICTS SUPPORT

Outcomes, Outputs, Performance Indicators and Targets

Outcome	Outputs	Output Indicators	Annual Targets					Estimated performance				MTDP Period

Explanation of planned performance over the medium-term period

The Department will conduct proper social facilitation in all our running projects, to improve compliance and adherence to EPWP recruitment guidelines. Facilitate to curb dominance of Foreign Labourers from projects that causes under reporting of EPWP. The Department will set aside 40% of its allocated conditional grants for designated groups contractors. Address the issue of 40% set aside through project packaging and support local economic development. The Department will leverage in the already existing SMME development programme from the Department of Public Works and provide work opportunities through the Framework Agreement for Small Medium and Macro Enterprises. The Department will influence the purchase of material locally through appointed contractors by the department. ISBT will be utilized to address bulk infrastructure challenges and construct houses that can respond to climate changes.

The Departmental incentive grant will increase to empower youth. The Department is concluding the partnership with Department of Land Reform and Rural Development to develop skills for youth and unemployed graduates through National Rural Youth Service Corps (NARYSEC). The military veterans will be prioritized in the current running projects. The Department will focus on provision of permanent houses to those recipients who have received temporary shelters and continue to assist the destitute families with temporary shelters. The Department will strengthen the DDM model by using national, provincial and municipal grants to achieve an upgrading of informal settlements. The Department is focusing on using the Framework Agreement for appointment and replacement of contractor/PSPs to effectively turn around service delivery and deliver within allocated budget. The recent introduction of the 20-year Human Settlements Master Plan by Human Settlements Planning is an attempt by the Department to accommodate the national and provincial paradigm shifts and futuristic imperatives. The Department is not immune from advancing the emancipation of specific vulnerable groups namely women, youth, disabled, destitute and military

veterans in its delivery chain thus Human Settlements Planning has to influence the Department's Programmes as they develop their various Human Settlements delivery plans to set targets for the achievement of advancement of these vulnerable groups. Several prioritized Development Areas for mixed development has been identified in the province thus the Human Settlements Planning has to augment the technical capacity of beneficiary Municipalities to develop the required Development Plans that advanced mixed and integrated development of a given area compassed around economic growth. Secondly, the five-year Human Settlements multi-year plan is still to be finalised to enable the department conglomerate and mobilize Human Settlements projects that will transform the spatial space and ultimately create stability and security for the poor and destitute masses over a determined 5year interval. A total of 5 423 housing opportunities are created and 5 593 serviced sites are provided by the Department to advance security of tenure and mitigate poverty in the province thru homeownership.

In terms of municipal support, the Department will continue to capacitate municipalities with technical support, which will assist municipalities to produce credible integrated development plans (IDP's), of which the priority housing development areas are included. An appropriate portion of the National Fiscus, Accreditation Grant will be utilized to capacitate the two Metros, the six District Municipality as well as all the Local Municipalities on Human Settlements Programs. The target audience will be Councillors, Traditional Leaders and Municipal officials. The rational for capacity building is to expose them on Human Settlements Programs so that they can play their oversight role. Linked to this program, will be the deployment of Hands-on Support Team to Municipalities so that they can play support role between the Department, the Municipalities and Communities. The Department will continue with supporting the Municipalities on the establishment of National Housing Needs Register. It is critical that the Provincial Housing Demand should be known so that the Department can plan accordingly. Over and above, the Department will be training Beneficiary Allocations Committees in order to ensure that we allocate housing opportunities utilizing the Housing Needs Register. This will buy and large eliminate corruption at Municipal level where most Municipalities are still using Waiting Lists. We will continue with the Accreditation Program. Over the MTDP, we will be accrediting Municipalities to level 1 or 2 and most Municipalities where capacity assessments have been done, will be given Developer status.

The programme has also identified outputs for Human Settlements Research Projects and Human Settlements Policies to cover the MTEF period to ensure the delivery of evidence-based policy, planning and delivery outcomes. The outputs are aligned to the departmental priorities MTDP that are aligned to the Departmental Vision to ultimately contribute to the department realizing its impact. The Planned Research Projects are informed by the Provincial Multi-Year Strategic Human Settlements Research Agenda and aligned to the Strategic priorities of the Department. For the effective achievement and the implementation of Human Settlements Research Agenda, the Department has entered into a formal agreement in a form of Memoranda of Understanding with Institutions of Higher Learning to assist in rolling out of the Research Agenda. The programme will strive to ensure that the findings and recommendations of research studies are used to support the development of evidence-based Human Settlements policies, plans, and enhance decision-making on service delivery options

Tables 7 and 8 above show departmental payments and expenditure estimates by sub-programme and economic classification. Expenditure in the 2021/22 financial year decreased from R2.357 billion to a revised estimate of R2.137 billion for the 2024/25 financial year. The programme's budget has increased by 0.1 per cent, from a revised estimate of R2.137 billion in 2024/25 to R2.138 billion in the 2025/26 financial year. Compensation of Employees is projected to increase by 4.6 per cent, from a revised estimate of R228.347 million in 2024/25 to R238.923 million in 2025/26. Expenditure on Goods and Services decreased from a revised estimate of R23.536 million in 2024/25 to an allocation of R17.779 million in 2025/26. This expenditure is primarily driven by activities related to project execution and oversight. Expenditure on Households is projected to decrease by 0.2 per cent in R1.884 billion in 2024/25 to R1.881 billion in 2025/26. This item mainly comprises the Human Settlements Development Grant (HSDG) and the Informal Settlements Upgrading Partnership Grant (ISUPG), which are central to the department's core mandate of creating sustainable and integrated human settlements, as well as facilitating a programmatic and inclusive approach to upgrading informal settlements.

ANNUAL PERFORMANCE PLAN 2025/26

programme

**HUMAN SETTLEMENTS
PROPERTY AND ASSETS**

Province of the
EASTERN CAPE
HUMAN SETTLEMENTS

PROGRAMME 4: HUMAN SETTLEMENTS PROPERTY AND ASSETS MANAGEMENT

Purpose: To oversee efficient and effective management of Human Settlements properties and assets.

The programme consists of two (3) Sub-programmes namely:

Sales, Transfers and Assets: To manage Housing Sales and transfer of Assets

Land Acquisition and Tenure services: To facilitate and co-ordinate land acquisition & tenure services

Social and Rental Housing: To facilitate and co-ordinate the implementation of the social and rental housing

4.1. SALES, TRANSFERS AND ASSETS

Outputs, Performance Indicators and Targets

Outcome		Outputs	Output Indicators	Annual Targets					MTDP Period		
				Audited/Actual performance			Estimated performance				
				2020-21	2021-22	2022-23	2023-24	2024-25	2025-26	2026-27	2027-28

Explanation of planned performance over the medium-term period

The programme is aligned to the MEC priorities for 2025/26 and provincial Development plan vision 2030. The identification of programme outputs emanates from the conditions provided for in the Conditional Grant Business and is aligned to National MTDP 2024-2029. The programme focuses on provision of secure land tenure rights in free and affordable home ownership, safe, secure, and issuance of title deeds. This is in line with the MTDP priorities which aim on provision secure land tenure rights, and rental opportunities for improvement in quality of living and the PDP focus area which is looking at Registration and issuance of title deeds. The province is faced with title deed backlog of over 50 000 especially Post 2014. This has been compounded by numerous historical pre-conveyancing challenges at most of the municipalities in the province. In the financial year 2025/26, the Department will register 2100 title deeds for the following categories (Pre-1994 and Post 2014). The department is addressing Pre-Conveyancing activities which includes Township Establishment, Lapsed General Plans, Opening of Township Register and lapsed consents remain a challenge that contributes to delays for transfers as this is the mandate of Municipalities and the Programme is often assisted by region to fulfil these planning items.

The Department is encouraging municipalities to allocate serviced sites to approved beneficiaries and will strive to ensure that beneficiaries are provided with title deeds prior to construction of houses. The municipalities are also encouraged to register pre-1994 sites with or without houses, not yet transferred to beneficiaries for provision of title deeds. This will assist in addressing the perennial challenge of illegal occupation. The rationale for choosing the outcome indicators for the programme is to ensure that the PDP and the MTDP priorities are achieved. The department has appointed Conveyancers in various local Municipalities to accelerate the registration.

The department has been granted exemption by National Department of Human Settlements not to report on social housing unit during financial year 2025/26. In the financial year, the programme will continue monitoring the implementation of running projects and ensure the seatings of Project Steering Committee to ensure that the programme deliver to 5-year targets in the Strategic Plan, PMDP and MTDP. The department will also have seatings for Project Steering Committee for social housing a means to endorse Social Housing projects that are ready for implementation.

The First Home Finance provides affordable first-time home-ownership opportunities to the gap market who generally find it hard to qualify for housing finance. The number of households who will be assisted to purchase residential properties through First Home Finance. There are enablers that assist the programme to drive the processes such as: First Home Finance Subsidies, EEDBS implement action Policies, Rental Housing Tribunal, Social Housing Regulatory Authority.

Tables 9 and 10 above show departmental payments and expenditure estimates by sub-programme and economic classification. Expenditure in the 2021/22 financial year increased from R16,494 million to a revised estimate of R22,690 million for the 2024/25 financial year. The programme's budget is projected to increase by 3.7 per cent, from a revised estimate of R22,690 million in 2024/25 to R23,533 million in 2025/26. The budget for Compensation of Employees is set to increase by 7.2 per cent in 2025/26.

Expenditure on Goods and Services increased from a revised estimate of R980 thousand in 2024/25 to R1,230 million in 2025/26. This expenditure is primarily driven by activities related to housing sales and asset transfers, coordination of land acquisition and tenure services, and the implementation of social and rental housing projects. The programme's estimated budget increased by 3.7 per cent from 2024/25 to 2025/26

UPDATE KEY RISKS

Outcome	Key Risk	Risk Mitigation
Enhanced governance for service delivery efficiency	Inability to develop and maintain socially cohesive and economically viable communities.	- Review of the organogram to align with the Service Delivery Model - Implementation of the Social Facilitation Strategy - Implementation of Framework Agreement to replace terminated PSPs and contactors timeously to avoid projects being blocked - Implementation of Electronic Construction Management System - Appointment of a panel of armed security companies to escort departmental employees to sites - Utilisation of private vehicles by staff for site visits - Implementation of Project Management Manual
Enhanced governance for service delivery efficiency	Inability to meet current and future financial obligations	- Effective project performance monitoring and Enforcement of contractual terms (over and underperforming contractors) - Termination of non-performing contractors and closure of completed projects - Spreading out of the project scope over three years - Implementation of Departmental Project Management Manual
Enhanced governance for service delivery efficiency	Disruption of operations and service delivery	- Development and maintenance of Enterprise Wide Business Continuity plan - Implementation of Social Facilitation Strategy - Implementation of Departmental Security Management Policy/Protocols - Appointment of a panel of armed security companies to escort departmental employees to sites - Utilisation of private vehicles by staff for site visits
	Fraud and Corruption	- Develop Ethics Management Implementation Plan as per the Guide from DPSA - Review Investigation Methodology - Conduct Awareness sessions on Ethics and Anti-corruption to officials of the department - Maintain Departmental Fraud Risk Register - Report on the implementation of the Standard operating procedures review plan
Enhanced governance for service delivery efficiency	Litigation	- Revision of litigation policy to talk to enterprise wide litigations - Quarterly reporting on the adherence of contractual terms
Enhanced governance for service delivery efficiency	Inadequate departmental support to embrace corporate governance of ICT, innovation and digitalisation for achievement of departmental objectives	- Implementation of ICT digital strategy 2025/26 initiatives. - Implementation of Information Systems Security Plan. - Implementation of ICT Project Management framework. - Review of the organogram to align with the Service Delivery Model
Integrated spatial development through evidence-driven planning aligned with DDM frameworks	Inadequate evidence driven spatial development planning	- Strengthen participation in the Provincial Social Transformation and Infrastructure clusters - Implementation of revised Municipal Accreditation Framework to other municipalities - Participate in the review process of sector plans by Municipalities to ensure alignment
Socially cohesive and economically viable communities with access to basic services, housing, and economic opportunities	Inadequate provision of houses to Military Veterans and Destitute Persons.	- Engage Military Veterans to accommodate them on running projects or alternative sites - Continuous awareness and engagements with Municipalities, Communities, Department of Military Veterans and Provincial Steering Committee for Military Veterans to address challenges pertaining to provision of houses to Military Veterans - Implementation of Policy for destitute and vulnerable groups - Implementation of Military Veterans policy

Outcome	Key Risk	Risk Mitigation
Improved tenure security and expanded access to affordable housing through innovative funding models and partnerships	Inadequate access to affordable housing and tenure security	• Development of Service Level Agreement between regions and the programme to ensure access to funding dedicated to title deeds • Submission for funds to be ringfenced for title deeds issuance. • Provide inputs for the review of the 20-year Master Plan to ensure alignment

The department continues to participate in all intergovernmental and DDM forums to ensure that there is integration in human settlements development. The department continues to engage sector departments within sustainable livelihoods to partner with the department in addressing the plight of the destitute and vulnerable households. Projects that are contributing towards DDM can be referenced from the Annexure D: Infrastructure Projects that are already part of the APP 2024/25 financial year.

PUBLIC-PRIVATE PARTNERSHIP

PPP	Purpose	Output	Current Value of Agreement	End Date of Agreement (Year)
Nelson Mandela University	Support the Department in creation of an integrated, functional and sustainable human settlements within the Province and assist the Department in developing and reviewing evidence based Human Settlement's policies.	Provide Capacity Building and Training Programmes for employee's cooperative enterprise, rural and urban development In concrete Research Study, Finding and recommendations to be Used during planning processes of the department	The value of the agreement is only determined when the project is initiated.	2025

TECHNICAL INDICATOR DESCRIPTIONS (TIDs)

Transforming communities together

PART D: TECHNICAL INDICATOR DESCRIPTIONS (TIDs)

PROGRAMME 1: ADMINISTRATION

Programme Performance Indicator 1.1

Indicator title	Number of Human Resource Plan Priorities Implemented
Definition	Indicator refers to implementation of Human Resource Plan priorities to ensure that the department has the 'right people, with right skills, at the right place and at the right time. Human Resource Plan priorities are implemented by the respective sub directorate and achievement thereof through implementation report. The 5 priorities include the following: • Review of the Departmental Organogram • Attraction and retention of designated groups as per employment equity targets • Training and development of employees • Management of health and productivity of employees • Management of employment Relations
Source of data	Departmental Strategic Plan, Employment Equity Plan, PERSAL Database, Recruitment and Retention Strategy, Annual Recruitment Plan, Employee Health and Wellness Integrated Programme, Workplace skills Plan, Human Resource Plan and guidelines
Method of calculation or assessment	Simple count the priorities in the Human Resource Plan Implementation Report (The same HRP Priorities will be reported during the reporting period)
Means of verification	Human Resource Plan Implementation Report (HRPIR) approved by MEC or Delegated official
Assumptions	Effective and Efficient Human Resources, Compensation of Employees Budget, Organisational Structure approved, Human Resource Plan approved and Skills levy budget
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Non-cumulative
Reporting cycle	Quarterly
Desired performance	5 HRP Priorities implemented
Indicator responsibility	Director, Human Resources Management: Ms N Jafta

Programme Performance Indicator 1.2

Indicator title	Percentage of invoices paid within 30 days from date of invoice receipt
Definition	The indicator measures the percentage of valid invoices received by Financial Accounting services and paid within 30 days as prescribed in the PFMA as well a paragraph 8.2.3 of the Treasury Regulations.
Source of data	Supplier invoices, supplier statements, invoice register, BAS reports.
Method of calculation or assessment	The calculation is based on the total number of valid invoices received and paid within 30 days divided by the total number of received invoices multiplied by 100. The calculation is from the date of receipt of invoice until the date of payment.
Means of verification	Report listing number of invoices paid within 30 days against valid invoices received
Assumptions	Valid invoices and supporting source documents from the suppliers and end users, availability of budget and functionality of BAS and LOGIS
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Non-Accumulative
Reporting cycle	Quarterly
Desired performance	100% of valid invoices paid within 30 (days) from date of invoice receipt
Indicator responsibility	Director, Financial Accounting Services: Ms N Chigume

Programme Performance Indicator 1.3

Indicator title	Number of internal audits conducted
Definition	An internal audit refers to an assurance or consulting audit undertaken by an internal audit team or member. An internal audit is conducted when there is a report or documentation indicating the output of the internal audit.
Source of data	Internal audit plan and internal audit reports, risk registers
Method of calculation or assessment	Count the internal audits conducted.
Means of verification	Internal audit reports
Assumptions	Non limitation of audit scope
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	10 internal audits conducted
Indicator responsibility	Director, Internal Audit: Mr S Ntisana

Programme Performance Indicator 1.4

Indicator title	Number of Corporate Governance of ICT elements implemented
Definition	This refers to the implementation of Corporate Governance of Information Communication Technology (ICT) Policy Framework (CGICTPF), which consists of a governance system that depicts the way departmental ICT is managed and controlled in the Department. The CGICTPF includes the following elements: • Risk Management • Audit Intervention Plan (IS Audit) • ICT Governance/ Steering committee meetings and • IT planning
Source of data	Corporate Governance of Information Communication Technology (ICT) Policy Framework, ICT Risk Registers (including Strategic Risks and Operational Risks) and ICT Audit Intervention Plan quarterly reports
Method of calculation or assessment	Count the Corporate Governance of ICT elements implemented
Means of verification	Signed ICT Governance implementation reports
Assumptions	Availability of key departmental stakeholders for ICT Steering Committee and Top Management support
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	Not applicable
Calculation type	Cumulative (year-end)
Reporting cycle	Quarterly
Desired performance	4 Corporate Governance of ICT elements implemented
Indicator responsibility	Director, Government Information and Communication Technology Management: Mr B Skweyiya

Programme Performance Indicator 1.5

Indicator title	Number of Intergovernmental relations (IGR) programmes supported
Definition	Indicator refers to coordinating the participation of the department in IGR forums and meetings coordinated by Provincial government, Districts municipalities and local municipalities. The three programmes that will be supported are: 1. Local Municipality IGR Forums; 2. District and Metro Municipality IGR Forums 3. Provincial IGR Forum Intergovernmental Relations programmes are supported when the department participates in municipal and sector department planning, integrated government programmes and oversight programmes.
Source of data	Intergovernmental Relations Framework Act, COGTA and OTP Strategic Calendar; Invitations from Municipalities
Method of calculation or assessment	Simple count IGR programmes supported
Means of verification	Signed report indicating IGR programmes supported and attendance register
Assumptions	Active participation of internal and external stakeholders in IGR forums Invitations from Municipalities, COGTA and Office of the Premier
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Non-cumulative
Reporting cycle	Quarterly
Desired performance	3 IGR programmes supported
Indicator responsibility	Director, Stakeholder Engagement and IGR: Mr T Qwanyashe

PROGRAMME 2: HUMAN SETTLEMENTS DELIVERY PLANNING AND PERFORMANCE

2.1 HUMAN SETTLEMENTS RESEARCH AND POLICY DEVELOPMENT

Programme Performance Indicator 1.1

Indicator title	Number of Human Settlements research reports developed
Definition	The indicator refers to research project reports developed with regards to Human Settlements developments. Research reports are considered developed once they are signed off by the Chief Director Human Settlements Delivery Planning and Performance.
Source of data	Research project proposals, Provincial Development Plan vision 2030, National Housing Code (2009), Breaking New Ground (2004), Member of Executive Council Budget and Policy Speech, Sustainable Human Settlements Research Agenda, Programme requests on specific challenges, policy directives
Method of calculation or assessment	Simple count of research reports developed
Means of verification	Human Settlements research reports developed
Assumptions	Sufficient human resource, financial capacity and cooperation from relevant stakeholders
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Cumulative (year-to -date)
Reporting cycle	Annually
Desired performance	1 Human Settlements research reports with key findings and recommendations
Indicator responsibility	Director, Human Settlements Research and Policy Development: Ms N Siwisa

Programme Performance Indicator 1.2

Indicator title	Number of Human Settlements policies developed
Definition	Human Settlements Policy is a procedural document that provides guidance on the course of action to implement Human Settlements development programmes. Policy is developed when it is approved by the MEC.
Source of data	The constitution of the republic of South Africa 1996, Sustainable Development Goals, African Agenda 2063, National Housing Act, State of the Nation Address, National Housing Code of 2009, National and Provincial Development Plan vision 2030, Member of the Executive Council Budget and Policy Speech and Sustainable Human Settlements Research Agenda, Breaking New Grounds 2004, RSA constitution, Human Settlement research reports.
Method of calculation or assessment	Simple count of Human Settlements policies developed
Means of verification	Policy/Guidelines approved by the HOD and Human Settlements development policies approved by the MEC
Assumptions	Sufficient human resource, financial capacity and cooperation from relevant stakeholders
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Cumulative (year-to -date)
Reporting cycle	Annually
Desired performance	1 Human Settlements policy developed
Indicator responsibility	Director, Human Settlements Research and Policy Development: Ms N Siwisa

2.2 HUMAN SETTLEMENTS DELIVERY PLANNING

Programme Performance Indicator 1.3

Indicator title	Number of Conditional Grant Business Plans developed
Definition	A credible Business Plan is developed for the adequate distribution of resources for all departmental programmes through the department's capital budget. The number of conditional grant business plans refers to: the first draft Business Plans of the following financial year, the Mid-Term Review Adjustment Business Plans for the current financial year and the Final Draft Business Plans for the coming financial year
Source of data	Project Readiness Matrices, Municipal IDPs and Human Settlements Sector Plans, MYHSDP
Method of calculation or assessment	Simple count Conditional Grant Business Plans developed
Means of verification	Conditional Grant Business Plans developed
Assumptions	Sufficient human capacity; cooperation from critical stakeholders
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	Not applicable
Calculation type	Cumulative (Year-end)
Reporting cycle	Annually
Desired performance	3 Conditional Grant Business Plans developed by 31 March
Indicator responsibility	Director - Human Settlements Delivery Planning: Ms N Skenjana

2.3 CAPACITY BUILDING AND MUNICIPAL SUPPORT

Programme Performance Indicator 1.4

Indicator title	Number of municipalities supported on Human Settlements programmes
Definition	The indicator refers to provision of support to municipalities on formal and informal training. Support to municipalities includes the following: Capacity Building sessions for Councillors, Traditional Leaders and Municipal officials on Human Settlements programmes – informal training Providing support to municipalities towards fully functioning National Register Housing through the provision of training for municipal officials to access the National Housing Needs Register, hands on support (ILIMA) in data collection and uploading of collected data, training of field workers for data collection - formal and informal training Training municipal officials on the Housing Subsidy System for access to viewing of application status, editing of housing subsidy applications and drawing of reports – formal and certified training
Source of data	Housing Code and Municipal requests on support required
Method of calculation or assessment	Simple count municipalities supported on Human Settlements programs
Means of verification	Attendance registers for Capacity Building Sessions, National housing needs register training and housing subsidy system training. Report listing the municipalities and areas of support provided on Human Settlements programs.
Assumptions	Sufficient budget and cooperation from municipalities
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Whole Province
Calculation type	Cumulative (Year-to-date)
Reporting cycle	Quarterly
Desired performance	39 Municipalities supported on Human Settlements programmes
Indicator responsibility	Director, Capacity Building and Municipal Support: Mr L Scholtz

PROGRAMME 3: HOUSING DEVELOPMENT

3.1. HUMAN SETTLEMENTS FACILITATION PROGRAMME

3.1.1. BENEFICIARY MANAGEMENT

Programme Performance Indicator 1.1

Indicator title	Number of beneficiary administration interventions implemented
Definition	The indicator refers to beneficiary administration intervention to implement on municipalities on the establishment and monitoring of Beneficiary Allocation Committees (BACs), conduct Beneficiary Correctness Occupation (BCO) programmes, roll-out Beneficiary advocacy programmes awareness on beneficiary allocation policy and approved Destitute beneficiaries. Municipalities are supported in line with Beneficiary Allocation Policy on the following: Establishment and monitoring of Beneficiary Allocation Committees (BACs) to ensure their functionality through direct engagements and direct participation where necessary. Consultative sessions with municipalities on the establishment of Beneficiary Allocation Committee. Facilitate the appointment and replacement of BAC members (Provincial officials) by the Accounting Officer Capacitate members of the allocation committees on their roles and responsibilities in accordance with National Allocation Guidelines and Provincial Allocation Policy. Advise members of the allocation committee on pipeline and current projects that require allocation and ensure the committee's state of readiness in liaison with regions. Maintain constant communication with the committees to identify challenges and develop appropriate responses. Provision of support and guidance to municipalities to ensure correct occupation by rightful beneficiaries through conducting on-site Beneficiary Correct Occupation (BCO) programme. Development and tabling of BCO reports for implementation by all stakeholders involved. Conduct policy advocacy on Beneficiary allocations Committee's
Source of data	Projects on HSS, Beneficiary Allocation policy, request from respective municipalities and petitions
Method of calculation or assessment	Count of intervention provided
Means of verification	Signed dated report listing all intervention provided
Assumptions	Functionality of HSS
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Cumulative (Year-to-date)
Reporting cycle	Quarterly
Desired performance	4 beneficiary administration interventions implemented
Indicator responsibility	Director, Beneficiary Management: Mr D. Zono

Programme Performance Indicator 1.2

Indicator title	Number of individual subsidies facilitated for payment
Definition	Indicator refers to Individual subsidies paid as stipulated in the Housing Code. This requires submission of windeed report (proof of transfer from deeds office) by conveyancers to the department.
Source of data	Approved beneficiaries on HSS for individual housing subsidies instrument.
Method of calculation or assessment	Count the individual subsidies beneficiaries already paid
Means of verification	Housing Subsidy printout on paid beneficiaries
Assumptions	Functionality of HSS, budget availability
Disaggregation of Beneficiaries (where applicable)	Prioritized Groups (Elderly, most destitute and vulnerable groups, People with Disabilities and military veterans)
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Cumulative year-to-date)
Reporting cycle	Quarterly
Desired performance	77 Individual Subsidies facilitated for Payment
Indicator responsibility	Director, Beneficiary Management: Mr D. Zono

3.1.2. SOCIAL FACILITATION AND CUSTOMER CARE

Programme Performance Indicator 1.1

Indicator title	Number of social facilitation interventions implemented
Definition	This indicator refers to Social Facilitation interventions that are aimed at consulting communities to develop social compact in order to agree on how Government will assist in meeting their identified needs. Communities are engaged on the processes of their development and provide them an opportunity to take ownership of their development. Consumer education is conducted to capacitate community members on their rights, available housing subsidies and how to access them, their responsibilities in their development and processes of housing development, home ownership (to understand the concept of home ownership, maintenance, pre-emptive clause and law of succession etc). These are the five (5) elements: - Facilitate the development of social compacts in human settlements programmes - Conduct community engagement sessions - Facilitate the establishment of Project steering committees - Facilitate consumer education to enhance community capacity - Facilitate community stakeholder engagements sessions.
Source of data	MEC Policy Speech, Strategic Plans, HSS, Housing Code, Housing Consumer Protection Act, and statistics collected and collated from strategic partners (Developers, Consultants, Municipalities & Metros, NHBRC and HDA), Human Settlements Social Facilitation Strategy and approved Business Plans.
Method of calculation or assessment	Simple count on social facilitation interventions implemented
Means of verification	Signed memo confirming the social facilitation interventions conducted
Assumptions	Availability of budget and functionality of HSS

Indicator title	Number of social facilitation interventions implemented
Disaggregation of Beneficiaries (where applicable)	Prioritized Groups (Elderly, most destitute and vulnerable groups, People with Disabilities and military veterans)
Spatial Transformation (Where applicable)	List of regions supported: Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	5 Social facilitation interventions implemented
Indicator responsibility	Acting Director, Social Facilitation and Customer Care: Mr K Mgozelwa

Programme Performance Indicator 1.2

Indicator title	Turnaround time to respond to customer care cases referred/resolved
Definition	The indicator refers to the time that the case is received, attended to, resolved/referred. This process is performed within a standard 30 days period.
Source of data	Constitution, MEC Policy Speech, Strategic Plans, Presidential Hotline, HSS, walk-ins and Housing Code
Method of calculation or assessment	Simple count the days taken to referred/resolved a case
Means of verification	Case register and spreadsheet indicating the date by which the cases were received and the date by which the cases are resolved or referred
Assumptions	Effective customer care system/ register to respond to customer queries
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
Desired performance	30 days to respond to customer care cases referred/resolved
Indicator responsibility	Director, Social Facilitation and Customer Care: Mr K Mgozelwa

3.1.3. EMERGING CONTRACTOR DEVELOPMENT

Programme Performance Indicator 1.1

Indicator title	Percentage of Human Settlements Conditional Grants allocated to MSME Contractors
Definition	The indicator refers to the percentage of the HSDG and ISUPG grants utilised to empower MSME in line with Public Procurement Act.
Source of data	MSME Framework Agreement and the Supply Chain Management register/database on the work opportunities awarded
Method of calculation or assessment	Percentage of Grants allocated to MSMEs appointed from the MSME Framework Agreement.
Means of verification	Report on MSME contractors provided with work opportunities
Assumptions	Assuming 40% of the Grants will be allocated to MSME
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Non-Cumulative
Reporting cycle	Annually
Desired performance	40% Human Settlements Conditional Grants allocated to MSME Contractors
Indicator responsibility	Director, Emerging Contractor Development: Mr M Tshaiviti

Programme Performance Indicator 1.2

Indicator title	Number of youths supported for experiential learning and artisan development programme (learnership and apprenticeship)
Definition	Youth refers to any person who is between the ages 18 -35 years. The artisan development is an intervention by National Government which is informed by skills development framework Act 1998 whose aims and objectives are to alleviate the youths from the joblessness. Youth are supported through the facilitation of apprenticeship and learnership support programmes. The indicator refers to empowerment opportunities created through training and development specifically for youth placed on site. The empowerment of the unemployed youth in the built environment. To this end in the 2025/26 financial year, the Department will target youth groups to empower them through training in built environment trades. Facilitation of the programme entails the following: • Project identification for onsite placement for experiential and/or learnership • Recruitment through youth mobilization and selection • Appointment of the technical service provider to report trades performed • Onsite Placement on identified projects • On site training and reporting on trades • Facilitation of the learnership/apprenticeship programme • Monitoring the implementation of the artisan development programme through site visits with the appointed accredited training providers • Monitoring and evaluation Reporting
Source of data	National Development Plan Vision 2030, Provincial Development Plan (PDP) and Joint Initiative on Priority Skill Acquisition (JIPSA), List of unemployed youth from affected municipalities, project list from regions
Method of calculation or assessment	Simple count of the youth participating in onsite placement for experiential learning and supported for the artisan development programme (apprenticeship and learnership)
Means of verification	Signed and dated list of youth supported for the onsite placement and learnership as well as support for artisan development programme
Assumptions	Availability of unemployed youth from affected municipalities and the availability of Budget
Disaggregation of Beneficiaries (where applicable)	Youth: (18-35 years) Males Females

Indicator title	Number of youths supported for experiential learning and artisan development programme (learnership and apprenticeship)
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Cumulative (Year-end)
Reporting cycle	Quarterly
Desired performance	142 youths supported for experiential learning and artisan development programme (learnership and apprenticeship)
Indicator responsibility	Director, Emerging Contractor Development: Mr M Tshaiviti

Programme Performance Indicator 1.3

Indicator title	Number of work opportunities created
Definition	The indicator refers to work opportunities created during the implementation of HSDG and ISUPG projects adhering to the EPWP principles.
Source of data	Guidelines for the Implementation of Labour-Intensive Infrastructure Project Under the Expanded Public Works Programme PHASE 5, 2024
Method of calculation or assessment	Simple Count the EPWP jobs opportunities created. The type of work opportunities created are Full Time Equivalent (FTE) and are calculated as follows: When a person works 230 days in a project with 300 units as an example It requires a team of 9 people to build a single house for 22days 9 persons x 22 days 9 persons x 22 days x 300 units = 59400 ÷ 230 days EQUALS TO 258 FTE's
Means of verification	EPWP Report on work opportunities created
Assumptions	Availability of budget
Disaggregation of Beneficiaries (where applicable)	Youth Women Men People living with Disability
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	5 834 work opportunities created
Indicator responsibility	Director, Emerging Contractor Development: Mr M Tshaiviti

Programme Performance Indicator 1.4

Indicator title	Percentage of black industrialists building materials procured by contractors contracted
Definition	The indicator refers to percentage of black industrialists acquired from the Eastern Cape Department of Human Settlements panel of emerging material suppliers, whose building materials is procured by contractors appointed by the Eastern Cape Department of Human Settlements. The Black Industrialists development programme provides coordinated and explicit guidelines for the promotion and long-term development of black manufacturing entities. It provides a platform to supervise the direction of Black enterprise development; and emphasizes Black industrialist significance for national and local economic growth and sustainability. The Department will promote the procurement of materials from black industrialists (building material suppliers) in the following manner: • Establishment of ECDHS panel of Black Industrialists' building material suppliers • Evaluate bid documents' compliance relative to the procurement of local content production • Identify projects to ensure compliance with the clause in the contract relative to the procurement of the local content (building material) • Acquire information from Small Enterprise Development and Finance Agency (SEDFA), Eastern Cape Department of Economic Development, Environmental Affairs and Tourism (DEDEA) and Eastern Cape Department of Public Works and Infrastructure. • Provide the list of the capacitated black industrialists (building material suppliers) to the Regional Directors and the Directorate of SCM for the procurement of their building materials by appointed contractors • Monitoring and evaluation to assess compliance with the contract of appointed • Reporting on compliance and non-compliance
Source of data	Black Industrialist Policy and Panel of building Material Black Industrialist
Method of calculation or assessment	Simple count of percentage of Black Industrialists sourced from Departmental Panel of building Material Black Industrialist
Means of verification	Signed and dated list of black industrialists sourced from Departmental Panel of building Material Black Industrialist whose building materials are procured by contractors appointed by Eastern Cape Department of Human Settlements.
Assumptions	Procurement strategies and terms of reference containing 10% procurement of building material from the black industrialist
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Amathole BCMM Chris Hani Joe Gqabi NMBM Sarah Baartman OR Tambo Alfred Nzo
Calculation type	Non-Cumulative
Reporting cycle	Annually
Desired performance	10% of black industrialists' building materials procured by contractors contracted
Indicator responsibility	Director, Emerging Contractor Development: Mr M Tshaiviti

3.2. HUMAN SETTLEMENTS INCREMENTAL PROGRAMME

3.2.1. EMERGENCY HOUSING AND EPHP

Programme Performance Indicator 1.1

Indicator title	Number of EPHP projects supported
Definition	The indicator refers to the programme which allows for active participation of beneficiaries in decision making towards the construction of their houses within a project through Community Resource Organisations (CRO's). The National guidelines make provision for the elements of support for the EPHP projects. The support includes, but is not limited to the following; • Coordination of funding approval by the MEC • Once funding is approved, facilitate the appointment of CRO's • Ensure beneficiary committee is in place • Ensure project monitoring through progress meetings • Ensure Housing consumer education takes place
Source of data	MEC resolution
Method of calculation or assessment	Simple count of EPHP projects supported
Means of verification	Report on EPHP projects supported
Assumptions	Adequate human, technical and financial capacity of CRO.
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	List of areas where EPHP projects are supported: 1. Sakhisizwe Local Municipality 2. Nelson Mandela Metro 3. Buffalo City Metro
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
Desired performance	5 ePHP projects supported
Indicator responsibility	Director, Emergency Housing and EPHP Ms: V Langa

Programme Performance Indicator 1.2

Indicator title	Number of temporary shelters erected for destitute cases
Definition	The indicator tracks the number of temporary shelters provided to destitute beneficiaries who find themselves in destitute housing situations which are beyond their control. The assistance will be in the form of temporary shelters. Such destitute housing situations are as follows: a) Have become destitute as a result of a situation which is not declared as a disaster, but destitution is caused by extraordinary occurrences such as floods, strong winds, severe rainstorms and/or hail, snow, devastating fires, earthquakes and/or sinkholes or large disastrous industrial incidents. b) Are evicted or threatened with imminent eviction from land or from unsafe buildings, or situations where pro-active steps ought to be taken to forestall such consequences c) Whose homes are demolished or threatened with imminent demolition d) Are in a situation of exceptional housing need, which constitutes an Emergency that can reasonable be addressed by only resettlement or other appropriate assistance in terms of the programme. e) A 30 m2 temporary structure which complies to the emergency Housing Policy
Source of data	Formal and informal requests from Municipalities / Regional Offices/ MEC office/ HOD office
Method of calculation or assessment	Count handover certificates of the shelters erected / Certificate of Practical Completion
Means of verification	Spreadsheet listing or report on shelters erected for destitute housing cases
Assumptions	Adequate Financial, human, technical and financial capacity of contractors to deliver temporary shelters / Accuracy of municipal request in line with Emergency Housing Policy.
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	Not applicable
Calculation type	Cumulative (year-end)
Reporting cycle	Quarterly
Desired performance	449 temporary shelters erected.
Indicator responsibility	Director, Emergency Housing and EPHP Ms: V Langa

3.2.2. INFORMAL SETTLEMENTS UPGRADING

Programme Performance Indicator 1.1

Indicator title	Number of informal settlements completed in Phase 1
Definition	The indicator measures the Informal Settlements completed in Phase 1 as per the National Housing Code. Phase 1 includes pre-feasibility studies, upgrading plans, and community social compacts. The milestones entail the following: • Pre-feasibility studies – initial evaluation study • Upgrading plans – upgrading plans developed. • Community social compacts – formal agreement or understanding between various stakeholders within the community, government, and residents. Completed refers to the approval of the above milestones
Source of data	• Informal Settlement Upgrading Plan • Informal Settlement Upgrading Strategy • National Housing Code • Informal Settlements Upgrading Partnership Grant (ISUPG)
Method of calculation or assessment	A simple count of informal settlements completed in Phase 1
Means of verification	Upgrading Plans or Social Compact
Assumptions	Adequate human, technical and financial capacity to deliver the accuracy of a database of Municipalities Integrated Development Plans (IDPs), Spatial Planning and Land Use Management Act (SPLUMA) planning, and the accuracy of Informal Settlements Upgrading Plans.
Disaggregation of Beneficiaries (where applicable)	No disaggregation for all Gender and creed considered
Spatial Transformation (Where applicable)	List of regions supported Alfred Nzo, Amathole, Chris Hani, Joe Gqabi, O.R. Tambo and Sarah Baartman
Calculation type	Non-Cumulative
Reporting cycle	Annually
Desired performance	30 Informal Settlements completed in Phase 1
Indicator Responsibility	Director, Informal Settlements Upgrading: Mr S Nyirenda

Programme Performance Indicator 1.2

Indicator title	Number of informal settlements completed in Phase 2
Definition	The indicator measures the Informal Settlements completed in Phase 1 as per the National Housing Code. Phase 1 includes pre-feasibility studies, upgrading plans, and community social compacts. The milestones entail the following: • Pre-feasibility studies – initial evaluation study • Upgrading plans – upgrading plans developed. • Community social compacts – formal agreement or understanding between various stakeholders within the community, government, and residents. Completed refers to the approval of the above milestones
Source of data	• Informal Settlement Upgrading Plan • Informal Settlement Upgrading Strategy • National Housing Code • Informal Settlements Upgrading Partnership Grant (ISUPG)
Method of calculation or assessment	A simple count of informal settlements completed in Phase 2
Means of verification	Project Progress Report and Engineering certificate or Practical Completion Certificate
Assumptions	Adequate human, technical and financial capacity to deliver the accuracy of a database of Municipalities Integrated Development Plans (IDP's), Spatial Planning and Land Use Management Act (SPLUMA) planning, and the accuracy of Informal Settlements Upgrading Plans.
Disaggregation of Beneficiaries (where applicable)	No disaggregation for all Gender and creed considered

Indicator title	Number of informal settlements completed in Phase 2
Spatial Transformation (Where applicable)	List of regions supported Alfred Nzo, Amathole, Chris Hani, Joe Gqabi, O.R. Tambo and Sarah Baartman
Calculation type	Non-Cumulative
Reporting cycle	Annually
Desired performance	47 Informal Settlements completed in Phase 2
Indicator Responsibility	Director, Informal Settlements Upgrading: Mr S Nyirenda

Programme Performance Indicator 1.3

Indicator title	Number of informal settlements upgraded in Phase 3
Definition	This indicator measures the number of informal settlements upgraded in phase 3 of UISP. Upgrading in phase 3 refers to the installation of permanent municipal engineering infrastructure.
Source of data	- Surveyor General - Deeds Office - Informal Settlement Upgrading Strategy - Business Plan, Resolution Register of projects approved, National Housing Code, ISSP - Informal Settlements Upgrading Grant
Method of calculation or assessment	Simple count of informal settlements upgraded in phase 3
Means of verification	Municipal Engineering Service Certificate or Practical Completion certificate
Assumptions	Adequate human, technical and financial capacity, Inclusion in the Municipalities IDP and Informal Settlements Upgrading Plans.
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	List of regions supported. Alfred Nzo, Amathole, Chris Hani, Joe Gqabi, O.R. Tambo and Sarah Baartman
Calculation type	Non-Cumulative
Reporting cycle	Quarterly
Desired performance	83 Informal settlements upgraded to phase 3
Indicator Responsibility	Director, Informal Settlements Upgrading: Mr S Nyirenda

Programme Performance Indicator 1.4

Indicator title	Number of Socio-economic facilities provided
Definition	The provision of social and economic amenities to enhance the sustainability of the human settlements with the following objectives: - Encourage empowerment of communities with space to undertake their own community projects. - A catalyst for the social-economic development of the community - Facilitate the integration of services by forming partnerships with Sector Departments & other private stakeholders. - Reinforce the vision of the Department to promote the achievement of a non-racial, integrated society through the development of sustainable human settlements The programme facilitates the planning and development of basic social and economic amenities in target communities.
Source of data	- Municipalities and the respective communities - National Housing Code - Informal Settlements Upgrading Partnership Grant (ISUPG)
Method of calculation or assessment	Count the Socio-economic facility developed
Means of verification	Practical Completion certificates of Socio-economic facilities completed
Assumptions	Adequate human, technical and financial capacity to deliver the accuracy of a database of Municipality's Integrated Development Plans (IDP's), Spatial Planning and Land Use Management Act (SPLUMA) planning, The needs analysis.
Disaggregation of Beneficiaries (where applicable)	No disaggregation, for all Gender and creed considered

Indicator title	Number of Socio-economic facilities provided
Spatial Transformation (Where applicable)	Previously disadvantaged human settlements communities
Calculation type	Cumulative (year-to-date)
Reporting cycle	Annually
Desired performance	2 Socio-economic facilities provided
Indicator responsibility	Director, Informal Settlements Upgrading: Mr S Nyirenda

3.2.3. DESTITUTE & VULNERABLE GROUPS AND SPU

Programme Performance Indicator 1.1

Indicator title	Number of houses handed over to approved Military Veterans
Definition	The indicator refers to the houses handed over to the military veterans in terms of the Military Veterans Act of 2011. A Military Veteran house is a permanent residential structure to be provided by means of the housing subsidy at a minimum, 50 square metres of gross floor area. Each house as a minimum must be designed in line with the minimum requirements as per the Housing Code. The Military Veterans Act of 2011 Military veterans defines a military veteran as a South African citizen who has rendered military service to any of the military organization which were involved in all the sides of South Africa's liberation war from 1960 to 1994, those who served in the union Defense Force before 1961, and those who become members of the South African National Defense Force after 1994, and has completed his/her military training and no longer performs military duties, and has not been honorable discharged from that military organization. A qualifying/approved Military Veteran is handed over with a house upon completion.
Source of data	Military Veterans database, HSDG Business Plan and HSS.
Method of calculation or assessment	Simple count houses handed over to Military Veterans (house acceptance forms)
Means of verification	Military Veterans house acceptance form signed by beneficiary to whom the house has been handed over.
Assumptions	Adequate human and financial capacity to deliver and accuracy of request from Military Veterans associations
Disaggregation of Beneficiaries (where applicable)	Males: Females:
Spatial Transformation (Where applicable)	List of regions supported: Joe Gqabi, NMM, OR Tambo, Sarah Baartman, Alfred Nzo, Chris Hani, Amathole and BCM
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	143 houses handed over to approved Military Veterans.
Indicator responsibility	Director, Destitute and other Vulnerable Groups and SPU: Ms N. Dunjana

Programme Performance Indicator 1.2

Indicator title	Number of houses handed over to destitute persons
Definition	The indicator tracks the number houses handed over to of destitute persons. A destitute person is verified upon receipt of a request from various stakeholders i.e., Municipalities, Regional Office, MP's, MPL's, Traditional Leaders, CDW's, CBO's, Ward Councillors, NGO's, Sector Departments and OMEC. Destitute person is an individual who has lost his/her productive capacity and is unable to engage in economic activities and has no shelter or close family members that can assist him/her. Destitute person includes the following categories: children, children with disabilities, women, older persons, historically disadvantaged racial groups, and persons with disabilities, homeless and persons living in rural areas as per the South African Human Rights Commission and Labour Protocol.
Source of data	Information compiled from the requests received from various stakeholders such as Municipalities, Regional Office, MP's, MPL's, Traditional Leaders, CDW's, CBO's, Ward Councillors, NGO's, Sector Departments and OMEC.
Method of calculation or assessment	Simple count houses handed over to destitute persons
Means of verification	House acceptance form signed by beneficiary to whom the house has been handed over.
Assumptions	Adequate human and financial capacity to deliver and requests received from various stakeholders. Political and social support for the uplifting of destitute persons.
Disaggregation of Beneficiaries (where applicable)	Not applicable
Spatial Transformation (Where applicable)	List of regions supported: Joe Gqabi, NMM, OR Tambo, Sarah Baartman, Alfred Nzo, Chris Hani, Amathole and BCM
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	4 827 houses handed over to destitute persons
Indicator responsibility	Director, Destitute and other Vulnerable Groups and SPU: Ms N. Dunjana

3.3. DISTRICT COORDINATION AND PROJECT MANAGEMENT

3.3.1. DISTRICTS SUPPORT

Programme Performance Indicator 1.1

Indicator title	Number of Housing units completed
Definition	The purpose of the indicator is to measure progress achieved in the completion of full subsidy housing units by the Provincial Departments of Human Settlements. A Housing Unit is a permanent residential structure to be provided by means of the housing subsidy at a minimum of 40 square meters of gross floor area. Each house, as a minimum, must be designed in line with the minimum requirements as per the Housing Code.
Source of data	• Business Plan • HSS, Project Manager's signed project report • Project Implementation Plan (PIP)
Method of calculation or assessment	Simple count of the Housing units completed
Means of verification	Practical Completion Certificate or Final Unit Report
Assumptions	Availability of Budget Accessibility to the site to construct Appointment of a reliable contractors Quantum Allowed is enough to constructs approved design
Disaggregation of Beneficiaries (where applicable)	Approved Beneficiaries
Spatial Transformation (Where applicable)	List of regions supported: Alfred Nzo, Amathole, Buffalo City Metro, Chris Hani, Joe Gqabi, Nelson Mandela Metro, O.R. Tambo and Sarah Baartman
Calculation type	Cumulative (year-end)
Reporting cycle	Quarterly
Desired performance	4 970 Housing units completed
Indicator responsibility	Acting Chief Director, District Coordination and Project Management: Mr B Panda

Programme Performance Indicator 1.2

Indicator title	Number of serviced sites completed
Definition	The purpose of the indicator is to measure progress achieved in the completion of serviced sites by the Provincial Department of Human Settlements utilising Human Settlement Development Grant. Serviced site refers to a stand/erf/plot which has access to water (water tank for rural and other water scares areas), sanitation (VIP for rural), stormwater and roads. Service site is considered completed once an engineer's report/final unit report/practical completion certificate has been issued
Source of data	• Business Plan • HSS, Project Manager's signed project report • Project Implementation Plan (PIP)
Method of calculation or assessment	Simple count of serviced sites completed
Means of verification	Practical Completion Certificate or Final Unit Report
Assumptions	Availability of Budget Accessibility to the site to construct Appointment of a reliable contractors Quantum Allowed is enough to constructs approved design
Disaggregation of Beneficiaries (where applicable)	Approved beneficiaries
Spatial Transformation (Where applicable)	List of regions supported: Alfred Nzo, Amathole, Buffalo City Metro, Chris Hani, Joe Gqabi ,Nelson Mandela Metro, O.R. Tambo and Sarah Baartman
Calculation type	Cumulative (year-end)
Reporting cycle	Quarterly
Desired performance	4 345 targeted serviced sites completed through HSDG
Indicator responsibility	Acting Chief Director, District Coordination and Project Management: Mr B Panda

Programme Performance Indicator 1.3

Indicator title	Number of defective houses rectified (Pre and Post)
Definition	This indicator measures the number of rectified housing units—both Pre- and Post-1994—that were previously deemed unsafe and uninhabitable.
Source of data	Project Implementation Plan (PIP)
Method of calculation or assessment	A simple count of all defective houses that have been rectified.
Means of verification	Practical Completion Certificate or Final Unit Report
Assumptions	Support from regional offices
Disaggregation of Beneficiaries (where applicable)	Approved Beneficiaries
Spatial Transformation (Where applicable)	List of regions supported: OR Tambo, Amathole, BCM, Nelson Mandela, Sarah Baartman and Chris Hani
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	Rectification of 1,158 defective housing units (Pre- and Post-1994).
Indicator responsibility	Acting Chief Director, District Coordination and Project Management: Mr B Panda

3.3.2. PROJECT MANAGEMENT UNIT

Programme Performance Indicator 1.1

Indicator title	Number of projects with ISBT elements implemented
Definition	The indicator refers to non – standardised construction that utilises building systems, methods, materials, elements or components which are not fully covered by existing building standards or codes of practise and are not described or referred to in the deem-to satisfy rule of the National Building Regulations.
Source of data	Business Plan
Method of calculation or assessment	Simple count projects with ISBT element implemented
Means of verification	Progress Report
Assumptions	Availability of Budget Approved projects
Disaggregation of Beneficiaries (where applicable)	Approved Beneficiaries
Spatial Transformation (Where applicable)	List of regions supported: Alfred Nzo, Amathole, Buffalo City Metro, Chris Hani, Joe Gqabi , Nelson Mandela Metro, O.R. Tambo and Sarah Baartman
Calculation type	Cumulative (year-to-date)
Reporting cycle	Quarterly
Desired performance	3 Projects with ISBT elements implemented
Indicator responsibility	Acting Chief Director, District Coordination and Project Management: Mr B Panda

PROGRAMME 4. HUMAN SETTLEMENTS PROPERTY AND ASSETS MANAGEMENT

4.1. LAND ACQUISITION AND TENURE SERVICE

Programme Performance Indicator 1.1

Indicator title	Number of title deeds registered
Definition	The indicator measures the transfer of ownership of an erf from government entities to beneficiaries/ occupant or deceased estate of even provided through a state-subsidized mechanism. Registration refers to the legal process that prescribes the transfer of ownership in terms of the Deeds Registries Act 47 of 1937.
Source of data	- Windeed or Deeds web (deeds office system) (Provinces) - Quarterly DORA and performance reports submitted by provinces (National Department of Human Settlements) - Conveyancer or Housing Subsidy System (HSS) (List of approved beneficiaries) or Basic Accounting System (BAS) or Information Management (Depending on Province)
Method of calculation or assessment	Simple count registered title deeds
Means of verification	- List of beneficiaries and Conveyancing certificates - Copies of title deeds or Deeds search printouts
Assumptions	The target will be achieved if all relevant stakeholders perform as expected and the NDHS provides the required support that will yield the provincial output items, as per the business plans. Availability of completed pre-conveyancing activities and appointed conveyancers
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	List of regions supported: Alfred Nzo Amathole BCMM Chris Hani Joe Gqabi NMBM Or Tambo Sarah Baartman
Calculation type	Cumulative (year-end)
Reporting cycle	Quarterly
Desired performance	1 666 title deeds registered
Indicator responsibility	Director, land acquisition and tenure service: Mr Z Mrwashu

Programme Performance Indicator 1.2

Indicator title	Number of land parcels devolved to Municipalities in terms of section 15 of the Housing Act 107, 1997
Definition	The indicator tracks the devolution of land assets to municipalities in terms of section 15 of the Housing Act 107, 1997. Land parcels are individual pieces of land that need to be devolved to municipalities for Human Settlements development. The land parcels devolved when the ownership of the land is registered at the deeds office from department to the respective municipality.
Source of data	Former housing board asset register.
Method of calculation or assessment	Simple count of land parcels devolved to Municipalities
Means of verification	Letter of endorsement from state attorney reflecting the number of land parcels as confirmation of devolution to the said Municipality.
Assumptions	Co-operation in the signing of deeds of sale by the municipality.
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Cumulative (year-end)
Reporting cycle	Annually
Desired performance	5 land parcels devolved to Municipalities
Indicator responsibility	Director, land acquisition and tenure service: Mr Z Mrwashu

4.2. SOCIAL AND RENTAL HOUSING

Programme Performance Indicator 1.1

Indicator title	Number of subsidies disbursed through FHF
Definition	The indicator measures the number of households received subsidies through FHF. The subsidy Programme is available to qualifying beneficiaries in affordable housing market to beneficiaries owning home for the first time. Government will provide a once-off subsidy contribution, which is a non-refundable amount and depending on gross household income earning between R3 501 – R22 000 gross income per month as per FLISP policy
Source of data	- Data will be collected from Provinces and NHFC - HSS (Housing Subsidy System) - List of applications forms of potential beneficiaries - BAS report on applications received and paid
Method of calculation or assessment	Simple count of households that received subsidies through FHF
Means of verification	- Quarterly reports on FHF List of beneficiaries - Approval letters - Payment requisition and supporting documents - Windeed report reflecting beneficiary who received FHF payments - FHF subsidy payment requisition and applicant's Identity Document - HSS Beneficiary Report & Form 4 - BAS financial report - Proof of transfer as well as proof of payment indicating the following: name of beneficiary; ID number; and the amount of the subsidy - Copies of the individual enquiries from the Deeds Website stating the following information: erf number; owner of property; purchase price; and ID number
Assumptions	Potential beneficiaries approved by banks
Disaggregation of Beneficiaries (where applicable)	Not Applicable
Spatial Transformation (Where applicable)	Not Applicable
Calculation type	Cumulative (year-end)
Reporting cycle	Quarterly
Desired performance	260 subsidies disbursed through FHF
Indicator responsibility	Director, Social and Rental Housing: Mr D Ramonyadiwa

ANNUAL PERFORMANCE PLAN 2024/25

ANNEXURES A-D

Transforming communities together

ANNEXURE A: AMENDMENTS TO THE STRATEGIC PLAN

The Strategic Plan has not been revised in the financial year.

ANNEXURE: B CONDITIONAL GRANTS

Name of Grant	Purpose	Outputs	Current annual budget (R thousands)	Period of grant
Human Settlement Development Grant	Housing Development	Housing Delivery	R 1 572 985	2025/26
Extended Public Works Programme Grant	Is a conditional grant allocated to eligible public bodies to expand job creation efforts in specific focus areas, where labour intensive delivery methods can be maximised	Job creation	R 3 447	2025/26
